

Mosaic Provides Operational Update

14.10.2024 | [ACCESS Newswire](#)

TAMPA, October 14, 2024 - [The Mosaic Company](#) (NYSE:MOS) today provided an update on the impact of the recent hurricanes on North American phosphate operations.

Last week Mosaic proactively idled all Florida operations ahead of Hurricane Milton to mitigate potential impacts. Based on early assessments, limited damage was sustained across the facilities and to products in warehouses. Power has been restored to all facilities, and ports in the region have re-opened. The facilities are expected to return to full production capacity over the coming days as site remediation and cleanup are completed.

Mosaic previously announced a production disruption at its Riverview facility due to Hurricane Helene.

Mosaic will provide an update on production losses from the above noted weather events as recovery efforts progress.

Mosaic is pleased to announce no significant environmental impacts occurred due to the storms. In addition, Mosaic contributed \$500,000 to organizations that are assisting our Florida operating communities with recovery. Mosaic has several programs in place for its affected team members, including an Employee-to-Employee Assistance Fund.

About The Mosaic Company

The Mosaic Company is one of the world's leading producers and marketers of concentrated phosphate and potash crop nutrients. Mosaic is a single source provider of phosphates and potash fertilizers and feed ingredients for the global agriculture industry. More information on the company is available at www.mosaicco.com.

This release contains forward-looking statements within the meaning of the Private Securities Litigation Reform Act of 1995. Such statements may include, but are not limited to, statements about proposed or pending transactions or strategic plans and other statements about future financial and operating results. Such statements are based upon the current beliefs and expectations of The Mosaic Company's management and are subject to significant risks and uncertainties. These risks and uncertainties include, but are not limited to: political and economic instability and changes in government policies in countries in which we have operations; the predictability and volatility of, and customer expectations about, agriculture, fertilizer, raw material, energy and transportation markets that are subject to competitive and other pressures and economic and credit market conditions; the level of inventories in the distribution channels for crop nutrients; the effect of future product innovations or development of new technologies on demand for our products; changes in foreign currency and exchange rates; international trade risks and other risks associated with Mosaic's international operations and those of joint ventures in which Mosaic participates, including the performance of MWSPC, the future success of current plans for MWSPC and any future changes in those plans; risks related to the anticipated value of the Ma'aden shares to be issued in the proposed transaction at transaction announcement and at closing, the expected timing and likelihood of completion of the pending Ma'aden transaction, including the inability to receive the required approval by Ma'aden shareholders and

other approvals, including potential regulatory approvals, necessary to complete the transaction; the occurrence of any event, change or other circumstances that could give rise to the termination of the applicable agreement; the risk that there may be a material adverse change with respect to the financial position, performance, operations or prospects of Ma'aden and MWSPC; difficulties with realization of the benefits of our natural gas based pricing ammonia supply agreement with CF Industries, Inc., including the risk that the cost savings initially anticipated from the agreement may not be fully realized over its term or that the price of natural gas or ammonia during the term are at levels at which the pricing is disadvantageous to Mosaic; customer defaults; the effects of Mosaic's decisions to exit business operations or locations; changes in government policy; changes in environmental and other governmental regulation, including expansion of the types and extent of water resources regulated under federal law, carbon taxes or other greenhouse gas regulation, implementation of numeric water quality standards for the discharge of nutrients into Florida waterways or efforts to reduce the flow of excess nutrients into the Mississippi River basin, the Gulf of Mexico or elsewhere; further developments in judicial or administrative proceedings, or complaints that Mosaic's operations are adversely impacting nearby farms, business operations or properties; difficulties or delays in receiving, increased costs of or challenges to necessary governmental permits or approvals or increased financial assurance requirements; resolution of global tax audit activity; the effectiveness of Mosaic's processes for managing its strategic priorities; adverse weather conditions affecting operations in Central Florida, the Mississippi River basin, the Gulf Coast of the United States, Canada or Brazil, and including potential hurricanes, excess heat, cold, snow, rainfall or drought; actual costs of various items differing from management's current estimates, including, among others, asset retirement, environmental remediation, reclamation or other environmental regulation, Canadian resources taxes and royalties; reduction of Mosaic's available cash and liquidity, and increased leverage, due to its use of cash and/or available debt capacity to fund financial assurance requirements and strategic investments; brine inflows at Mosaic's potash mines; other accidents and disruptions involving Mosaic's operations, including potential mine fires, floods, explosions, seismic events, sinkholes or releases of hazardous or volatile chemicals; and risks associated with cyber security, including reputational loss; as well as other risks and uncertainties reported from time to time in The Mosaic Company's reports filed with the Securities and Exchange Commission. Actual results may differ from those set forth in the forward-looking statements.
