

O3 Mining Inc. Issues Units Upon Exercise of Participation Rights by Strategic Investor

24.10.2024 | [CNW](#)

[O3 Mining Inc.](#) (TSXV: OIII) ("O3 Mining" or the "Corporation") announces that, in connection with its private placement of flow-through units that closed on October 3, 2024 (see news release of O3 Mining entitled "O3 Mining Completes Non-Brokered Private Placement of Flow-Through Units"), it has issued 40,000 flow-through units (the "FT Units") at a price of \$1.92 per FT Unit for gross proceeds of \$76,800 (the "Offering"), on a non-brokered private placement basis, following the exercise of participation rights by the Corporation's strategic investor.

Each FT Unit consists of one common share of the Corporation (each, an "FT Unit Share") and one-half of one common share purchase warrant (each whole warrant, a "Warrant"), each of which will qualify as a "flow-through share" (within the meaning of subsection 66(15) of the Income Tax Act (Canada) and section 359.1 of the Taxation Act (Québec)). Each Warrant will entitle the holder to purchase one (non-flow-through) common share of the Corporation at a price of \$1.45 per common share until August 28, 2026.

After giving effect to the Offering, the Corporation has now completed two offerings in 2024 for aggregate gross proceeds of \$22,895,666, consisting of (i) \$21,422,500 in units of the Corporation, which closed in two tranches on August 28, 2024 and August 30, 2024, and (ii) \$1,473,166 in FT Units of the Corporation, which closed in two tranches on October 3, 2024 and October 24, 2024. In each case, the second tranches were completed following the exercise of participation rights by the Corporation's strategic investor.

"We are pleased with the successful completion of these two financings in 2024", President and CEO, José Vizquerra commented. "O3 Mining is now well funded to execute on our exploration and development plans on our properties in Québec. Our focus remains on progressing the feasibility study and impact study at Marban Alliance for completion in 2025. We also plan to execute a drilling program at our Kinebik Project, located along the prolific Casa Berardi Break. Our team is grateful to have the continued support of many of our existing shareholders and to welcome new investors who participated in the Corporation's public offering and private placement. As we progress through the year, we are confident in our financial flexibility to pursue further opportunities as they arise."

The gross proceeds from the Offering will be used by the Corporation to incur eligible "Canadian exploration expenses" that qualify as "flow-through mining expenditures" (as both terms are defined in the Income Tax Act (Canada)) (the "Qualifying Expenditures") related to the Corporation's projects in Québec. The Qualifying Expenditures will be renounced in favour of the subscribers with an effective date no later than December 31, 2024. In addition, with respect to subscribers who are eligible individuals under the Taxation Act (Québec), the Qualifying Expenditures will also qualify for inclusion in the "exploration base relating to certain Québec exploration expenses" within the meaning of section 726.4.10 of the Taxation Act (Québec) and for inclusion in the "exploration base relating to certain Québec surface mining exploration expenses" within the meaning of section 726.4.17.2 of the Taxation Act (Québec).

All securities issued under the Offering are subject to a hold period of four months and one day from the issue date in accordance with applicable Canadian securities laws.

The Offering is subject to the final approval of the TSX Venture Exchange.
