

# Homerun Resources Inc. Memorandum of Understanding with Local Partner for the Processing of High Purity Silica Sands Originating from the Belmonte Silica District

04.11.2024 | [Newsfile](#)

Vancouver, November 4, 2024 - [Homerun Resources Inc.](#) (TSXV: HMR) (OTCQB: HMRFF) ("Homerun" or the "Company") is pleased to announce that the Company has today received an executed non-binding Memorandum of Understanding (MOU), between Homerun and an experienced and reputable local partner in the Belmonte Silica District (the "Partner").

- Both Homerun and the Partner have assets under ownership or control in the Belmonte Silica District.
- The Partner has a silica sand processing facility with dry processing capabilities.
- The Partner has the capacity to invest capital quickly in upgrading its processing capabilities.

The Partner and Homerun are willing to cooperate within two modalities:

A) Services for the extraction and processing of Homerun silica sand (100%), where the Partner executes processing as a Service Provider:

- Extraction of Homerun silica sand.
- Processing / Sizing.
- Delivery in dry bulk or for small volumes in 1 tonne bags.

The Partner will charge a service fee to Homerun per tonne of silica sand.

B) Product Sales where the Partner executes processing:

- Extraction of the Partner's and/or Homerun's silica sand.
- Processing / Sizing.
- Delivery in dry bulk or for small volumes in 1 tonne bags.

The Partner will sell the processed sand to Homerun, at a negotiated cumulative price, or sell the processed sand directly to end customers of Homerun and compensate Homerun.

This MOU is a key element of Phase 2 of the Company's Business Plan Roadmap, and in line with the commitment under its partnership with Companhia Baiana de Pesquisa Mineral (CBPM), within the scope of the 40-year lease agreement between the parties. Securing the Partner's services is a fundamental cornerstone for the execution of the Company's logistics plan to cashflow, as announced in the press release dated September 24, 2024.

"It is with great satisfaction that Homerun celebrates this new partnership, with one of the most renowned organizations in the silica sand sector in Brazil. Working hand in hand will benefit the parties through a win-win relationship and pave the road for Homerun to achieve its own strategic goals which include minimizing the CAPEX traditionally required to build processing that will now be available today and the CAPEX to build processing that will be required in the future," stated Armando Farhate, COO of Homerun.

The Partner has requested that its identity and ownership not be disclosed at this time.

About Homerun Resources (<https://homerunresources.com/>)
