

Wheaton Precious Metals Announces Third Quarter 2024 Results and Record Quarterly Operating Cash Flow

07.11.2024 | [CNW](#)

Designated News Release THIRD QUARTER FINANCIAL RESULTS

VANCOUVER, Nov. 7, 2024 - "Wheaton achieved record cash flow from operations in the third quarter of 2024, underscoring the effectiveness of our business model in leveraging rising commodity prices, with our cash operating margins increasing relative to the third quarter of 2023. Our portfolio of operating assets delivered solid production levels, continuing to support our annual production guidance range for 2024 of 550,000 to 620,000 gold equivalent ounces," said Randy Smallwood, President and CEO of [Wheaton Precious Metals](#). "Shortly following the quarter, Wheaton announced two accretive, precious metals streaming agreements, including a new stream on Montage's Koné Project and an amendment to the existing stream on Rio2's Fenix Project. Together, these transactions further diversify our strategic partnerships and the geography of our portfolio. Once ramped up, the Koné Project is forecast to contribute meaningful near-term production, reinforcing Wheaton's already prominent position as a leader in the sector's growth landscape."

Solid Financial Results and Strong Balance Sheet

- Third quarter of 2024: \$308 million in revenue, \$254 million in operating cash flow, \$155 million in net earnings and \$155 million in adjusted net earnings¹, and declared a quarterly dividend¹ of \$0.155 per common share.
- Balance Sheet: cash balance of \$694 million, no debt, and an undrawn \$2 billion revolving credit facility as at September 30, 2024 after making total upfront cash payments of \$30 million relative to mineral stream and royalty interests in the third quarter.

High Quality Asset Base

- Streaming and royalty agreements on 18 operating mines and 28 development projects⁵, including the addition of the Fenix project announced subsequent to the quarter.
- 93% of attributable production from assets in the lowest half of their respective cost curves^{2,4}.
- Attributable gold equivalent production³ ("GEOs") of 144,200 ounces in the third quarter of 2024 and 448,400 for the first nine months of 2024, with quarterly production consistent with the comparable period of the prior year, as lower production from Salobo and Constanca was largely offset by higher production from Peñasquito.
- Average annual forecast production guidance for 2024 of 550,000 to 620,000 GEOs³ maintained, with forecasted sector-leading growth to over 800,000 GEOs³ by 2028, and average annual forecast attributable production growth of 850,000 GEOs³ in years 2029 to 2033.
- Further de-risked forecast growth profile as construction activities advanced at the Blackwater, Goose, Platreef, and Fenix Park projects, all of which are expected to be producing within the next 12 months.
- Subsequent to the quarter, the Company announced two accretive precious metals streaming agreements:
 - On October 23, 2024, the Company entered into a precious metals purchase agreement ("PMPA") with [Montage Corp.](#) in respect to the Koné Gold Project located in Côte d'Ivoire.
 - On October 21, 2024, the Company amended the Fenix PMPA, increasing the amount of attributable gold in the stream under the contract.

Leadership in Sustainability

- Top Rankings: One of the top-rated companies by Sustainalytics, AA rated by MSCI, and Prime rated by ISS.
- Launch of inaugural Future of Mining Challenge, which will award US\$1 million to a winning venture to advance the technology aimed at minimizing environmental impacts, improving efficiencies, and contributing to climate solutions, ensuring key resources are responsibly available for future generations.

Operational Overview

(all figures in US dollars unless otherwise noted)	Q3 2024	Q3 2023	Change	YTD 2024	YTD 2023	Change

All amounts in thousands except gold, palladium & gold equivalent ounces, and per share amounts.

Financial Review

Revenues

Revenue in the third quarter of 2024 was \$308 million (61% gold, 37% silver, 1% palladium and 1% cobalt), with the \$85 million increase relative to the prior period quarter being primarily due to a 26% increase in the average realized gold equivalent³ price; and a 10% increase in the number of GEOs³ sold.

Revenue was \$904 million in the nine months ended September 30, 2024, representing a \$202 million increase from the comparable period of the previous year due primarily to a 16% increase in the average realized gold equivalent³ price; and an 11% increase in the number of GEOs³ sold.

Cash Costs and Margin

Average cash costs¹ in the third quarter of 2024 were \$437 per GEO³ as compared to \$445 in the third quarter of 2023. This resulted in a cash operating margin¹ of \$2,075 per GEO³ sold, an increase of 34% as compared with the third quarter of 2023, a result of the higher realized price per ounce coupled with the

lower average cash costs due to changes in the sales mix.

Average cash costs¹ for the nine months ended September 30, 2024 were \$434 per GEO³ as compared to \$457 in the comparable period of the previous year. This resulted in a cash operating margin¹ of \$1,885 per GEO³ sold, a 22% increase from comparable period of the previous year.

Cash Flow from Operations

Operating cash flow in the third quarter of 2024 amounted to \$254 million, with the \$83 million increase due primarily to the higher gross margin.

Operating cash flows for the nine months ended September 30, 2024 amounted to \$708 million, with the \$200 million increase from the comparable period of the previous year being due primarily to the higher gross margin.

Balance Sheet (at September 30, 2024)

- Approximately \$694 million of cash on hand
- During the third quarter of 2024, the Company made total upfront cash payments of \$30 million relative to the mineral stream interests and royalty interests consisting of:
 - \$25 million relative to the Mineral Park PMPA; and
 - \$5 million relative to the DeLamar Royalty.
- With the existing cash on hand coupled with the fully undrawn \$2 billion revolving credit facility, the Company believes it is well positioned to fund all outstanding commitments and known contingencies as well as providing flexibility to acquire accretive mineral stream interests.

Global Minimum Tax

The Company is within the scope of global minimum tax ("GMT") under the OECD Pillar Two model rules ("Pillar Two"), under which large multinational entities are subject to a 15% GMT. On June 20, 2024, Canada's Global Minimum Tax Act ("GMTA"), received royal assent. The GMTA enacts the OECD Pillar Two model rules where in scope companies are subject to a 15% GMT for fiscal years commencing on or after December 31, 2023. With the enactment of the GMTA on June 20, 2024, the income of the Company's subsidiaries which operate in jurisdictions with a statutory tax rate of 0% are subject to the GMTA. For the three months ended September 30, 2024 an amount of \$28 million current tax expense associated with GMT was recorded (nine months - \$78 million). GMT accrued to December 31, 2024, is payable on or before June 30, 2026 (18 months following year-end).

Third Quarter Operating Asset Highlights

Salobo: In the third quarter of 2024, Salobo produced 62,700 ounces of attributable gold, a decrease of approximately 9% relative to the third quarter of 2023, primarily due to lower grades, partially offset by higher throughput. On July 25, 2024, [Vale S.A.](#) ("Vale") reported that the Salobo III processing plant operations resumed in July, after being halted for 31 days due to a fire on a conveyor belt. Vale confirmed that 2024 copper production guidance of 320-355 kt has been maintained.

Antamina: In the third quarter of 2024, Antamina produced 0.9 million ounces of attributable silver, an increase of approximately 3% relative to the third quarter of 2023 primarily due to higher recoveries, partially offset by lower throughput.

Peñasquito: In the third quarter of 2024, Peñasquito produced 1.8 million ounces of attributable silver, with Peñasquito producing no ounces in the third quarter of 2023 as a result of a labour strike which lasted from June 7 to October 13, 2023.

Constancia: In the third quarter of 2024, Constancia produced 0.6 million ounces of attributable silver and 10,400 ounces of attributable gold, a decrease of approximately 7% and 45%, respectively, relative to the third quarter of 2023. The decrease in silver production was primarily due to lower recoveries. The decrease in gold production was primarily the result of lower gold grades due largely to the planned stripping activity in the Pampacancha pit, which commenced in the second quarter, and continued throughout the third quarter. On August 13, 2024, [Hudbay Minerals Inc.](#) ("Hudbay") reported that the stripping program for the next mining

phase at Pampacancha was underway and expected to lead to significantly higher copper and gold grades in the fourth quarter of 2024.

Sudbury: In the third quarter of 2024, Vale's Sudbury mines produced 4,300 ounces of attributable gold, an increase of approximately 11% relative to the third quarter of 2023, due to higher throughput.

Stillwater: In the third quarter of 2024, the Stillwater mines produced 2,200 ounces of attributable gold and 4,000 ounces of attributable palladium, a decrease of approximately 8% for gold relative to the third quarter of 2023, due primarily to lower recoveries, while palladium production was virtually unchanged. On September 12, 2024, Sibanye Stillwater ("Sibanye") announced that as a result of low palladium prices it was placing the Stillwater West operations into care and maintenance, while Stillwater East and East Boulder operations continue to operate. Sibanye reports that Stillwater West could return to production as prices permit. Based on Sibanye's Q3 MD&A, the Company's management estimates that with the Stillwater West operations in care and maintenance, 2025 production relative to the Stillwater PMPA will be approximately 40% to 45% lower than historical levels.

Voisey's Bay: In the third quarter of 2024, the Voisey's Bay mine produced 397,000 pounds of attributable cobalt, an increase of approximately 118% relative to the third quarter of 2023, as the transitional period between the depletion of the Ovoid open-pit and ramp-up to full production of the Voisey's Bay underground mine nears completion. Vale reported that physical completion of the Voisey's Bay underground mine extension was 99% at the end of the third quarter, with all surface construction completed and the commissioning of the Reid Brook power plant remaining. In the Eastern Deeps Mine, the Bulk Material Handling system achieved mechanical completion in early October and Vale indicated that the focus is now on commissioning, with handover to Operations within 2024. Demobilization efforts are ongoing, with Surface contractors already fully demobilized.

Other Silver: In the third quarter of 2024, total Other Silver attributable production was 1.2 million ounces, a decrease of approximately 34% relative to the third quarter of 2023. The decrease from the comparable period of the prior year is primarily due to the temporary suspension of attributable ore mined at Aljustrel commencing September 24, 2023.

Detailed mine-by-mine production and sales figures can be found in the Appendix to this press release and in Wheaton's consolidated MD&A in the 'Results of Operations and Operational Review' section.

Recent Development Asset Updates

Blackwater Project: On November 6, 2024, Artemis Gold Inc., ("Artemis") announced that overall construction was over 95% complete as of September 30, 2024 and first gold pour is targeted for late Q4 2024. Construction of the tailings storage facility is ready to allow for the commencement of commissioning of the plant. Artemis reported that the initial mining fleet has been commissioned and pre-stripping of the mine, as well as the construction of haul roads are well advanced.

Platreef Project: On October 30, 2024, Ivanhoe Mines ("Ivanhoe") reported that construction of the Phase 1 concentrator was completed on schedule early in the third quarter. First ore is scheduled for the second half of 2025, while underground development prioritizes development to accelerate Phase 2. Ivanhoe also states that work continues on the updated feasibility study to accelerate the startup of Phase 2, as well as the preliminary economic assessment of the previously announced Phase 3 expansion to 10 Mtpa processing capacity. Both studies are now expected to be published in Q1 2025.

Goose Project: On November 6 2024, B2Gold Corp. ("B2Gold") announced that all planned construction year to date in 2024 has been completed. Project construction and development continues to progress on track for first gold pour at the Goose Project in the second quarter of 2025, followed by a ramp up to commercial production in the third quarter of 2025. The 2024 sealift was completed successfully on September 30, 2024, with ten ships and one barge having unloaded 123,000 cubic meters of dry cargo, more than 84 million liters of arctic grade diesel fuel and 58 additional trucks for the 2025 Winter Ice Road campaign.

Marmato Mine: On July 16, 2024, Aris Mining Corporation ("Aris") reported that the Lower Mine project is on

track for first gold pour by the end of 2025, followed by an approximate six-month ramp-up period. On October 7, 2024, Aris provided an update that the Marmato Lower Mine expansion is progressing on schedule, with the site access road and portal face now complete and the contractor preparing to initiate work on the twin declines. Both the SAG and ball mill fabrication are progressing on schedule for completion before the end of 2024.

Curipamba Project: On July 31, 2024, [Silvercorp Metals Inc.](#) ("Silvercorp") completed the previously announced acquisition of all of the issued and outstanding common shares of Adventus Mining Corporation. Under the terms of the Curipamba PMPA, within 30 days of a change of control, Silvercorp had a one-time option to repurchase 33% of the gold and silver stream which expired unexercised.

Marathon Project: On July 31, 2024, Generation Mining Limited ("Gen Mining") reported that the federal government has approved amendments to Schedule 2 of the Metal and Diamond Mining Effluent Regulations ("Schedule 2") which will allow for the construction of specific water management structures and operation of key infrastructure for the Marathon Project. On August 7, 2024, Gen Mining announced a key milestone with the receipt of the Fisheries Act Authorization for the Marathon project. Gen Mining also states that receipt of the few remaining provincial and federal approvals and permits required for construction is expected in the coming months. Following which, the Marathon project will have all of the key government permits and approvals required for construction.

Santo Domingo: On July 31, 2024, Capstone Copper Corp. ("Capstone") published the results of an updated feasibility study for the Santo Domingo project, outlining an optimized mine plan, updated capital and operating cost estimates, and a 19-year mine life supported by higher mineral reserve estimates. The report indicates that total gold production is expected to average 35,000 ounces per year for the first seven years of production, an increase from the 30,000 ounces per year estimate outlined in the 2020 feasibility study, and 22,000 ounces per year for the life of mine, up from 17,000 ounces per year. Capstone has reported that with construction completed at the Mantoverde project, a deposit situated 35 kilometers northeast of the Santo Domingo project, Capstone plans to advance several value enhancement initiatives within the Mantoverde-Santo Domingo district that are not yet included in the 2024 feasibility study. The first of these initiatives is a newly announced two-year, \$25 million exploration program at Mantoverde, aimed at supporting the two future processing centers between Mantoverde and Santo Domingo.

Curraghinalt Project: On May 3, 2024, the Planning Appeals Commission & Water Appeals Commission (the "Commission") in Northern Ireland concluded that the water abstraction and impoundment licenses ("Water Licenses") relative to the Curraghinalt Project have been rescinded and that license applications would need to be resubmitted, and subsequent public inquiry referrals held. Dalradian has re-submitted two new applications for the abstraction licenses and those licenses were received by the Commission on September 5, 2024. The Commission has set new dates to resume the public inquiry process beginning January 13, 2025.

Fenix Project: On October 2, 2024, Rio2 Limited ("Rio2") announced that its Chilean subsidiary has received the principal Sectorial Permits it requires to begin construction at the Fenix project. These Sectorial Permits represent the last governmental authorization required to enable the start of the construction phase and subsequent operation of the Fenix mine.

Copper World Project: On August 29, 2024, Hudbay announced that it has received an Aquifer Protection Permit for the Copper World project from the Arizona Department of Environmental Quality. The issuance of this permit is a key milestone in the advancement of Copper World. The last key state-level permit is the Air Quality Permit which is progressing as planned.

Corporate Development

Koné Gold Project

On October 23, 2024, the Company entered into a PMPA (the "Koné Gold PMPA") with Montage Gold Corp. ("Montage") in respect of its 90% owned Koné Gold Project located in Côte d'Ivoire. Under the terms of the agreement, Wheaton will purchase 19.5% of the payable gold production until 400,000 ounces of gold have been delivered (subject to adjustment if there are delays in deliveries relative to an agreed schedule), 10.8% of the gold production until the delivery of a further 130,000 ounces and 5.4% gold production thereafter for

the life of mine. Under the terms of the Koné Gold PMPA, the Company is committed to pay Montage total upfront cash payments of \$625 million, payable in four equal installment payments during construction, subject to certain conditions, including that all permits have been obtained.

In addition, Wheaton will make ongoing production payments for the gold ounces delivered equal to 20% of the spot gold price. For the first five years after the PMPA is signed, there will be a price adjustment mechanism in place if the spot price of gold is less than \$2,100 per ounce or greater than \$2,700 per ounce.

The Company has also provided Montage with a secured debt facility of up to \$75 million (the "Facility").

Amendment to the Fenix PMPA

On November 15, 2021, the Company acquired a gold stream in respect of gold production from the Fenix Project (the "Fenix PMPA"). Under the terms of the Fenix PMPA, the Company was to acquire an amount of gold equal to 6% of the gold production until 90,000 ounces have been delivered, 4% of the gold production until the delivery of a further 140,000 ounces and 3.5% gold production thereafter for the life of mine.

On October 21, 2024, the Company amended the Fenix PMPA. Under the terms of the amended agreement, the Company is entitled to purchase an additional 16% of payable gold production (22% in total, subject to adjustment if there are delays in deliveries relative to an agreed schedule). Once Rio2 delivers the incremental 95,000 ounces (as adjusted), the stream reverts to the percentages and thresholds under the original Fenix PMPA (as described above). Rio2 has a one-time option to terminate the requirement to deliver the additional gold production from the end of 2027 until the end of 2029 by delivering 95,000 ounces (as adjusted) less previously delivered gold ounces, excluding those gold ounces which would have been delivered under the original Fenix PMPA. Finally, the Company has also agreed to adjust the production payment for all gold ounces delivered to 20% of the spot gold price. In exchange for the amendment, the Company is committed to pay additional upfront cash consideration of \$100 million, payable in two equal installments, subject to various customary conditions being satisfied.

Wheaton will also provide a \$20 million contingent secured debt facility in the form of a standby loan facility. Lastly, Wheaton has committed to participate in a private placement of Rio2 common shares for Cdn\$5 million at a price per share equal to, and concurrent with, a public offering by Rio2.

Sustainability

Future of Mining Challenge

On September 16, 2024, Wheaton announced the launch of the inaugural Future of Mining Challenge, which will award US\$1 million to a winning venture to advance their technology. The Future of Mining Challenge invites cleantech ventures from around the world to submit and propose industry solutions. This year's challenge focuses on identifying eligible technologies with the potential to reduce greenhouse gas emissions across mining operations. In alignment with Wheaton's business model, the solutions should be applicable to base and/or precious metal mining. They should also be scalable globally, with the aim of future implementation at operating mines. The challenge is being supported by Foresight Canada. Submissions for challenge applications opened in September 2024, and the winner will be announced in March 2025 at the PDAC Convention in Toronto, the world's largest mining conference. More information can be found at www.futureofmining.ca.

Community Investment Program

- Wheaton's Partner Community Investment Program continues to support initiatives with the Vale Foundation, Vale Glencore via Antamina, Hudbay Minerals, First Majestic Silver and Sibanye-Stillwater to support the communities by the mines and provide vital services and programs including educational resources, health and dental program reduction initiatives, entrepreneurial opportunities, and various social and environmental programs.
- In August 2024, the BC Cancer Foundation's Tour de Cure presented by Wheaton raised C\$7.3 million to advance groundbreaking cancer research and care enhancements in British Columbia.

2024 and Long-Term Production Outlook

Wheaton's estimated attributable production in 2024 is forecast to be 325,000 to 370,000 ounces of gold, 18.5 to 20.5 million ounces of silver, and 12,000 to 15,000 GEOs³ of other metals, resulting in annual production of approximately 550,000 to 620,000 GEOs³, unchanged from previous guidance^{2,3}.

Annual production is forecast to increase by approximately 40% to over 800,000 GEOs³ by 2028, with average annual production forecast to grow to over 850,000 GEO³ in years 2029 to 2033, also unchanged from previous guidance⁶. The transactions announced in 2024, including the new stream associated with the Koné Project and the amendment related to the Fenix Project, have not been incorporated into the long-term guidance.

The Company will provide updated longer-term guidance in normal course in the first quarter of 2025, which will incorporate the impact of recent developments and the acquisitions announced in 2024.^{2,3}

About Wheaton Precious Metals Corp.

Wheaton is the world's premier precious metals streaming company with the highest-quality portfolio of long-life, low-cost assets. Its business model offers investors commodity price leverage and exploration upside but with a much lower risk profile than a traditional mining company. Wheaton delivers amongst the highest cash operating margins in the mining industry, allowing it to pay a competitive dividend and continue to grow through accretive acquisitions. As a result, Wheaton has consistently outperformed gold and silver, as well as other mining investments. Wheaton is committed to strong ESG practices and giving back to the communities where Wheaton and its mining partners operate. Wheaton creates sustainable value through streaming for all of its stakeholders.

In accordance with Wheaton Precious Metals & TRADE; Corp.'s ("Wheaton Precious Metals", "Wheaton" or the "Company") MD&A and Financial Statements, reference to the Company and Wheaton includes the Company's wholly owned subsidiaries.

Webcast and Conference Call Details

A conference call will be held on Friday, November 8, 2024, starting at 11:00 am ET (8:00 am PT) to discuss these results. To participate in the live call, please use one of the following methods:

- 1) All figures in thousands except gold and palladium ounces produced.
- 2) Quantity produced represent the amount of gold, silver, palladium and cobalt contained in concentrate or doré prior to smelting or refining deductions. Production figures and payable rates are based on information provided by the operators of the mining operations to which the mineral stream interests relate or management estimates in those situations where other information is not available. Certain production figures and payable rates may be updated in future periods as additional information is received.
- 3) Comprised of the Coleman, Copper Cliff, Garson, Creighton and Totten gold interests.
- 4) Under the terms of the San Dimas PMPA, the Company is entitled to an amount equal to 25% of the payable gold production plus an additional amount of gold equal to 25% of the payable silver production converted to gold at a fixed gold to silver exchange ratio of 70:1 from the San Dimas mine. If the average gold to silver price ratio decreases to less than 50:1 or increases to more than 90:1 for a period of 6 months or more, then the "70" shall be revised to "50" or "90", as the case may be, until such time as the average gold to silver price ratio is between 50:1 to 90:1 for a period of 6 months or more in which event the "70" shall be reinstated. For reference, attributable silver production from prior periods is as follows: Q3 2024 - 262,000 ounces; Q2 2024 - 285,000 ounces; Q1 2024 - 291,000 ounces; Q4 2023 - 378,000 ounces; Q3 2023 - 387,000 ounces; Q2 2023 - 423,000 ounces; Q1 2023 - 401,000 ounces; Q4 2022 - 348,000 ounces.
- 5) Comprised of the Stillwater and East Boulder gold and palladium interests.
- 6) On May 13, 2023, Minto Metals Corp. announced the suspension of operations at the Minto mine.
- 7) There was a temporary suspension of operations at Peñasquito due to a labour strike which ran from June 7, 2023 to October 13, 2023.
- 8) On September 12, 2023, it was announced that the production of the zinc and lead concentrates at the Aljustrel mine will be halted from September 24, 2023 until the second quarter of 2025.
- 9) On December 14, 2022 the Company terminated the Yauliyacu PMPA in exchange for a cash payment of \$132 million.
- 10) GEOs, which are provided to assist the reader, are based on the following commodity price assumptions: \$2,000 per ounce gold; \$23.00 per ounce silver; \$1,000 per ounce palladium; and \$13.00 per pound cobalt; Summarized with \$0.00 used in estimating the Company's production guidance for 2024.

1) Units of gold, silver and palladium produced and sold are reported in ounces, while cobalt is reported in pounds. All figures in thousands except gold and palladium ounces produced and sold and per unit amounts.

Total other \$ (42,778) \$ (2,875) \$ 930,056
 2) Quantity produced represents the amount of gold, silver, palladium and cobalt contained in concentrate or doré prior to smelting or refining deductions. Production figures are based on information provided by the operators of the mining operations to which the mineral stream interests relate or management estimates in those situations where other information is not available. Certain production figures may be updated in future periods as additional information is received.

3) Refer to discussion on non-IFRS measure (iii) at the end of this press release.

4) Includes the non-cash per ounce cost of sale associated with delay ounces. Please see the Company's MD&A for more information.

5) Comprised of the operating Coleman, Copper Cliff, Garson, Creighton and Totten gold interests and the non-operating Stobie and Victor gold interests.

6) Other gold interests comprised of the operating Marmato gold interest as well as the non-operating Minto, Copper World, Santo Domingo, Fenix, Blackwater, Curipamba, Marathon, Goose, Cangrejos, Platreef, Curraghinalt and Kudz Ze Kayah gold interests. Other includes ounces sold that were received under the delay ounce provisions of each of the Santo Domingo and Curipamba PMPAs. Please see the Company's MD&A for more information.

7) Other silver interests comprised of the operating Los Filos, Zinkgruvan, Neves-Corvo, Marmato and Cozamin silver interests as well as the non-operating Stratoni, Aljustrel, Minto, Pascua-Lama, Copper World, Navidad, The Blackwater, Copper Cliff, Minto, Platreef and Kudz Ze Kayah silver interests.

- 1) Units of gold, silver and palladium produced and sold are reported in ounces, while cobalt is reported in pounds. All figures in thousands except gold and palladium ounces produced and sold and per unit amounts.
 - 2) Quantity produced represents the amount of gold, silver, palladium and cobalt contained in concentrate or doré prior to smelting or refining deductions. Production figures are based on information provided by the operators of the mining operations to which the mineral stream interests relate or management estimates in those situations where other information is not available. Certain production figures may be updated in future periods as additional information is received.
 - 3) Refer to discussion on non-IFRS measure (iii) at the end of this press release.
 - 4) Comprised of the operating Coleman, Copper Cliff, Garson, Creighton and Totten gold interests as well as the non-operating Stobie and Victor gold interests.
 - 5) Other gold interests are comprised of the operating Marmato gold interests as well as the non-operating Minto, 777, Copper World, Santo Domingo, Fenix, Blackwater, Marathon, Curipamba, Goose and Cangrejos gold interests. On June 22, 2022, Hudbay announced that mining activities at 777 have concluded and closure activities have commenced. On May 13, 2023, Minto announced the suspension of operations at the Minto mine.
 - 6) Other silver interests comprised of the operating Los Filos, Zinkgruvan, Neves-Corvo, Aljustrel, Cozamin and Marmato silver interests, the non-operating Minto, 777, Loma de La Plata, Straton, Pascua-Lama, Copper World, Blackwater and Curipamba silver interests. On June 22, 2022, Hudbay announced that mining activities at 777 have concluded and closure activities have commenced. On May 13, 2023, Minto announced the suspension of operations at the Minto mine. On September 12, 2023, it was announced that the production of zinc and lead concentrates at Aljustrel will be halted from September 24, 2023 until the second quarter of 2025.
- ~~Operative Results of Operations on a LIFO Basis~~
Operative Results of Operations on a FIFO Basis: The quarter of 2023 was net of a previously recorded inventory write-down of \$0.1 million, resulting in a decrease of \$0.51 per pound of cobalt sold.

1) Quantity produced represents the amount of gold, silver, palladium and cobalt contained in concentrate or doré prior to smelting or refining deductions. Production figures are based on information provided by the operators of the mining operations to which the mineral stream interests relate or management estimates in those situations where other information is not available. Certain production figures may be updated in future periods as additional information is received.

2) GEOs, which are provided to assist the reader, are based on the following commodity price assumptions: \$2,000 per ounce gold; \$23.00 per ounce silver; \$1,000 per ounce palladium; and \$13.00 per pound cobalt; consistent with those used in estimating the Company's production guidance for 2024.

Non-IFRS Measures

Wheaton has included, throughout this document, certain non-IFRS performance measures, including (i) adjusted net earnings and adjusted net earnings per share; (ii) operating cash flow per share (basic and diluted); (iii) average cash costs of gold, silver and palladium on a per ounce basis and cobalt on a per pound basis; and (iv) cash operating margin.

i. Adjusted net earnings and adjusted net earnings per share are calculated by removing the effects of non-cash impairment charges (reversals) (if any), non-cash fair value (gains) losses and other one-time (income) expenses as well as the reversal of non-cash income tax expense (recovery) which is offset by income tax expense (recovery) recognized in the Statements of Shareholders' Equity and OCI, respectively. The Company believes that, in addition to conventional measures prepared in accordance with IFRS, management and certain investors use this information to evaluate the Company's performance.

The following table provides a reconciliation of adjusted net earnings and adjusted net earnings per share (basic and diluted).

	Three Months Ended		Nine Months Ended	
	September 30		September 30	
(in thousands, except for per share amounts)	2024	2023	2024	2023
Net earnings	\$ 154,635	\$ 116,371	\$ 440,993	\$ 369,209
Add back (deduct):				
Gain on disposal of Mineral Stream Interest	-	-	-	(5,027)
(Gain) loss on fair value adjustment of share purchase warrants held	(523)	143	(903)	248
Deferred income tax (expense) recovery recognized in the Statement of OCI	(1,134)	5,115	1,632	7,205
Income tax recovery related to prior year disposal of Mineral Stream Interest	-	-	-	(2,672)
Other	(175)	(162)	(521)	(482)
Adjusted net earnings	\$ 152,803	\$ 121,467	\$ 441,201	\$ 368,481
Divided by:				
Basic weighted average number of shares outstanding	453,641	452,975	453,389	452,748
Diluted weighted average number of shares outstanding	454,302	453,538	454,037	453,419
Equals:				
Adjusted earnings per share - basic	\$ 0.337	\$ 0.268	\$ 0.973	\$ 0.814
Adjusted earnings per share - diluted	\$ 0.336	\$ 0.268	\$ 0.972	\$ 0.813

ii. Operating cash flow per share (basic and diluted) is calculated by dividing cash generated by operating activities by the weighted average number of shares outstanding (basic and diluted). The Company presents operating cash flow per share as management and certain investors use this information to evaluate the Company's performance in comparison to other companies in the precious metal mining industry who present results on a similar basis.

The following table provides a reconciliation of operating cash flow per share (basic and diluted).

	Three Months Ended September 30		Nine Months Ended September 30	
(in thousands, except for per share amounts)	2024	2023	2024	2023
Cash generated by operating activities	\$ 254,337	\$ 171,103	\$ 708,110	\$ 508,584
Divided by:				
Basic weighted average number of shares outstanding	453,641	452,975	453,389	452,748
Diluted weighted average number of shares outstanding	454,302	453,538	454,037	453,419
Equals:				
Operating cash flow per share - basic	\$ 0.561	\$ 0.378	\$ 1.562	\$ 1.123
Operating cash flow per share - diluted	\$ 0.560	\$ 0.377	\$ 1.560	\$ 1.122

iii. Average cash cost of gold, silver and palladium on a per ounce basis and cobalt on a per pound basis is calculated by dividing the total cost of sales, less depletion and cost of sales related to delay ounces, by the ounces or pounds sold. In the precious metal mining industry, this is a common performance measure but does not have any standardized meaning prescribed by IFRS. In addition to conventional measures prepared in accordance with IFRS, management and certain investors use this information to evaluate the Company's performance and ability to generate cash flow.

The following table provides a calculation of average cash cost of gold, silver and palladium on a per ounce basis and cobalt on a per pound basis.

	Three Months Ended		Nine Months Ended	
	September 30		September 30	
(in thousands, except for gold and palladium ounces sold and per unit amounts)	2024	2023	2024	2023
Cost of sales	\$ 110,840	\$ 96,243	\$ 348,943	\$ 300,000
Less: depletion	(55,530)	(46,435)	(178,071)	(140,000)
Less: cost of sales related to delay ounces ¹	(1,698)	-	(1,698)	-
Cash cost of sales	\$ 53,612	\$ 49,808	\$ 169,174	\$ 160,000
Cash cost of sales is comprised of:				
Total cash cost of gold sold	\$ 33,287	\$ 33,014	\$ 107,715	\$ 98,000
Total cash cost of silver sold	19,485	15,121	57,811	56,000
Total cash cost of palladium sold	650	946	2,272	2,600
Total cash cost of cobalt sold ²	190	727	1,376	2,600
Total cash cost of sales	\$ 53,612	\$ 49,808	\$ 169,174	\$ 160,000
Divided by:				
Total gold ounces sold	75,694	74,426	245,039	212,000
Total silver ounces sold	3,875	2,965	11,765	11,000
Total palladium ounces sold	3,761	4,242	12,836	10,000
Total cobalt pounds sold	88	198	485	780
Equals:				
Average cash cost of gold (per ounce)	\$ 440	\$ 444	\$ 440	\$ 465
Average cash cost of silver (per ounce)	\$ 5.03	\$ 5.10	\$ 4.91	\$ 5.00
Average cash cost of palladium (per ounce)	\$ 173	\$ 223	\$ 177	\$ 255
Average cash cost of cobalt (per pound)	\$ 2.15	\$ 3.66	\$ 2.84	\$ 3.30

1) The cost of sales related to delay ounces is a non-cash expense. Please see the Company's MD&A for more information.

2) Cash cost per pound of cobalt sold during the third quarter of 2023 was net of a previously recorded inventory write-down of \$0.1 million (nine months - \$1.6 million), resulting in a decrease of \$0.51 per pound of cobalt sold (nine months - \$2.05 per pound of cobalt sold).

iv. Cash operating margin is calculated by adding back depletion and the cost of sales related to delay ounces to the gross margin. Cash operating margin on a per ounce or per pound basis is calculated by dividing the cash operating margin by the number of ounces or pounds sold during the period. The Company presents cash operating margin as management and certain investors use this information to evaluate the Company's performance in comparison to other companies in the precious metal mining industry who present results on a similar basis as well as to evaluate the Company's ability to generate cash flow.

The following table provides a reconciliation of cash operating margin.

	Three Months Ended		Nine Months Ended	
	September 30		September 30	
(in thousands, except for gold and palladium ounces sold and per unit amounts)	2024	2023	2024	2023
Gross margin	\$ 197,413	\$ 126,894	\$ 555,180	\$ 396,810
Add back: depletion	55,530	46,435	178,071	145,810
Add back: cost of sales related to delay ounces ¹	1,698	-	1,698	-
Cash operating margin	\$ 254,641	\$ 173,329	\$ 734,949	\$ 542,620
Cash operating margin is comprised of:				
Total cash operating margin of gold sold	\$ 155,234	\$ 111,693	\$ 453,645	\$ 314,810
Total cash operating margin of silver sold	95,664	55,251	265,287	206,810
Total cash operating margin of palladium sold	2,994	4,361	10,259	12,210
Total cash operating margin of cobalt sold	749	2,024	5,758	8,460
Total cash operating margin	\$ 254,641	\$ 173,329	\$ 734,949	\$ 542,620
Divided by:				
Total gold ounces sold	75,694	74,426	245,039	212,810
Total silver ounces sold	3,875	2,965	11,765	11,110
Total palladium ounces sold	3,761	4,242	12,836	10,510
Total cobalt pounds sold	88	198	485	786
Equals:				
Cash operating margin per gold ounce sold	\$ 2,051	\$ 1,500	\$ 1,851	\$ 1,480
Cash operating margin per silver ounce sold	\$ 24.68	\$ 18.63	\$ 22.55	\$ 18.50
Cash operating margin per palladium ounce sold	\$ 796	\$ 1,028	\$ 799	\$ 1,150
Cash operating margin per cobalt pound sold	\$ 8.50	\$ 10.21	\$ 11.87	\$ 10.70

1) The cost of sales related to delay ounces is a non-cash expense. Please see the Company's MD&A for more information.

These non-IFRS measures do not have any standardized meaning prescribed by IFRS, and other companies may calculate these measures differently. The presentation of these non-IFRS measures is intended to provide additional information and should not be considered in isolation or as a substitute for measures of performance prepared in accordance with IFRS. For more detailed information, please refer to Wheaton's MD&A available on the Company's website at www.wheatonpm.com and posted on SEDAR+ at www.sedarplus.ca.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS

This press release contains "forward-looking statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995 and "forward-looking information" within the meaning of applicable Canadian securities legislation concerning the business, operations and financial performance of Wheaton and, in some instances, the business, mining operations and performance of Wheaton's PMPA counterparties. Forward-looking statements, which are all statements other than statements of historical fact, include, but are not limited to, statements with respect to:

- payment by the Company of \$625 million to Montage and the satisfaction of each party's obligations in accordance with the terms of the Koné Gold PMPA;
- the receipt by the Company of gold production in respect of the Koné Gold Project;
- the advance by the Company, and the repayment by Montage, of up to \$75 million to Montage in connection with the Koné Gold Project;
- payment by the Company of \$125 million to Rio2 and the satisfaction of each party's obligations in accordance with the terms of the Rio2 Standby Loan PMPA (as amended);
- the receipt by the Company of gold production in respect of the Fenix Gold Project;
- the advance by the Company, and the repayment by Rio2, of up to \$20 million to Rio2 in connection with the Rio2 Standby Loan facility;
- the future price of commodities;
- the estimation of future production from the mineral stream interests and mineral royalty interests currently owned or controlled by the Company (the "Mining Operations") (including in the estimation of production, mill throughput, grades, recoveries and exploration potential);
- the estimation of mineral reserves and mineral resources (including the estimation of reserve conversion rates and the realization of such estimations);
- the commencement, timing and achievement of construction, expansion or improvement projects by Wheaton's PMPA counterparties at Mining Operations;
- the payment of upfront cash consideration to counterparties under PMPAs, the satisfaction of each party's obligations in accordance with PMPAs and the receipt by the Company of precious metals and cobalt production or other payments in respect of the applicable Mining Operations under PMPAs;
- the ability of Wheaton's PMPA counterparties to comply with the terms of a PMPA (including as a result of the business operations and performance of Wheaton's PMPA counterparties) and the potential impacts of such on Wheaton's business;
- future payments by the Company in accordance with PMPAs, including any acceleration of payments;
- the costs of future production;
- the estimation of produced but not yet delivered ounces;
- the future sales of Common Shares under, the amount of net proceeds from, and the use of the net proceeds from the at-the-market equity program;
- continued listing of the Common Shares on the LSE, NYSE and TSX;
- any statements as to future dividends;
- the ability to fund outstanding commitments and the ability to continue to acquire accretive PMPAs;
- projected increases to Wheaton's production and cash flow profile;
- projected changes to Wheaton's production mix;
- the ability of Wheaton's PMPA counterparties to comply with the terms of any other obligations under agreements with the Company;
- the ability to sell precious metals and cobalt production;
- confidence in the Company's business structure;
- the Company's assessment of taxes payable, including taxes payable under the GMT, and the impact of the CRA Settlement and the Company's ability to pay its taxes;
- possible CRA domestic audits for taxation years subsequent to 2016 and international audits;
- the Company's assessment of the impact of any tax reassessments;
- the Company's intention to file future tax returns in a manner consistent with the CRA Settlement;
- the Company's climate change and environmental commitments; and
- assessments of the impact and resolution of various legal and tax matters, including but not limited to audits.

Generally, these forward-looking statements can be identified by the use of forward-looking terminology such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "projects", "intends", "anticipates" or "does not anticipate", or "believes", "potential", or variations of such words and phrases or statements that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved". Forward-looking statements are subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of Wheaton to be materially different from those expressed or implied by such forward-looking statements, including but not limited to:

- risks relating to the satisfaction of each party's obligations in accordance with the terms of the Koné Gold PMPA;
- risks relating to the satisfaction of each party's obligations in accordance with the terms of the Facility;
- risks relating to the satisfaction of each party's obligations in accordance with the terms of the Fenix PMPA;
- risks relating to the satisfaction of each party's obligations in accordance with the terms of the Rio2 standby loan PMPA;
- risks associated with fluctuations in the price of commodities (including Wheaton's ability to sell its precious metal production at acceptable prices or at all);
- risks related to the Mining Operations (including fluctuations in the price of the primary or other commodities mined, operations, regulatory, political and other risks of the jurisdictions in which the Mining Operations are located, actual mining, risks associated with exploration, development, operating, expansion and improvement at the Mining Operations, environmental and economic risks of the Mining Operations, and changes in project parameters as Mining Operations continue to be refined);

- absence of control over the Mining Operations and having to rely on the accuracy of the public disclosure and other information Wheaton receives from the owners and operators of the Mining Operations as the basis for its analysis and assessments relating to its own business;
- risks related to the uncertainty in the accuracy of mineral reserve and mineral resource estimation;
- risks related to the satisfaction of each party's obligations in accordance with the terms of the Company's PMPAs, the ability of the companies with which the Company has PMPAs to perform their obligations under those PMPAs, the ability of a material adverse effect on the results of operations, financial condition, cash flows or business of such companies, acceleration of payments, estimated throughput and exploration potential;
- risks relating to production estimates from Mining Operations, including anticipated timing of the commencement of production by certain Mining Operations;
- Wheaton's interpretation of, or compliance with, or application of, tax laws and regulations or accounting policies or being found to be incorrect or the tax impact to the Company's business operations being materially different than contemplated, or the ability of the Company to pay such taxes as and when due;
- any challenge or reassessment by the CRA of the Company's tax filings being successful and the potential negative impact on the Company's previous and future tax filings;
- risks in assessing the impact of the CRA Settlement (including whether there will be any material change in the CRA's facts or change in law or jurisprudence);
- risks related to any potential amendments to Canada's transfer pricing rules under the Income Tax Act (Canada) as a result of the Department of Finance's consultation paper released June 6, 2023;
- risks relating to Wheaton's interpretation of, compliance with, or application of the GMT, including Canada's GMT legislation enacted in Luxembourg, that applies to the income of the Company's subsidiaries for fiscal years beginning after December 31, 2023;
- counterparty credit and liquidity risks;
- mine operator and counterparty concentration risks;
- indebtedness and guarantees risks;
- hedging risk;
- competition in the streaming industry risk;
- risks relating to security over underlying assets;
- risks relating to third-party PMPAs;
- risks relating to revenue from royalty interests;
- risks related to Wheaton's acquisition strategy;
- risks relating to third-party rights under PMPAs;
- risks relating to future financings and security issuances;
- risks relating to unknown defects and impairments;
- risks related to governmental regulations;
- risks related to international operations of Wheaton and the Mining Operations;
- risks relating to exploration, development, operating, expansions and improvements at the Mining Operations;
- risks related to environmental regulations;
- the ability of Wheaton and the Mining Operations to obtain and maintain necessary licenses, permits, approvals and other regulatory requirements;
- the ability of Wheaton and the Mining Operations to comply with applicable laws, regulations and permitting requirements;
- lack of suitable supplies, infrastructure and employees to support the Mining Operations;
- risks related to underinsured Mining Operations;
- inability to replace and expand mineral reserves, including anticipated timing of the commencement of production of the Mining Operations (including increases in production, estimated grades and recoveries);
- uncertainties related to title and indigenous rights with respect to the mineral properties of the Mining Operations;
- the ability of Wheaton and the Mining Operations to obtain adequate financing;
- the ability of the Mining Operations to complete permitting, construction, development and expansion;
- challenges related to global financial conditions;
- risks associated with environmental, social and governance matters;
- risks related to fluctuations in commodity prices of metals produced from the Mining Operations other than precious metals and cobalt;
- risks related to claims and legal proceedings against Wheaton or the Mining Operations;
- risks related to the market price of the Common Shares of Wheaton;
- the ability of Wheaton and the Mining Operations to retain key management employees or procure the services of other experienced personnel;
- risks related to interest rates;
- risks related to the declaration, timing and payment of dividends;
- risks related to access to confidential information regarding Mining Operations;
- risks associated with multiple listings of the Common Shares on the LSE, NYSE and TSX;
- risks associated with a possible suspension of trading of Common Shares;
- risks associated with the sale of Common Shares under the at-the-market equity program, including the amount of proceeds from such offering of Common Shares and the use of any such proceeds;
- equity price risks related to Wheaton's holding of long-term investments in other companies;
- risks relating to activist shareholders;
- risks relating to reputational damage;
- risks relating to expression of views by industry analysts;

- risks related to the impacts of climate change and the transition to a low-carbon economy;
- risks associated with the ability to achieve climate change and environmental commitments at Wheaton and at the Mining Operations;
- risks related to ensuring the security and safety of information systems, including cyber security risks;
- risks relating to generative artificial intelligence;
- risks relating to compliance with anti-corruption and anti-bribery laws;
- risks relating to corporate governance and public disclosure compliance;
- risks of significant impacts on Wheaton or the Mining Operations as a result of an epidemic or pandemic;
- risks related to the adequacy of internal control over financial reporting; and
- other risks discussed in the section entitled "Description of the Business - Risk Factors" in Wheaton's Annual Information Form available on SEDAR+ at www.sedarplus.ca and Wheaton's Form 40-F for the year ended December 31, 2023, with the U.S. Securities and Exchange Commission on EDGAR (the "Disclosure").

Forward-looking statements are based on assumptions management currently believes to be reasonable, including (without limitation):

- the payment of \$625 million to Montage and the satisfaction of each party's obligations in accordance with the terms of the Koné Gold PMPA;
- the advance by the Company of up to \$75 million to Montage in connection with the Facility and the receipt by the Company of all amounts owing under the Facility, including, but not limited to, interest;
- the payment of \$125 million to Rio2 and the satisfaction of each party's obligations in accordance with the terms of the Rio2 PMPA;
- the advance by the Company of up to \$20 million to Rio2 in connection with the Rio2 standby loan facility and the receipt by the Company of all amounts owing under the Rio2 standby loan facility, including, but not limited to, interest;
- that there will be no material adverse change in the market price of commodities;
- that the Mining Operations will continue to operate and the mining projects will be completed in accordance with the production statements and achieve their stated production estimates;
- that the mineral reserves and mineral resource estimates from Mining Operations (including reserve conversion ratios) will be accurate;
- that public disclosure and other information Wheaton receives from the owners and operators of the Mining Operations will be accurate and complete;
- that the production estimates from Mining Operations are accurate;
- that each party will satisfy their obligations in accordance with the PMPAs;
- that Wheaton will continue to be able to fund or obtain funding for outstanding commitments;
- that Wheaton will be able to source and obtain accretive PMPAs;
- that the terms and conditions of a PMPA are sufficient to recover liabilities owed to the Company;
- that Wheaton has fully considered the value and impact of any third-party interests in PMPAs;
- that expectations regarding the resolution of legal and tax matters will be achieved (including CRA audits involving the Company);
- that Wheaton has properly considered the application of Canadian tax laws to its structure and operations and that it will be able to pay taxes when due;
- that Wheaton has filed its tax returns and paid applicable taxes in compliance with Canadian tax laws;
- that Wheaton's application of the CRA Settlement is accurate (including the Company's assessment that there has been no material change in the Company's facts or change in law or jurisprudence);
- that Wheaton's assessment of the tax exposure and impact on the Company and its subsidiaries of the implementation of the 15% global minimum tax is accurate;
- that any sale of Common Shares under the at-the-market equity program will not have a significant impact on the price of the Common Shares and that the net proceeds of sales of Common Shares, if any, will be used as anticipated;
- that the trading of the Common Shares will not be adversely affected by the differences in liquidity, settlement and clearing systems as a result of multiple listings of the Common Shares on the LSE, the TSX and the NYSE;
- that the trading of the Company's Common Shares will not be suspended;
- the estimate of the recoverable amount for any PMPA with an indicator of impairment;
- that neither Wheaton nor the Mining Operations will suffer significant impacts as a result of an epidemic or pandemic;
- such other assumptions and factors as set out in the Disclosure.

There can be no assurance that forward-looking statements will prove to be accurate and even if events or results described in the forward-looking statements are realized or substantially realized, there can be no assurance that they will have the expected consequences to, or effects on, Wheaton. Readers should not place undue reliance on forward-looking statements and are cautioned that actual outcomes may vary. The forward-looking statements included herein are for the purpose of providing readers with information to assist them in understanding Wheaton's expected financial and operational performance and may not be appropriate for other purposes. Any forward-looking statement speaks only as of the date on which it is made, reflects Wheaton's management's current beliefs based on current information and will not be updated except in accordance with applicable securities laws. Although Wheaton has attempted to identify important

factors that could cause actual results, level of activity, performance or achievements to differ materially from those contained in forward-looking statements, there may be other factors that cause results, level of activity, performance or achievements not to be as anticipated, estimated or intended.

Cautionary Language Regarding Reserves and Resources

For further information on Mineral Reserves and Mineral Resources and on Wheaton more generally, readers should refer to Wheaton's Annual Information Form for the year ended December 31, 2023, which was filed on March 28, 2024 and other continuous disclosure documents filed by Wheaton since January 1, 2024, available on SEDAR+ at www.sedarplus.ca. Wheaton's Mineral Reserves and Mineral Resources are subject to the qualifications and notes set forth therein. Mineral Resources, which are not Mineral Reserves, do not have demonstrated economic viability.

Cautionary Note to United States Investors Concerning Estimates of Measured, Indicated and Inferred Resources: The information contained herein has been prepared in accordance with the requirements of the securities laws in effect in Canada, which differ from the requirements of United States securities laws. The Company reports information regarding mineral properties, mineralization and estimates of mineral reserves and mineral resources in accordance with Canadian reporting requirements which are governed by, and utilize definitions required by, Canadian National Instrument 43-101 - Standards of Disclosure for Mineral Projects ("NI 43-101") and the Canadian Institute of Mining, Metallurgy and Petroleum (the "CIM") - CIM Definition Standards on Mineral Resources and Mineral Reserves, adopted by the CIM Council, as amended (the "CIM Standards"). These definitions differ from the definitions adopted by the United States Securities and Exchange Commission ("SEC") under the United States Securities Act of 1933, as amended (the "Securities Act") which are applicable to U.S. companies. Accordingly, there is no assurance any mineral reserves or mineral resources that the Company may report as "proven mineral reserves", "probable mineral reserves", "measured mineral resources", "indicated mineral resources" and "inferred mineral resources" under NI 43-101 would be the same had the Company prepared the reserve or resource estimates under the standards adopted by the SEC. Accordingly, information contained herein that describes Wheaton's mineral deposits may not be comparable to similar information made public by U.S. companies subject to reporting and disclosure requirements under the United States federal securities laws and the rules and regulations thereunder. United States investors are urged to consider closely the disclosure in Wheaton's Form 40-F, a copy of which may be obtained from Wheaton or from <https://www.sec.gov/edgar.shtml>.

End Notes

¹ Please refer to disclosure on non-IFRS measures in this press release. Dividends declared in the referenced calendar quarter, relative to the financial results of the prior quarter. Details of the dividend can be found in the Wheaton's news release dated November 7, 2024, titled "Wheaton Precious Metals Declares Quarterly Dividend."

² Statements made in this section contain forward-looking information with respect to forecast production, production growth, funding outstanding commitments, continuing to acquire accretive mineral stream interests and the commencement, timing and achievement of construction, expansion or improvement projects and readers are cautioned that actual outcomes may vary. Please see "Cautionary Note Regarding Forward-Looking Statements" for material risks, assumptions and important disclosure associated with this information.

³ Gold equivalent forecast production for 2024 and the longer-term outlook are based on the following commodity price assumptions: \$2,000 per ounce gold, \$23 per ounce silver, \$1,000 per ounce palladium, \$950 per ounce of platinum and \$13.00 per pound cobalt.

⁴Source: Company reports & S and P Capital IQ estimates of 2024 byproduct cost curves for gold, zinc/lead, copper, PGM, nickel & silver mines. Portfolio mine life based on recoverable reserves and resources as of Dec 31, 2023 and 2023 actual mill throughput and is weighted by individual reserve and resource category.

⁵Total streaming and royalty agreements relate to precious metals purchase agreements for the purchase of precious metals and cobalt relating to 18 mining assets which are currently operating, 24 which are at various stages of development and 4 of which have been placed in care and maintenance or have been closed.

⁶Further details for long-term guidance can be found in the Wheaton news release dated March 14, 2024, titled "Wheaton Precious Metals Announces Solid 2023 Annual Results and Transition to Progressive Dividend Policy". Additionally, neither of the transactions announced in 2024 have been factored into the 2024-2026 guidance, including the new silver mine at the Kone Project and the streamer at the Fenix Project. <https://www.wheatonpm.com/news-releases/2024-03-14-wheaton-precious-metals-announces-solid-2023-annual-results-and-transition-to-progressive-dividend-policy>
