

Phenom Resources Corp. Reports Dobbin Gold Footprint Update, Nevada

13.11.2024 | [Newsfile](#)

Vancouver, Nov. 13, 2024 - [Phenom Resources Corp.](#) (TSXV: PHNM) (OTCQX: PHNMF) (FSE: 1PY0) ("Phenom" or the "Company") is pleased to announce an update on the developments of the Dobbin gold soil anomaly last reported October 9, 2024. Prospecting and mapping had identified a 600 metre (2,000 ft) long by 200 metre (650 ft) wide trend of similar alteration (significant veining and jasperoid) which was interpreted to be a faulted off south-western extension of the gold anomaly. Soil results from this new segment have been received with some positive results in gold and pathfinder elements that only partially defines the south-western extension of the gold trend. Crews were dispatched yesterday to expand the soil grid to cover a 550 metre (1800 ft) by 200 metre (650ft) gap over the suspected remainder of the anomaly. Collective results will be reported once received.

The gold soil anomaly is at least 1.3 kilometres (4,300 ft) in length with the potential to extend its length with new soil sampling underway. The anomalous gold zone is interpreted to be controlled by northeast-trending structures presumed to be subvertical, cutting through gently-dipping Roberts Mountains Formation carbonates, an important host for many Carlin-type gold deposits in central and northern Nevada.

About Phenom Resources Corp.

Phenom has 100% interest in the Carlin Gold-Vanadium Project, located six miles south from the town of Carlin, Nevada, and Highway I-80 in Elko County, which hosts the Carlin Vanadium deposit, North America's largest highest grade primary vanadium resource. The Project lies within the prolific Carlin Gold Trend. Approximately nine million ounces comprised of multiple gold deposits, including past producing mines, are present near (5-15km) the Phenom property. The Company has options on three gold projects in Nevada - the King Solomon and Dobbin Properties, which are Carlin Gold-type targets, and the Crescent Valley Property, a Bonanza high grade gold vein-type target.

Cautionary Statement Regarding Forward-Looking Information

This news release contains certain "forward-looking information" and "forward-looking statements" (collectively "forward-looking statements") within the meaning of applicable securities legislation. All statements, other than statements of historical fact, included herein, without limitation, statements relating to the future operations and activities of Phenom, are forward-looking statements. Forward-looking statements are frequently, but not always, identified by words such as "expects", "anticipates", "believes", "intends", "estimates", "potential", "possible", and similar expressions, or statements that events, conditions, or results "will", "may", "could", or "should" occur or be achieved. Forward-looking statements in this news release relate to, among other things, the Company's exploration plans, including ongoing mapping and sampling,

future assay results and the impact thereof. There can be no assurance that such statements will prove to be accurate, and actual results and future events could differ materially from those anticipated in such statements. Forward-looking statements reflect the beliefs, opinions and projections on the date the statements are made and are based upon a number of assumptions and estimates that, while considered reasonable by Phenom, are inherently subject to significant business, economic, competitive, political and social uncertainties and contingencies. Many factors, both known and unknown, could cause actual results, performance or achievements to be materially different from the results, performance or achievements that are or may be expressed or implied by such forward-looking statements and the parties have made assumptions and estimates based on or related to many of these factors. Readers should not place undue reliance on the forward-looking statements and information contained in this news release concerning these items. Phenom does not assume any obligation to update the forward-looking statements of beliefs, opinions, projections, or other factors, should they change, except as required by applicable securities laws.
