

Teck Receives Regulatory Approval to Renew Normal Course Issuer Bid

18.11.2024 | [GlobeNewswire](#)

VANCOUVER, Nov. 18, 2024 - [Teck Resources Ltd.](#) (TSX: TECK.A and TECK.B, NYSE: TECK) ("Teck") has been informed that the Toronto Stock Exchange ("TSX") has accepted Teck's notice of intention to make a normal course issuer bid to purchase its Class B subordinate voting shares ("Class B Shares").

Under the normal course issuer bid, Teck may purchase up to 40 million Class B Shares during the period starting November 22, 2024, and ending November 21, 2025, representing approximately 7.9% of the outstanding Class B Shares, or 8.0% of the public float, as at November 8, 2024. 503,097,912 Class B Shares were issued and outstanding as at that date.

Teck will make any purchases through the facilities of the TSX, the New York Stock Exchange or other alternative trading systems in Canada and the United States, if eligible, or by such other means as may be permitted under applicable securities laws, including private agreements under an issuer bid exemption order or block purchases in accordance with applicable regulations. Purchases will generally be made at the prevailing market price, although any purchases made by way of private agreement under an applicable exemption order issued by a securities regulatory authority may be at a discount to the prevailing market price, as provided for in such exemption order.

Under the TSX rules, except pursuant to permitted exceptions, the number of Class B Shares purchased on the TSX on any given day will not exceed 296,920 Class B Shares, which is 25% of the average daily trading volume for the Class B Shares on the TSX during the six-month period ended October 31, 2024, of 1,187,683, calculated in accordance with the TSX rules. The actual number of Class B Shares to be purchased and the timing of any such purchases will generally be determined by Teck from time to time as market conditions warrant. In addition, Teck may from time to time repurchase Class B Shares under an automatic securities repurchase plan, which will enable purchases during times when Teck would typically not be permitted to purchase its shares due to regulatory or other reasons.

Consistent with its approach in previous years, Teck is making the normal course issuer bid because it believes that the market price of its Class B Shares may, from time to time, not reflect their underlying value and that the share buy-back program may provide value by reducing the number of shares outstanding at attractive prices. All repurchased shares will be cancelled.

As at November 8, 2024, during the previous normal course issuer bid, which commenced on November 22, 2023, and will end on November 21, 2024, Teck has purchased 18,062,775 Class B Shares at a weighted average purchase price of \$62.75 through the facilities of the TSX, the New York Stock Exchange and alternative trading systems in both Canada and the United States. Teck sought and received approval to purchase up to 40 million Class B Shares under the previous normal course issuer bid.

Forward-Looking Statements

This press release contains certain forward-looking statements within the meaning of the United States Private Securities Litigation Reform Act of 1995 and forward-looking information as defined in the *Securities Act* (Ontario). Forward-looking statements and information can be identified by statements that certain actions, events or results "may", "could", "should", "would", "might" or "will" be taken, occur or achieved. Forward-looking statements include statements regarding Teck's expectations regarding the number of Class B Shares that might be purchased under the normal course issuer bid.

Forward-looking statements involve known and unknown risks, uncertainties and other factors, which may cause the actual results, performance or achievements of Teck to be materially different from any future results, performance or achievements expressed or implied by the forward-looking statements.

Factors that may cause actual results to vary include, but are not limited to, the ability to acquire Class B Shares in the market through the normal course issuer bid and in compliance with regulatory requirements, share price volatility, availability of funds to purchase shares and other risk factors impacting Teck's business as detailed in Teck's annual information form and in its public filings with Canadian securities administrators and the U.S. Securities and Exchange Commission. Teck does not assume the obligation to revise or update these forward-looking statements after the date of this document, except as may be required under applicable securities laws.
