The Offering is subject to certain conditions customary for transactions of this nature, including, but not limited to, the receipt of all necessary approvals, including the approval of the TSX Venture Exchange.

The Company plans to use the net proceeds to fund step-out and resource optimization drilling of approximately 4,000 metres at the East Ayawilca zinc-silver-lead area, for exploration at the Silvia copper-gold property, and for general working capital and corporate purposes. See October 16, 2024, news release for information regarding key exploration targets proposed for 2024/25.
