## Project Update - La Parrilla

The underground diamond drill program at the Company's 100% owned La Parrilla Silver Complex was completed in October 2024. A total of 18,682 metres ("m") was drilled during Phase 1 & 2, with 12,265 m reported to-date. Upon completion of the QA/QC as well as interpretation, the additional 6,417 m will be reported over the coming weeks.

The Company has engaged SRK Canada Inc. to prepare a Mineral Resource Update for the project, with completion targeted in January 2025. The favourable drill results from Phase 1 & 2 diamond drilling are expected to have a positive impact on the Mineral Resource Update.

Greg McKenzie, President and CEO, commented: "The successful results achieved from our first diamond drill program at La Parrilla have greatly enhanced our knowledge of the mineralization as well as controlling features and systems. Furthermore, the high-grade drill results clearly demonstrate that zones previously mined by First Majestic Silver continue down-plunge and along strike."
