

Metal Energy Upsizes Private Placement

06.12.2024 | [Newsfile](#)

Toronto, December 6, 2024 - [Metal Energy Corp.](#) (TSXV: MERG) (OTCQB: MEEEF) (the "Company" or "Metal Energy") is pleased to announce that it has upsized its previously announced non-brokered private placement (the "Offering") to accommodate strong investor demand. The Offering will now consist of aggregate gross proceeds of up to \$1,000,000.

Other than the upsize of the Offering, all other details of the non-brokered financing remain as disclosed in the news release of the Company issued on December 4th, 2024.

The Offering consists of any combination of (i) units of the Company (the "Units") at \$0.04 per unit and (ii) flow-through units of the Company (each "FT" Unit) at a price of \$0.05 per FT Unit. Each Unit will be comprised of one common share in the capital of the Company (a "Common Share") and one-half of one Common Share purchase warrant ("Warrant"). Each Warrant is exercisable to acquire one Common Share in the capital of the Company (a "Warrant Share") at an exercise price of \$0.08 per Warrant Share for a period of 24 months from the closing of the Offering.

Each FT Unit will be comprised of one common share in the capital of the Company (within the meaning of the Income Tax Act (Canada) (a "FT Common Share") and one-half of one Common Share purchase warrant ("Non-Flow Through"). Each FT Warrant is exercisable to acquire one Common Share (a "FT Warrant Share") at an exercise price of \$0.10 per FT Warrant Share for a period of 24 months from the closing of the Offering.

The Shares issued under the Offering will be subject to restrictions on resale for a period of four months + one day from the date of issue. The Company may pay a finder's fee in cash and/or share purchase warrants in connection with the Offering.

Subject to TSX Venture Exchange approval, [OreCAP Invest Corp.](#) ("OreCAP") has indicated it will subscribe for up to \$220,000 of the Units in the Offering. The participation of OreCAP in the Offering will be a Non-Arm's Length Transaction under TSX Venture Exchange policies, and may be treated as a "related party transaction" under Multilateral Instrument 61-101 - Protection of Minority Security Holders in Special Transactions ("MI 61-101") as certain directors and officers of Metal Energy are also directors, officers and/or shareholders of OreCAP.

MI 61-101 requires that an issuer obtain approval of a majority of the disinterested shareholders as well as a formal valuation for a transaction that constitutes a related party transaction, absent an exemption from such requirements. The participation of OreCAP in the Offering will be exempt from the valuation requirement and minority shareholder requirements of MI 61-101 as the Metal Energy Shares will not exceed 25% of Metal Energy's market capitalization.

OreCAP is an investment issuer listed on the TSXV and seeks Special Situation investments in the natural resource sector that offer shareholders diverse exposure to high returns in precious and critical metal assets and businesses.

The Offering is scheduled to close on or around December 17, 2024, and is subject to certain conditions including, but not limited to, receipt of all necessary approvals including the approval of the TSX Venture Exchange.

About Metal Energy

Metal Energy is a critical metals exploration company with two high-potential projects in politically stable,

Canadian jurisdictions: Manibridge (Ni-Cu-Co-PGE) in Manitoba and its recently acquired Highland Valley Project (Cu-Mo-Ag-Au-Re) in British Columbia.
