

Apex Critical Metals Corp. Announces Private Placement of Units to Raise Gross Proceeds of up to \$2,520,000

20.12.2024 | [ACCESS Newswire](#)

VANCOUVER, Dec. 19, 2024 - [Apex Critical Metals Corp.](#) (CSE:APXC) (OTCQB:APXCF) (FWB:KL9) ("Apex" or the "Company"), an exploration company focused on developing high potential resource sector projects, is pleased to announce a non-brokered private placement offering of up to 4,200,000 units (each, a "Unit") at a price of \$0.60 per Unit, for aggregate proceeds of up to \$2,520,000 (the "Offering"). Each Unit will consist of one common share of the Company (each, a "Share") and one common share purchase warrant (each, a "Warrant"), with each Warrant entitling the holder to purchase one Share at a price of \$0.75 per Share for a period of two (2) years from closing of the Offering (the "Closing"). The proceeds of the Offering will be used for property exploration and general working capital.

All securities issued with respect to the Offering will be subject to a hold period of four months and one day in accordance with applicable securities laws.

About Apex Critical Metals Corp. (CSE:APXC)(OTCQB:APXCF)(FWB:KL9)

Apex Critical Metals Corp. is focused on acquiring, exploring and developing properties potentially rich in carbonatite rocks hosting economic concentrations of rare earth elements (REEs) including niobium. Apex's CAP Property located 85 kilometers northeast of Prince George, British Columbia, spans 25 square kilometers and hosts a recently identified promising 1.8-kilometer niobium trend. The company's Bianco Carbonatite Project encompasses 3,735 hectares covering a large carbonatite complex within an area known for significant niobium mineralization in Northwestern Ontario. These extremely rare carbonatite formations, with less than 600 known deposits worldwide, host many high-demand REE minerals as well as uranium, copper, and gold. Carbonatites contain some of the largest and most productive niobium deposits, including Araxá and Catalão in Brazil and Niobec in Quebec, as well as major rare earth and phosphate sources such as Mountain Pass in California and Palabora in South Africa. By acquiring more carbonatite-hosted projects, Apex intends to investigate these potentially high value systems to meet the growing global demand across various industries. Apex Critical Metals is publicly listed in Canada on the CSE, under the symbol "APXC," in the USA on the OTCQB market under the symbol "APXCF," and in Germany on the Börse Frankfurt under the symbol "KL9" or WKN: A40CCQ. CAUTIONARY STATEMENT REGARDING FORWARD-LOOKING INFORMATION:

This news release may contain "forward-looking statements" under applicable Canadian securities legislation. Forward-looking statements consist of statements that are not purely historical, including any statements regarding beliefs, plans, expectations or intentions regarding the future. Forward-looking statements in this news release include statements with respect to the Offering including the anticipated use

of proceeds of the Offering and the expiry of hold periods for securities distributed pursuant to the Offering. Forward-looking statements are subject to various known and unknown risks and uncertainties that may cause actual results, performance or developments to differ materially from those contained in the statements, including risks related to factors beyond the control of the Company, including, but not limited to, the proceeds of the Offering may not be used as stated in this news release and those additional risks set out in the Company's public documents filed on SEDAR+ at www.sedarplus.com. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements. The Company disclaims any intention or obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.
