

# Ring Energy Announces Issuance of 2024 Sustainability Report

31.12.2024 | [GlobeNewswire](#)

THE WOODLANDS, Dec. 31, 2024 - [Ring Energy Inc.](#) (NYSE American: REI) ("Ring" or the "Company") today announced that it has issued its *2024 Sustainability Report* (the "2024 Report"), which is available on the Company's website at [www.ringenergy.com](http://www.ringenergy.com) under the "Sustainability" tab.

The 2024 Report marks the fourth consecutive annual update. It provides comprehensive information about Ring's Environmental, Social and Governance ("ESG") initiatives and continued ESG progress on multiple fronts, including multi-year targeted capital investments, that are directly contributing to the Company's further sustainability. The 2024 Report highlights the significant benefits afforded by Ring's recent strategic acquisitions and asset dispositions, the combination of which provide the opportunity to further invest in leading technologies designed to reduce the Company's relative environmental footprint over time, enhance its employee training and benefits programs, and partner with the local communities in which the Company operates. One key example of Ring's ongoing sustainability success in 2023 was the 59% year-over-year decrease in Scope 1 Greenhouse Gas ("GHG") emissions that was primarily associated with the Company's successful efforts to reduce flaring and casing gas venting.

In the creation of the document, the Company primarily consulted the Sustainability Accounting Standards Board's ("SASB") Oil and Gas Exploration and Production Sustainability Accounting Standard and the Global Sustainability Standards Board's Global Reporting Initiative ("GRI") and associated Oil & Gas Sector Standards. In addition, the Company considered the recommendations of the Task Force on Climate-related Financial Disclosures ("TCFD"), the Sustainable Development Goals ("SDGs") promulgated by the United Nations, and guidance from other industry frameworks and the various ESG ratings agencies, as appropriate.
