

# TRX Gold to Present at the Microcap Conference 2025

09.01.2025 | [ACCESS Newswire](#)

TORONTO, January 9, 2025 - [TRX Gold Corp.](#) (TSX:TRX)(NYSE American:TRX), a growth-oriented junior gold mining company, is pleased to announce its participation in The Microcap Conference 2025, the premier event for growth-focused companies and investors. The conference will take place January 28-30, 2025, at the Borgata Hotel Spa & Casino in Atlantic City, NJ.

TRX Gold's management team will deliver a corporate presentation and engage in one-on-one meetings with institutional and individual investors to discuss the Company's recent developments, growth strategy, and investment opportunities.

## About The Microcap Conference 2025

The Microcap Conference is the largest independent microcap event in the U.S., bringing together top-tier investors and executives from microcap companies. The event offers a platform for companies to showcase their value propositions through presentations, one-on-one meetings, and networking opportunities.

The 2025 event will feature:

- Keynote Speakers: Renowned industry figures, including Jon Ledecy, Co-Owner of the New York Islanders, who will engage in a fireside chat with CNBC's Bob Pisani; plus Tom Gardner, CEO of Motley Fool, who will share insights on investing, market trends, and entrepreneurial success.
- Expert Panels and Presentations: Financial commentators Ron Insana (CNBC) and Charlie Gasparino (FOX Business) will cover critical topics for the US equity markets, from capital formation to regulatory updates and market trends.
- Entertainment Headliner: A special performance by Tom Papa, celebrated comedian and host of Netflix specials, ensuring a memorable evening for attendees.

Hosted by DealFlow Events, The Microcap Conference is renowned for its blend of high-quality content, engaging networking, and exceptional entertainment. For more information, visit <https://themicrocapconference.com>.

## About TRX Gold Corporation

TRX Gold is rapidly advancing the Buckreef Gold Project. Anchored by a Mineral Resource published in May 2020, the project currently hosts an NI 43-101 Measured and Indicated Mineral Resource ("M&I Resource") of 35.88 million tonnes ("MT") at 1.77 grams per tonne ("g/t") gold containing 2,036,280 ounces ("oz") of gold and an Inferred Mineral Resource of 17.8 MT at 1.11 g/t gold for 635,540 oz of gold. The leadership team is focused on creating both near-term and long-term shareholder value by increasing gold production to generate positive cash flow. The positive cash flow will be utilized for exploratory drilling with the goal of increasing the current mineral resource base and also intended to increase annual gold production levels, in a low-cost, low risk, phased approach. TRX Gold's actions are led by the highest environmental, social and corporate governance ("ESG") standards, evidenced by the relationships and programs that the Company has developed during its nearly two decades of presence in the Geita Region, Tanzania.

<sup>1</sup> Refer to Forward-Looking and Cautionary Statements

## Forward-Looking and Cautionary Statements

This press release contains certain forward-looking statements as defined in the applicable securities laws. All statements, other than statements of historical facts, are forward-looking statements. Forward-looking statements are frequently, but not always, identified by words such as "expects", "anticipates", "believes", "hopes", "intends", "estimated", "potential", "possible" and similar expressions, or statements that events, conditions or results "will", "may", "could" or "should" occur or be achieved. Forward-looking statements relate to future events or future performance and reflect TRX Gold management's expectations or beliefs regarding future events and include, but are not limited to, statements with respect to continued operating cash flow, expansion of its process plant, estimation of mineral resources, ability to develop value creating activities, recoveries, subsequent project testing, success, scope and viability of mining operations, the timing and amount of estimated future production, and capital expenditure.

Although TRX Gold believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance. The actual achievements of TRX Gold or other future events or conditions may differ materially from those reflected in the forward-looking statements due to a variety of risks, uncertainties and other factors. These risks, uncertainties and factors include general business, legal, economic, competitive, political, regulatory and social uncertainties; actual results of exploration activities and economic evaluations; fluctuations in currency exchange rates; changes in costs; future prices of gold and other minerals; mining method, production profile and mine plan; delays in exploration, development and construction activities; changes in government legislation and regulation; the ability to obtain financing on acceptable terms and in a timely manner or at all; contests over title to properties; employee relations and shortages of skilled personnel and contractors; the speculative nature of, and the risks involved in, the exploration, development and mining business. These risks are set forth in reports that TRX Gold files with the SEC and the various Canadian securities authorities. You can review and obtain copies of these filings from the SEC's website at <http://www.sec.gov/edgar.shtml> and the Company's profile on the System for Electronic Document Analysis and Retrieval ("SEDAR+") at [www.sedarplus.ca](http://www.sedarplus.ca).

The disclosure contained in this press release of a scientific or technical nature relating to the Company's Buckreef Project has been summarized or extracted from the technical report entitled "The National Instrument 43-101 Independent Technical Report, Updated Mineral Resource Estimate for the Buckreef Gold Mine Project, Tanzania, East Africa For TRX Gold" with an effective date (the "Effective Date") of May 15, 2020 (the "2020 Technical Report"). The 2020 Technical Report was prepared by or under the supervision Mr. Wenceslaus Kutekwatekwa (Mining Engineer, Mining and Project Management Consultant) BSc Hons (Mining Eng.), MBA, FSAIMM, of Virimai Projects, and, Dr Frank Crundwell, MBA, PhD, a Consulting Engineer, each of whom is an independent Qualified Person as such term is defined in NI 43-101. The information contained herein is subject to all of the assumptions, qualifications and procedures set out in the 2020 Technical Report and reference should be made to the full details of the 2020 Technical Report which has been filed with the applicable regulatory authorities and is available on the Company's profile at [www.sedarplus.ca](http://www.sedarplus.ca). The Company did not complete any new work that would warrant reporting material changes in the previously reported Mineral Resource ("MRE") and Mineral Reserve statements during the year ended August 31, 2023.

The Company has engaged two globally recognized and respected mining consulting groups to undertake a comprehensive review of the MRE, and economic analysis which was previously conducted under the 2003 CIM code. This in turn follows significant infill and exploration drilling, plus other required technical work undertaken over the prior 18 months. This work is currently being undertaken to be compliant with the November 2019 CIM Code for the Valuation of Mineral Properties, which are different with respect to the 2003 guidelines. There can be no assurance that there will not be a change in the MRE and Mineral Reserve as disclosed in the 2020 Technical Report after such work has been updated (in accordance with the 2019 CIM code).

The information contained in this press release is as of the date of the press release and TRX Gold assumes

no duty to update such information.
