

Skyharbour Invites Shareholders and Investment Community to visit us at Booth 804 at the VRIC in Vancouver, January 19-20, 2025, and Initiates New Marketing Program

15.01.2025 | [GlobeNewswire](#)

Vancouver, Jan. 15, 2025 - [Skyharbour Resources Ltd.](#) (TSX-V: SYH) (OTCQX: SYHBF) (Frankfurt: SC1P) ("Skyharbour" or the "Company") would like to cordially invite you to visit us at Booth #804 at the Vancouver Resource Investment Conference (VRIC) to be held at the Vancouver Convention Centre West (1055 Canada Place, Vancouver) on Sunday January 19 - Monday January 20, 2025.

During the conference, Skyharbour's President and CEO, Jordan Trimble, will be giving a Skyharbour corporate presentation on Sunday, January 19th at 1:30 PM in Workshop 2 and will also be on The 2025 Uranium Forecast panel on Monday, January 20th at 3:00 PM in the Speaker Hall.

The Vancouver Resource Investment Conference 2025 will feature over 120 expert speakers, including globally respected economists, legendary money managers, and investors.

This year's conference promises an array of exceptional opportunities, including exclusive keynote sessions featuring 120 renowned speakers, unparalleled networking with over 5,000 industry professionals and investors, and interactive exhibits showcasing groundbreaking innovations across the resource sector. Attendees will gain invaluable insights into the commodities landscape, exploring emerging trends in precious metals, energy, critical minerals, and beyond.

For more information and/or to register for the conference please visit:

Skyharbour Engages Marketing Firm:

Skyharbour announces it has engaged Winning Media LLC ("Winning Media") to provide strategic digital media and consulting services to the Company. Winning Media delivers services to a diverse group of clients across North America, providing strategic digital media services, marketing, advertising and data analytic services. The Company and Winning Media act at arm's length. Under the terms of the agreement, Winning Media will provide strategic digital media services commencing on January 13th, 2025 for an expected 6 month term, including marketing services, news dissemination, data analytics services, content development, media buying and distribution, campaign reporting and optimization, as well as potentially attracting option / joint venture partners for business opportunities. The Company shall pay Winning Media an initial cost of USD \$35,000 for such services. The engagement of Winning Media remains subject to the approval of the TSX Venture Exchange.

Yurchison Property Option Agreement Update:

The Company announces that the option agreement with [Medaro Mining Corp.](#) to acquire the Yurchison property dated November 1st, 2021, as amended, has been terminated. Skyharbour will retain 100% ownership of the project.

Qualified Person:

The technical information in this news release has been prepared in accordance with the Canadian

regulatory requirements set out in National Instrument 43-101 and reviewed and approved by Serdar Donmez, P.Geo., VP of Exploration for Skyharbour as well as a Qualified Person.

About Skyharbour Resources Ltd.:

Skyharbour holds an extensive portfolio of uranium exploration projects in Canada's Athabasca Basin and is well positioned to benefit from improving uranium market fundamentals with interest in thirty-six projects covering over 614,000 hectares (over 1.5 million acres) of land. Skyharbour has acquired from Denison Mines, a large strategic shareholder of the Company, a 100% interest in the Moore Uranium Project, which is located 15 kilometres east of Denison's Wheeler River project and 39 kilometres south of Cameco's McArthur River uranium mine. Moore is an advanced-stage uranium exploration property with high-grade uranium mineralization at the Maverick Zone that returned drill results of up to 6.0% U₃O₈ over 5.9 metres, including 20.8% U₃O₈ over 1.5 metres at a vertical depth of 265 metres. Adjacent to the Moore Project is the Russell Lake Uranium Project, in which Skyharbour is operator with joint-venture partner Rio Tinto. The project hosts several high-grade uranium drill intercepts over a large property area with robust exploration upside potential. The Company is actively advancing these projects through exploration and drill programs.

Skyharbour also has joint ventures with industry leader Orano Canada Inc., Azincourt Energy, and Thunderbird Resources at the Preston, East Preston, and Hook Lake Projects, respectively. The Company also has several active earn-in option partners, including CSE-listed [Basin Uranium Corp.](#) at the Mann Lake Uranium Project; TSX-V listed North Shore Uranium at the Falcon Project; UraEx Resources at the South Dufferin and Bolt Projects; Hatchet Uranium at the Highway Project; CSE-listed Mustang Energy at the 914W Project; and TSX-V listed Terra Clean Energy at the South Falcon East Project. In aggregate, Skyharbour has now signed earn-in option agreements with partners that total to over \$36 million in partner-funded exploration expenditures, over \$20 million worth of shares being issued, and \$14 million in cash payments coming into Skyharbour, assuming that these partner companies complete their entire earn-ins at the respective projects.

Skyharbour's goal is to maximize shareholder value through new mineral discoveries, committed long-term partnerships, and the advancement of exploration projects in geopolitically favourable jurisdictions.

Forward-Looking Information

This news release contains "forward-looking information or statements" within the meaning of applicable securities laws, which may include, without limitation, completing ongoing and planned work on its projects including drilling and the expected timing of such work programs, other statements relating to the technical, financial and business prospects of the Company, its projects and other matters. All statements in this news release, other than statements of historical facts, that address events or developments that the Company expects to occur, are forward-looking statements. Although the Company believes the expectations expressed in such forward-looking statements are based on reasonable assumptions, such statements are not guarantees of future performance and actual results may differ materially from those in the forward-looking statements. Such statements and information are based on numerous assumptions regarding present and future business strategies and the environment in which the Company will operate in the future, including the price of uranium, the ability to achieve its goals, that general business and economic conditions will not change in a material adverse manner, that financing will be available if and when needed and on reasonable terms. Such forward-looking information reflects the Company's views with respect to future events and is subject to risks, uncertainties and assumptions, including the risks and uncertainties relating to the interpretation of exploration results, risks related to the inherent uncertainty of exploration and cost estimates and the potential for unexpected costs and expenses, and those filed under the Company's profile on SEDAR+ at www.sedarplus.ca. Factors that could cause actual results to differ materially from those in forward looking statements include, but are not limited to, continued availability of capital and financing and general economic, market or business conditions, adverse weather or climate conditions, failure to obtain or maintain all necessary government permits, approvals and authorizations, failure to obtain or maintain community acceptance (including First Nations), decrease in the price of uranium and other metals, increase in costs, litigation, and failure of counterparties to perform their contractual obligations. The Company does not undertake to update forward-looking statements or forward-looking information, except as required by law.
