22.01.2025 | [ACCESS Newswire](#)

TORONTO, January 22, 2025 - [Magna Terra Minerals Inc.](#) (the "Company" or "Magna Terra") (TSXV:MTT) is pleased to announce that, subject to all regulatory approvals, the Company intends to complete a non-brokered premium flow-through private placement of minimum gross proceeds of \$450,000 (the "Offering").

The Offering will consist of an issuance of premium flow-through common shares of the Company at a price of \$0.09 per share for a total issuance of 5,000,000 premium flow-through common shares. Of note, the Company is pleased that Mr. Michael Gentile, its largest shareholder (19.9%) will be participating in the Offering to his pro-rata ownership interest.

The gross proceeds from the issuance of the premium flow-through common shares will be used to incur "Canadian exploration expenses" that qualify as "flow-through critical mineral mining expenditures" (as such terms are defined in the Income Tax Act (Canada)) related to the Company's mineral exploration projects, primarily for preliminary exploration programs at the Company's recently acquired Humber Project in western Newfoundland and Rocky Brook Project in northern New Brunswick.

In connection with the Offering, the Company may pay finder's fees in cash or securities or a combination of both, as permitted by the policies of the TSX Venture Exchange. All securities issued pursuant to the Offering will be subject to a regulatory four month and one day hold period. The Offering is subject to approval by the TSX Venture Exchange.
