

Global Atomic Announces Upsize of Private Placement to up to C\$36 Million

24.01.2025 | [CNW](#)

/NOT FOR DISTRIBUTION TO UNITED STATES NEWS WIRE SERVICES OR FOR DISSEMINATION IN THE UNITED STATES

TORONTO, Jan. 24, 2025 - [Global Atomic Corp.](#) ("Global Atomic" or the "Company") (TSX: GLO) (OTCQX: GLATF) (FRANKFURT: G12) is pleased to announce that due to significant investor demand, the Company has increased the net gross proceeds of its previously announced non-brokered private placement (the "Offering") from C\$30,000,000 to C\$36,000,000. Under the revised Offering, the Company will sell up to 45,000,000 units of the Company (each, a "Unit") at a price of C\$0.80 per Unit. Red Cloud Securities Inc. and Canaccord Genuity Corp. are acting as finders in connection with the Offering.

Each Unit will consist of one common share of the Company (each, a "Common Share") and one common share purchase warrant (each, a "Warrant"). Each Warrant will entitle the holder thereof to purchase one Common Share at a price of C\$1.00 per Common Share, exercisable for a period of 36 months following the issue date.

The Company intends to use the net proceeds from the Offering for the advancement of the Dasa Project and for general corporate capital purposes.

Subject to compliance with applicable regulatory requirements and in accordance with National Instrument 45-106 - Prospectus Exemptions ("NI 45-106"), up to 12,500,000 Units that may be sold under the Offering, representing gross proceeds of C\$10,000,000 (the "LIFE Units") will be offered for sale to purchasers in all of the provinces of Canada (the "Canadian Selling Jurisdictions") pursuant to the listed issuer financing exemption under Part 5A of NI 45-106 (the "Listed Issuer Financing Exemption"). The Common Shares issuable pursuant to the sale of the LIFE Units are expected to be immediately free of any restrictions under applicable Canadian securities legislation if sold to purchasers resident in Canada.

All Units sold in the Canadian Selling Jurisdictions but not under the Listed Issuer Financing Exemption (the "Non-LIFE Units") will be offered pursuant to the accredited investor exemption outlined in Part 2 of NI 45-106. The Units may also be sold in other jurisdictions and in the United States on a private placement basis pursuant to one or more exemptions from the registration requirements of the United States Securities Act of 1933 (the "U.S. Securities Act"), as amended.

The closing of the Offering is expected to occur on or around January 31, 2025 and is subject to receipt of all necessary regulatory approvals including the Toronto Stock Exchange (the "TSX"). Finder's fees will be payable in accordance with the policies of the TSX.

There is an offering document related to the LIFE Units being sold pursuant to the Offering that can be accessed under the Company's profile at www.sedarplus.ca and on the Company's website at www.globalatomiccorp.com. Prospective Canadian investors purchasing under the Listed Issuer Financing Exemption should read this offering document before making an investment decision.

This news release does not constitute an offer to sell or a solicitation of an offer to sell any of the securities in the United States. The securities have not been and will not be registered under the U.S. Securities Act, as amended or any state securities laws and may not be offered or sold within the United States or to U.S. Persons unless registered under the U.S. Securities Act or an applicable state securities laws or an exemption from such registration is available.

About Global Atomic

Global Atomic Corporation (www.globalatomiccorp.com) is a publicly listed company that provides a unique combination of high-grade uranium mine development and cash-flowing zinc concentrate production.

The Company's Uranium Division is currently developing the fully permitted, large, high grade Dasa Deposit, discovered in 2011.

Global Atomic geologists through grassroots field exploration. The "First Blast Ceremony" occurred on November 5, 2025. The commissioning of the processing plant is scheduled for Q1, 2026. Global Atomic has also identified 3 additional uranium resources in Niger that can be advanced with further assessment work.

Global Atomic's Base Metals Division holds a 49% interest in the Befesa Silvermet Turkey, S.L. (BST) Joint Venture, which operates a modern zinc recycling plant, located in Iskenderun, Türkiye. The plant recovers zinc from Electric Arc Furnace Slag (EAFD) to produce a high-grade zinc oxide concentrate which is sold to zinc smelters around the world. The Company's joint venture partner, Befesa Zinc S.A.U. (Befesa) holds a 51% interest in and is the operator of the BST Joint Venture. Befesa is a market leader in EAFD recycling, with approximately 50% of the European EAFD market and facilities located throughout Asia and the United States of America.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING STATEMENTS:

The information in this release may contain forward-looking information under applicable securities laws. Forward-looking information includes, but is not limited to, statements with respect to completion of any financings; Global Atomic's development potential and timetable of its operations, development and exploration assets; Global Atomic's ability to raise additional capital; the future price of uranium; the estimation of mineral reserves and resources; conclusions of economic evaluations; realization of mineral reserve estimates; the timing and amount of estimated future production, development and exploration of future activities; capital and operating expenditures; success of exploration activities; mining or processing issues; currency exchange rates; government regulation of mining operations; and environmental and permitting risks. Generally, forward-looking statements can be identified by the use of forward-looking terminology such as "plans", "is expected", "estimates", "various", "may", "could", "might", "will be taken", "will include", "are expected", "occur" or "be achieved". All information contained in this news release, other than statements of current or historical fact, is forward-looking information. Statements of forward-looking information are subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievement of Global Atomic to be materially different from those expressed or implied by such forward-looking statements, including those limited to those risks described in the annual information form of Global Atomic and in its public documents filed on SEDAR. Forward-looking information is limited to the time to time.

Forward-looking statements are based on the opinions and estimates of management at the date such statements are made. Although management of Global Atomic has attempted to identify important factors that could cause actual results to be materially different from those forward-looking statements, there may be other factors that cause results not to be as anticipated, intended. There can be no assurance that such statements will prove to be accurate, as actual results and future events may differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance upon forward-looking statements. Global Atomic does not undertake to update any forward-looking statements, except in accordance with applicable securities law. Readers should also review the risks and uncertainties sections of Global Atomic's annual and interim MD&A.

The Toronto Stock Exchange has not reviewed and does not accept responsibility for the adequacy and accuracy of this release.
