18.02.2025 | [GlobeNewswire](#)

[Alphamin Resources Corp.](#) (AFM:TSXV, APH:JSE AltX) (the "Company") notes recent news reports that insurgents have further continued their advance and seized the city of Bukavu, the second largest city in eastern Democratic Republic of the Congo (DRC), following its seizure of the city of Goma in late January. The Company's mine is located in a remote area and, at this time the Company continues to operate within guidance parameters. As a result of the continued advance of the insurgents, the operating risk profile of the Company has increased and any further significant escalation of the conflict could result in mining operations being affected. The safety of the Company's employees and contractors and compliance with the DRC and international laws remains its committed focus. The Company is closely monitoring the situation as it continues to progress, and will provide further updates if required.
