

Metals Creek Secures Diamond Drill for the Tillex Copper Project

04.03.2025 | [Newsfile](#)

Thunder Bay, March 4, 2025 - [Metals Creek Resources Corp.](#) (TSXV: MEK) (FSE: M1C1) (the "Company" or Metals Creek) is pleased to announce that a diamond drill has been secured for an upcoming diamond drill program on the Tillex Copper Project. The 85 per cent owned Tillex Copper Project is located in Currie Township, 65 km east of Timmins, Ontario.

This program will be targeting mineralized argillites and wackes with associated chalcopyrite both as stringer and blebby style mineralization. This program will look to further define areas of little to no drilling as well as expanding the current limits of the mineralized envelope.

The Tillex Copper Project was last drilled in December 2024 (See MEK news release February 27, 2025) returning an intercept of 41.3m grading 1.51% Copper and 9.39g/t Silver.

Drilling is expected to commence mid-late March and results will be released once received and compiled.

Michael MacIsaac, P. Geo and VP Exploration for the Corporation and a qualified person as defined in National Instrument 43-101, is responsible for this release, and supervised the preparation of the information forming the basis for this release.

About Metals Creek Resources Corp.

Metals Creek Resources Corp. is a junior exploration company incorporated under the laws of the Province of Ontario, is a reporting issuer in Alberta, British Columbia and Ontario, and has its common shares listed for trading on the Exchange under the symbol "MEK". Metals Creek has earned a 50% interest in the Ogden Gold Property from [Newmont Corp.](#), including the former Naybob Gold mine, located 6 km south of Timmins, Ontario and has an 8 km strike length of the prolific Porcupine-Destor Fault (P-DF).
