About Homerun (www.homerunresources.com)

Homerun (TSXV: HMR) is a vertically integrated materials leader revolutionizing green energy solutions through advanced silica technologies. As an emerging force outside of China for high-purity quartz (HPQ) silica innovation, the Company controls the full industrial vertical from raw material extraction to cutting-edge solar, battery and energy storage solutions. Our dual-engine vertical integration strategy combines:

Advanced Materials

- Operating through ownership and partnerships to control two of Brazil's premier Silica Districts with in-place logistics.

- Pioneering zero-waste thermoelectric purification and advanced materials processing technologies with University of California - Davis.
- Developing silicon carbide and thermoelectric materials for next-generation battery solutions.

Energy Solutions

- Building Latin America's first dedicated high-efficiency solar glass manufacturing facility (365,000t/yr capacity).
- Commercializing the integration of Perovskite PV on solar glass technology (PSC is at +25% solar efficiency and now commercializing globally as Tandem Solar).
- Partnering with U.S. Dept. of Energy/NREL on the development of the Enduring long-duration energy storage system utilizing the Company's high-purity silica sand for industrial heat and electricity arbitrage and complementary silica purification.

With six profit centers built within the vertical strategy and all gaining economic advantage utilizing the Company's HPQ silica, across, solar, battery and energy storage solutions, Homerun is positioned to capitalize on high-growth global energy transition markets. The 3-phase development plan has achieved all key milestones in a timely manner, including government partnerships, scalable logistical market access, and breakthrough IP in advanced materials processing and energy solutions.

Homerun maintains an uncompromising commitment to ESG principles, deploying the cleanest and most sustainable production technologies across all operations while benefiting the people in the communities where the Company operates. As we advance revenue generation and vertical integration in 2025, the Company continues to deliver shareholder value through strategic execution within the unstoppable global energy transition.
