About the Company

The Company holds options to acquire a 100% interest two antimony projects in New Brunswick, namely Bald Hill and Antimony 2.0.

The Bald Hill Project is the site of a high-grade antimony deposit with mineralization defined over a distance of 500 meters and additional intersections of antimony for a further 1 km along strike.

The Antimony 2.0 Project, which is located approximately 25 kilometers west of Fredericton, New Brunswick is approximately 15 kilometers northeast of the historic Lake George antimony mine. The Lake George antimony mine operated for various periods from the 1860s to 1998 and produced as much as 4 per cent of the world's demand of antimony from 1970 through 1992. The Antimony 2.0 Project comprises over 35 square kilometers of relatively unexplored ground with excellent access via provincial and logging roads, and hydro power.

Each of these properties illustrates the Company's commitment to expanding its exposure to antimony exploration

The Company's management team possesses extensive experience in financing, exploration, development and mining. The Company intends to conduct exploration campaigns on each of its optioned properties with a goal of finding one or more minable resources.
