

Primary Hydrogen Appoints Industry Expert to Technical Advisory Board

31.03.2025 | [ACCESS Newswire](#)

CALGARY, March 31, 2025 - [Primary Hydrogen Corp.](#) (TSXV:HDRO)(FRA:83W0)(OTCQB:HNATF) (the "Company" or "Primary"), a leading exploration company focused on identifying and developing natural hydrogen resources, is pleased to announce the appointment of Dr. Allegra Hosford Scheirer as a Technical Advisor to the Board. Dr. Hosford Scheirer has been working with Primary over the past few months on its expansion into the USA, helping to formulate new opportunities and evaluate acquisitions, with the new appointment expanding the scope of her role. This appointment aligns with the Company's objective of systematically expanding its project portfolio into the USA.

"Having worked with Allegra over the past few months on evaluating opportunities and developing a US expansion strategy, I am excited for her expanded role and involvement with the Company moving forward," commented Benjamin Asuncion, CEO of Primary Hydrogen. "Given the growing potential for natural hydrogen both in prospectivity and applications, we are confident that Allegra's deep technical expertise and industry knowledge will provide invaluable guidance to Primary as we advance our exploration initiatives."

About Dr. Allegra Hosford Scheirer

Dr. Allegra Hosford Scheirer is an internationally recognized expert in petroleum systems analysis, with over 20 years of diversified experience in pore-fluid networks and energy science. She holds a Ph.D. in Marine Geology and Geophysics from the Massachusetts Institute of Technology (MIT) - Woods Hole Oceanographic Institution (WHOI) Joint Program.

Following her doctoral studies, Dr. Hosford Scheirer contributed to geophysical projects at the U.S. Geological Survey (USGS), where she collected land gravity data in the western United States and conducted extensive research in petroleum systems analysis. Her work at the USGS provided critical insights into subsurface energy resources, further establishing her expertise in the field.

At Stanford University, Dr. Hosford Scheirer serves as an Adjunct Professor in the Department of Earth and Planetary Sciences, where she had been a research scientist for over 16 years. Her research interests include developing integrated workflows incorporating geophysics, geochemistry, and quantitative geologic modeling.

Dr. Hosford Scheirer's extensive experience and expertise in energy science and petroleum systems analysis make her a valuable advisor to the Primary Hydrogen Corp Board.

About Primary Hydrogen Corp.

Primary Hydrogen is committed to pioneering the natural hydrogen sector, leveraging cutting-edge exploration techniques to identify and develop sustainable energy solutions. The Company has an extensive portfolio of properties covering over 740 acres in the USA and 210 square kilometres across Canada including the Blakelock and Hopkins projects in Ontario, the Mary's Harbour project in Labrador, the Point Rosie project in Newfoundland, and the Crooked Amphibolite, Coquihalla, and Cogburn projects in British Columbia. The Company also holds the Arthur Lake copper project in British Columbia.

CAUTIONARY NOTE REGARDING FORWARD-LOOKING INFORMATION

This news release contains "forward-looking information" and "forward-looking statements" within the meaning of applicable securities legislation. The forward-looking statements herein are made as of the date of this news release only. Often, but not always, forward-looking statements can be identified by the use of words such as "plans", "expects", "is expected", "budgets", "scheduled", "estimates", "forecasts", "predicts", "projects", "intends", "targets", "aims", "anticipates" or "believes" or variations (including negative variations) of such words and phrases or may be identified by statements to the effect that certain actions "may", "could", "should", "would", "might" or "will" be taken, occur or be achieved.

Although the Company believes, in light of the experience of their officers and directors, current conditions and expected future developments and other factors that have been considered appropriate, that the expectations reflected in the forward-looking statements and information in this news release are reasonable, undue reliance should not be placed on them because the parties can give no assurance that such statements will prove to be correct. Such statements and information reflect the current view of the Company. There are risks and uncertainties that may cause actual results to differ materially from those contemplated in those forward-looking statements and information.

Forward-looking statements are based on certain material assumptions and analysis made by the Company and the opinions and estimates of management as of the date of this news release. These forward-looking statements are subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of the Company to be materially different from those expressed or implied by such forward-looking statements or forward-looking information, including, but not limited to, the risk that the quotation of the Shares on the FSE and the OTCQB do not have the anticipated effects, inherent risks associated with the mining industry and the results of exploration activities and development of mineral properties, stock market volatility and capital market fluctuations, general market and industry conditions, as well as those risk factors discussed in the Company's most recently filed management's discussion and analysis filed under the Company's SEDAR+ profile at www.sedarplus.ca. Although management of the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in forward-looking statements or forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that such statements will prove to be accurate, as actual results and future events could differ materially from those anticipated in such statements. Accordingly, readers should not place undue reliance on forward-looking statements and forward-looking information. Readers are cautioned that reliance on such information may not be appropriate for other purposes. The Company does not undertake to update any forward-looking statement, forward-looking information or financial outlook that are incorporated by reference herein, except in accordance with applicable securities laws.
