

# Canuc Resources Corp. Announces Extension of Final Closing Date for Private Placement

21.04.2025 | [Newsfile](#)

[Canuc Resources Corp.](#) (TSXV: CDA) (OTCQB: CNUCF) ("Canuc" or the "Company") announces that it is extending the final closing date of its previously announced non-brokered private placement financing (see press releases dated February 13, March 7, March 26, and April 1, 2025). The new final closing date has been extended to May 21, 2025.

Proceeds will be used for expenses associated with completing the acquisition of [MacDonald Mines Exploration Ltd.](#) and for the exploration and development of the Company's new and existing exploration and development assets.

The final closure of this private placement is subject to acceptance by the TSX Venture Exchange.

About MacDonald Mines Exploration Ltd.

Founded in 1935, MacDonald Mines Exploration Ltd. is a mineral exploration company focused on the evaluation, acquisition, and development of precious and critical metals properties in Ontario. The company's flagship project, the 100% owned SPJ Project, spans 19,710 hectares and is situated approximately 40 kilometers northeast of the prolific Sudbury Mining Camp. and near to the extensive infrastructure of the adjacent Sudbury Mining District.

The SPJ Project encompasses several centers of critical and precious metal mineralization interpreted to be related to a mineral system that can form IOCG and affiliated critical and precious mineral deposits. Included within the Project is the historical Scadding Gold Mine and associated gold mineralized system and gold bearing tailings. Minerals of interest on SPJ include copper (Cu), gold (Au), cobalt (Co), nickel (Ni) and rare earth elements (REE). MacDonald Mines Exploration Ltd. is committed to responsible and sustainable operations, prioritizing environmental stewardship, safety, and community engagement.

About Canuc

Founded in 1952, Canuc Resources Corporation is a junior resource company focusing on the San Javier Silver-Gold Project in Sonora State, Mexico. The San Javier Silver-Gold Project evidences silver, gold and copper mineralization interpreted to be related to a mineral system that can form silver dominant IOCG and affiliated deposits. The Company also generates cash flow from natural gas production at its MidTex Energy Project located in Central West Texas, USA where Canuc has an interest in eight (8) producing natural gas wells and has rights for further in field developments.
