

Earthwise Minerals Corp. Completes Data Review of Iron Range Gold Project, British Columbia

23.04.2025 | [ACCESS Newswire](#)

[Earthwise Minerals Corp.](#) (CSE:WISE) & (FSE:966) ("Earthwise" or the "Company") is pleased to announce the completion of the data review at the recently optioned Iron Range Gold Project ("the Project"). [Eagle Plains Resources Ltd.](#) (TSXV:EPL) ("EPL" or "EaglePlains") has been exploring the property for 25 years with approximately \$8M in exploration expenditures over this time. Drilling at Iron Range in 2010 resulted in the discovery of the Talon Zone, which will be the focus of exploration for the Company.

Project highlights include:

- Continuity of geological experience and expertise through the Eagle Plains and TerraLogic Exploration team.
- Fully permitted with a Multi-Year Area Based (MYAB) permit in place, with provisions for geophysical surveying, mechanical trenching, access trail construction and diamond drilling.
- Past drilling success at the Talon Zone and O-Ray Zone targets.
- Large property with blue sky potential.
- Existing drill targets at the Talon Zone defined by historical Eagle Plains work.
- Large property with significant blue sky potential.
- Exceptional infrastructure within the property boundaries including the CPR mainline railway, Highway 3, an extensive network of logging roads, a high-pressure gas pipeline and a high-voltage hydro-electric line.

"Our team is incredibly impressed with the professionalism and years record keeping at Eagles Plains," said Mark Luchinski, CEO of Earthwise. "We can confidently move forward in our exploration of the Talon zone understanding the success of the 2010 drilling program with a drilling permit in hand."

The 21,437ha Iron Range Project is considered by management of both Eagle Plains and Earthwise to hold excellent potential for the presence of structurally controlled gold-silver mineralization, iron-oxide copper-gold ("IOCG") and Sullivan-style lead-zinc-silver sedimentary-exhalative ("sedex") mineralization. The property is owned 100% by Eagle Plains, with a portion of the property subject to an underlying 1.0% Net Smelter Royalty held by a third party.

About the Iron Range Project <https://earthwiseminerals.com/iron-range-project/>

Iron Range Project Summary

The Iron Range Project, located near Creston, BC, is owned 100% by Eagle Plains, subject to a 1% NSR on a portion of the claim group. A well-developed transportation and power corridor transects the southern part of the property, including a high-pressure gas pipeline and a high-voltage hydro-electric line, both of which follow the CPR mainline and Highway 3. The rail line provides efficient access to the Teck smelter in Trail, B.C. The project is fully permitted with a Multi-Year Area Based (MYAB) permit in place issued by the BC Ministry of Mining and Critical Minerals that includes provisions for geophysical work, mechanical trenching, access trail construction and diamond drilling.

The Iron Range property covers an extensive area approximately 10km x 32km which overlies the regional

Iron Range Fault System ("IRFS"). Prior to the acquisition by Eagle Plains in 2001, the property had seen little systematic exploration for other than iron resources known to exist on the property since the late 1800s. Since 2001, Eagle Plains and its partners have completed 21,593m of diamond-drilling in 87 holes, collected 2482 line-km of airborne and surface geophysical data and analysed 10,053 soil geochemical samples, 495 rock samples and 6955 drill core samples.

Drilling at Iron Range in 2010 resulted in the discovery of the Talon Zone, where drill-hole IR10-010 intersected 2 intervals of strong and continuous mineralization including 14.0m grading 5.1g/t gold, 1.86% lead, 2.1% Zinc, 75.3g/t silver and 7.1m grading 8.13g/t gold, 2.84% lead, 3.07% zinc, 86.6g/t silver. Previous drilling 10km north of the Talon Zone in 2008 by Eagle Plains intersected gold mineralization in drill-hole IR08006 which assayed 7.0m grading 51.52g/t (1.50 oz/ton) gold.

Qualified Person

Charles C. Downie, P.Geo., a "qualified person" for the purposes of National Instrument 43-101 - Standards of Disclosure for Mineral Projects and an officer and director of Eagle Plains, has reviewed and approved the scientific and technical disclosure in this news release.

About Earthwise Minerals

Based in Vancouver, B.C., Earthwise is a junior stage exploration company with a focus across North America. Earthwise has an Option Agreement to earn up to 80% in the fully permitted Iron Range Gold Project located near Creston, B.C.

For more information, review the Company's filings available at www.sedarplus.ca.

Forward-Looking Statements

This news release includes statements that constitute "forward-looking information" as defined under Canadian securities laws ("forward-looking statements") including, without limitation, statements respecting the Offering and the intended use of proceeds therefrom. Statements regarding future plans and objectives of the Company are forward-looking statements that involve various degrees of risk. Forward-looking statements reflect management's current views with respect to possible future events and conditions and, by their nature, are subject to known and unknown risks and uncertainties, both general and specific to the Company. Although the Company believes the expectations expressed in its forward-looking statements are reasonable, forward-looking statements are not guarantees of future performance, and actual outcomes may differ materially from those in forward-looking statements. Additional information regarding the various risks and uncertainties facing the Company are described in greater detail in the "Risk Factors" section of the Company's annual management's discussion and analysis and other continuous disclosure documents filed with the Canadian securities regulatory authorities which are available at www.sedarplus.ca. The Company undertakes no obligation to update forward-looking information except as required by applicable law. The reader is cautioned not to place undue reliance on forward-looking statements.
