

# Orosur Mining Inc Announces Results for Third Quarter ended February 28th 2025

28.04.2025 | [ACCESS Newswire](#)

LONDON, April 28, 2025 - [Orosur Mining Inc.](#) ("Orosur" or "the Company") (TSX-V:OMI)(AIM:OMI) the minerals developer and explorer with operations in Colombia, Argentina and Nigeria, announces its unaudited results for the quarter ended February 28th, 2025. All dollar figures are stated in US\$ unless otherwise noted.

The unaudited condensed interim financial statements of the Company for the quarter ended February 28th, 2025 and the related management's discussion and analysis ("MD&A") have been filed and are available for review on the SEDAR+ website at [www.sedarplus.ca](http://www.sedarplus.ca). The financial statements and the MD&A are also available on the Company's website at [www.orosur.ca](http://www.orosur.ca).

## HIGHLIGHTS

Operational and financial highlights for the quarter ended February 28th, 2025 are set out below:

### Operational

- In Colombia, on November 27, 2024, the Company completed the acquisition of Minera Monte Aguila S.A.S. ("Monte Aguila") as a result of which the Company now has 100% ownership of the Company's flagship Anzá Gold Project. The Company also re-took operatorship of the Anza Gold Project, commencing a drilling program at the Pepas prospect in late November 2024 which is still continuing and has produced some exceptional results, the details of which can be found in the Company's news releases on its website at [www.orosur.ca](http://www.orosur.ca).

In addition, on February 4, 2025, the Company announced that, following some surface sampling to the area immediately north of Pepas ("Pepas North"), a number of areas of mineralised material have been identified, with one large area along a small walking track exposing saprolite and semi-fresh rock. Over 100m of mineralisation was identified at surface, with samples taken at 1m intervals over the entire length of the exposure. Assay results averaged 1.15g/t Au over 105m, with individual samples at times exceeding 5g/t Au. This channel sample is at the southern extreme of the new Pepas North anomalous area, but over 200m north of the limit of current drilling. The Company is expected to commence drilling Pepas North during Q4 2025.

- In Argentina, on February 17, 2025, the Company announced the successful completion of the first phase of the two phase exploration joint venture over the El Pantano gold project in Santa Cruz province, Argentina ("Project" or "El Pantano"). This milestone marks a significant step forward in the Company's strategic development of the Project. Having invested US\$1m over three years, the Company has now earned a direct 51% interest in the Argentine company, Deseado Dorado S.A.S ("Deseado"), that owns the exploration licences that make up the Project. The Company can now move to the second phase of the JV, that could see it move to 100% ownership of Deseado upon investment of an additional US\$2m over two years. Upon such an outcome, the original vendors would then retain a residual 2% NSR royalty, 1% of which the Company could repurchase at its election for US\$1m.
- Post period end, a geo-physical campaign commenced with the objective of refining targets after which the Company will consider drilling, likely to take place later in 2025 subject to funding.
- In Nigeria, the Company will look to make some advances on its lithium project, but at a slower pace whilst lithium prices continue to recover.
  - In Uruguay, the Company's wholly owned subsidiary, Loryser, continues to focus its activities on the final stages of the Creditors Agreement. In line with the Creditors Agreement, Loryser has sold all of its assets. It has paid for the settlements with all of its former employees; it has finalised the reclamation and remediation works on the tailings dam and has successfully concluded a one-year post-closure control phase. Loryser is well advanced in distributing the proceeds to Loryser's trade creditors in accordance with the Creditors' Agreement, via a Court approved settlement agent.

#### Financial and Corporate

- The unaudited condensed interim consolidated financial statements have been prepared on a going concern basis under the historical cost method except for certain financial assets and liabilities which are accounted for as Assets and Liabilities held for sale (at the lower of book value or fair value) and Profit and Loss from discontinuing operations. This accounting treatment has been applied to the activities in Uruguay and Chile.
- At the Company's AGM, held on December 12, 2024 all resolutions put to shareholders were duly passed.
- On December 19, 2024, the Company announced that it had raised the sum of £1.25 million (before expenses) through a placing of 18,939,394 new common shares of no par value ("Placing Share") at a price of 6.6 pence per Placing Share.
- On February 28, 2025, the Company had a cash balance of US\$ 2,355,000 (May 31, 2024 US\$ 1,328,000). As at the date of this MD&A and including the funds raised in the private placement (detailed below), the Company had a cash balance of US\$ 5,570,000.
- Post period end, on March 27, 2025, the Company announced the closing of an oversubscribed private placement (the "Private Placement") which raised aggregate gross proceeds of C\$6,000,000, including the full exercise of the broker's option for gross proceeds of C\$1,000,000. Under the Private Placement, the Company sold an aggregate of 35,294,117 units of the Company (the "Units") at a price of C\$0.17 per Unit. Each Unit consisted of one common share of the Company (each, a "Unit Share") and one half of one common share purchase warrant (each whole warrant, a "Warrant"). Each whole Warrant entitles the holder to purchase one common share of the Company (each, a "Warrant Share") at a price of C\$0.25 at any time on or before March 27, 2027.

#### Forward Looking Statements

All statements, other than statements of historical fact, contained in this news release constitute "forward looking statements" within the meaning of applicable securities laws, including but not limited to the "safe harbour" provisions of the United States Private Securities Litigation Reform Act of 1995 and are based on expectations estimates and projections as of the date of this news release.

Forward-looking statements include, without limitation, the continuing focus on the Pepas prospect, the exploration plans in Colombia and the funding of those plans, and other events or conditions that may occur in the future. There can be no assurance that such statements will prove to be accurate. Actual results and future events could differ materially from those anticipated in such forward-looking statements. Such statements are subject to significant risks and uncertainties including, but not limited to, those described in the Section "Risks Factors" of the Company's MD&A for the year ended May 31, 2024. The Company's continuance as a going concern is dependent upon its ability to obtain adequate financing, to reach profitable levels of operations and to reach a satisfactory closure of the Creditor's Agreement in Uruguay. These material uncertainties may cast significant doubt upon the Company's ability to realize its assets and discharge its liabilities in the normal course of business and accordingly the appropriateness of the use of accounting principles applicable to a going concern. The Company disclaims any intention or obligation to update or revise any forward-looking statements whether as a result of new information, future events and such forward-looking statements, except to the extent required by applicable law.
