Cautionary Statement Regarding Forward-Looking Statements

This news release contains "forward-looking information" within the meaning of applicable Canadian securities legislation. "Forward-Looking information" includes, but is not limited to, statements with respect to the activities, events or developments that the Company expects or anticipates will or may occur in the future, including the Company advancing its portfolio of brine projects; the funding of the Company's work streams; update and upgrade of the current Mineral Resource Estimate at Boardwalk; an initial mineral resource estimate for Park Place and the timing thereof; plans to execute additional sampling campaigns in 2025.

Generally, but not always, forward-looking information and statements can be identified by the use of words such as "plans", "expects", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates", or "believes" or the negative connotation thereof or variations of such words and phrases or state that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved" or the negative connotation thereof.

Although the assumptions made by the Company in providing forward-looking information or making forward-looking statements are considered reasonable by management at the time, there can be no assurance that such assumptions will prove to be accurate and actual results and future events could differ materially from those anticipated in such statements. Important factors that could cause actual results to differ materially from the Company's plans or expectations include, without limitation, the risk that the Company will not be able to achieve its stated goals; the potential for delays in exploration, development, permitting, and assembly activities at the Company's projects and DLE pilot plant; the Company not being able to advance its portfolio of brine projects; delays in the commissioning of the pilot plant; the Company not being able to fund its work streams; the Company not being able to run DLE pilot plant campaigns as planned, or at all; the DLE pilot plant not being permitted by the City of Calgary when expected, or at all; the results of future pilot test work not meeting the Company's expectations; the Company not being able to extend the well at Boardwalk; the Company not being able to obtain reservoir and brine chemistry data from Boardwalk; the Company not being able to deliver an initial mineral resource estimate for Park Place when planned, or at all; that the brine from the Company's two Alberta projects not being compatible with the exclusive G2L DLE technology; the cyclical nature of the industry in which the Company operates; risks related to global financial markets, including the trading price of the Company's shares and the Company's ability to raise capital may also result in additional and unknown risks or liabilities to the Company.

Although the Company has attempted to identify important factors that could cause actual results to differ materially from those contained in the forward-looking information or implied by forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. There can be no assurance that forward-looking information and statements will prove to be accurate, as actual results and future events could differ materially from those anticipated, estimated or intended. Accordingly, readers should not place undue reliance on forward-looking statements or information.
