Important note to investors regarding operating, reported earnings

Dominion Energy uses operating earnings (non-GAAP) as the primary performance measurement of its results for public communications with analysts and investors. Operating earnings are defined as reported earnings adjusted for certain items. Dominion Energy also uses operating earnings internally for budgeting, for reporting to the Board of Directors, for the company's incentive compensation plans, and for its targeted dividend payouts and other purposes. Dominion Energy management believes operating earnings provide a more meaningful representation of the company's fundamental earnings power. In providing its operating earnings guidance, the company notes that there could be differences between expected reported earnings and estimated operating earnings for matters such as, but not limited to, the mark-to-market impact of economic hedging activities, gains and losses on nuclear decommissioning trust funds, market-related impacts on pension and other postretirement benefit plans, acquisitions, divestitures, or extreme weather events and other natural disasters. At this time, Dominion Energy management is not able to estimate the aggregate impact of these items on future period reported earnings. Accordingly, Dominion Energy is not able to provide a corresponding GAAP equivalent for its operating earnings guidance.

The calculation of reported and operating earnings per share on a consolidated basis utilizes shares outstanding on a diluted basis with all dilutive impacts, primarily consisting of potential shares which had not yet been issued, reflected in the Corporate and Other segment. The calculation of operating earnings per share for the three months ended June 30, 2024 and for the three and twelve months ended December 31, 2024 excludes a deemed dividend of \$9 million, \$1 million and \$10 million, respectively, associated with the Company's repurchase of certain Series B preferred stock. During each quarter of 2024, the calculation of reported and operating earnings per share includes the impact of preferred dividends associated with Series B preferred stock of \$9 million, \$8 million, \$4 million and \$3 million, respectively. During each quarter of 2024, the calculation of reported and operating earnings per share includes the impact of preferred dividends associated with Series C preferred stock of \$11 million. See Forms 10-Q and 10-K for additional information.

(3) Excludes a \$578 million tax benefit on non-deductible goodwill associated with the sale of gas distribution operations. Income taxes for individual pre-tax items include current and deferred taxes using a transactional effective tax rate. For interim reporting purposes, calculation of such amounts may be adjusted in connection with the calculation of the Company's year-to-date income tax provision based on its estimated annual effective tax rate.

(4) Represents the reversal of previously established deferred taxes related to the basis in the stock of the gas distribution operations.

(5) YTD EPS may not equal sum of quarters due to share count differences.
