Below is a summary of the Company's financial results for the first quarter of 2025 ("Q1 2025") in comparison to the same respective period in 2024 ("Q1 2024") (all amounts in USD unless specified):

- Revenue for Q1 2025 decreased to \$14.8 million (Q1 2024 - \$15.7 million), representing a \$0.9 million or -5.7% decrease.
- Mine operating loss increased by \$10.0 million to \$4.7 million in Q1 2025 (Q1 2024 - mine operating income of \$5.3 million) while gross margin decreased from 33.7% in Q1 2024 to -31.6% in Q1 2025.

- The Company had a working capital deficit (current assets less current liabilities) of \$47.4 million as at March 31, 2025 (December 31, 2024 - working capital deficit of \$38.7 million) and short-term cash resources of \$4.7 million (consisting of cash and cash equivalents) (December 31, 2024 - \$3.1 million).

Wanjin Yang, Chief Executive Officer and President of Eastplats commented, "We had a challenging first quarter as we experienced lower underground run-of-mine tonnages at the Crocodile River Mine. Our focus is on increasing underground production fees for PGM and chrome circuits, which will improve production results in future quarters."

Operations

The Company derived revenue from the processing of platinum-group-metal ("PGM") and chrome concentrates during the first quarter of 2025 and Q1 2024. Eastplats' majority of revenue (72% for Q1 2025; 93% in Q1 2024) is from chrome concentrate sales to third parties.
