## Retirement Announcement: Greg Pearson

It is with a mix of gratitude and heartfelt appreciation that Homerun announces the retirement of Greg Pearson as a Director of Homerun. After many years of dedication, hard work, and service, Greg has decided to step into the next chapter of his life, although Greg will remain in an advisory role.

Brian Leeners, Homerun CEO stated, "Throughout his career, Greg has been a cornerstone of the Company. Greg's contributions have also inspired those who had the privilege of working alongside him. Greg was the one who created the name Homerun as a reflection of his swing for the fence personality. While we will deeply miss Greg's daily presence, we are thrilled for him as he embarks on this new journey. Retirement offers an opportunity for well-deserved rest, exploration of personal passions, and quality time with loved ones. We have no doubt that Greg will bring the same enthusiasm and dedication to this new chapter that he has demonstrated throughout his career. On behalf of everyone at Homerun, we extend our deepest gratitude to Greg for his years of service and contributions. Please join me in wishing Greg Pearson, and his family a happy, fulfilling, and prosperous retirement."

## Market-Making Services

The agreement between the Company and Integral (the "Agreement") executed on May 13, 2025 is for an initial term of three months. About Homerun ([www.homerunresources.com](http://www.homerunresources.com))

Homerun (TSXV: HMR) is a vertically integrated materials leader revolutionizing green energy solutions through advanced silica technologies. As an emerging force outside of China for high-purity quartz (HPQ) silica innovation, the Company controls the full industrial vertical from raw material extraction to cutting-edge solar, battery and energy storage solutions. Our dual-engine vertical integration strategy combines:

#### Homerun Advanced Materials

- Utilizing Homerun's robust supply of high purity silica sand and quartz silica materials to facilitate domestic and international sales of processed silica through the development of a 120,000 tpy processing plant.
- Pioneering zero-waste thermoelectric purification and advanced materials processing technologies with University of California - Davis.

#### Homerun Energy Solutions

- Building Latin America's first dedicated high-efficiency, 365,000 tpy solar glass manufacturing facility and pioneering new solar technologies based on years of experience as an industry leader in developing photovoltaic technologies with a specialization in perovskite photovoltaics.
- European leader in the marketing, distribution and sales of alternative energy solutions into the commercial and industrial segments (B2B).
- Commercializing Artificial Intelligence (AI) Energy Management and Control System Solutions (hardware and software) for energy capture, energy storage and efficient energy use.
- Partnering with U.S. Dept. of Energy/NREL on the development of the Enduring long-duration energy storage system utilizing the Company's high-purity silica sand for industrial heat and electricity arbitrage and complementary silica purification.

With six profit centers built within the vertical strategy and all gaining economic advantage utilizing the Company's HPQ silica, across, solar, battery and energy storage solutions, Homerun is positioned to capitalize on high-growth global energy transition markets. The 3-phase development plan has achieved all key milestones in a timely manner, including government partnerships, scalable logistical market access, and breakthrough IP in advanced materials processing and energy solutions.

Homerun maintains an uncompromising commitment to ESG principles, deploying the cleanest and most sustainable production technologies across all operations while benefiting the people in the communities where the Company operates. As we advance revenue generation and vertical integration in 2025, the Company continues to deliver shareholder value through strategic execution within the unstoppable global energy transition.
