

Golden Cariboo Resources Ltd. Initiates LiDAR Survey

10.06.2025 | [The Newswire](#)

[Golden Cariboo Resources Ltd.](#) (the "Company") (CSE:GCC) (OTC:GCCFF) (WKN:A402CQ) (FSE:3TZ) announce that grassroots exploration activities have commenced on its Rainbow mineral claim group (the "Property"), located on Valley Mountain within the District of Wells, BC. The 142.9 hectare (353 acre) Property is positioned across the valley of Williams Creek, northeast of Barkerville Mountain where the Bonanza Ledge Mine and Osisko's latest permitted mine portal is located (see Company website for location map).

Golden Cariboo's exploration efforts will include geological mapping, surface sampling and geochemical analysis to assess gold mineralization potential adjacent to known historical open cuts and underground workings on the Property. Additionally, the Company is preparing to update LiDAR and orthophoto imagery for the area to refine geological interpretations and target identification. These advancements will enhance data quality, supporting efficient exploration while satisfying upcoming exploration requirements.

"Our team is excited to take this next step in our exploration at the Rainbow property," stated Golden Cariboo's President and CEO, Frank Callaghan. "By utilizing high resolution LiDAR and orthophoto data, we aim to gain clearer insights into the geological structures and maximize discovery potential in this historically significant region."

Golden Cariboo remains committed to integrating advanced exploration technologies at all phases of its exploration activities. Through geological modeling, remote sensing, and data-driven analysis, the Company ensures accuracy in its operations. The Company will continue to provide updates as exploration progresses.

About Golden Cariboo Resources Ltd.

Golden Cariboo Resources Ltd. is rediscovering the Cariboo Gold Rush by proceeding with highly targeted drilling and trenching programs on its flagship Quesnelle Gold Quartz Mine property which is bordered by Osisko Development (NSE:ODV/TSXV:ODV), partly intertwined with them at the north end of the Cariboo Gold Project, and located along a favorable corridor adjacent to the Spanish and Eureka thrust faults over a 94,899 hectare (234,501 acre) area. The Company also holds mineral rights to smaller packages of ground within the heart of the Cariboo Gold District, including the Rainbow property. Historically, over 101 placer gold creeks on the 90-kilometer (56 mile) trend from the Cariboo Hudson mine north to the Quesnelle Gold Quartz Mine property have recorded production and successful placer mining continues to this day.

Golden Cariboo's Quesnelle Gold Quartz Mine property is 4 kilometers (2.5 miles) northeast of, and road accessible from, Hixon in central British Columbia. The Property includes the Quesnelle Quartz gold-silver deposit, which was discovered in 1865 in conjunction with placer mining activities. Hixon Creek, which dissects the old workings, is a placer creek which has seen small-scale placer production since the mid 1860s.

Cautionary Statements:

This news release contains statements which constitute "forward-looking information" within the meaning of applicable securities laws, including statements regarding the plans, intentions, beliefs and current expectations of the Company with respect to future business activities and plans of the Company. Forward-looking information is often identified by the words "may", "would", "could", "should", "will", "intend", "plan", "anticipate", "believe", "estimate", "expect" or similar expressions and includes information regarding; the expectation that the Company will receive all necessary exemptions and approvals to complete the Offering; the expectation that the Company will complete the Offering on the terms disclosed, or at all; the expectation that the proceeds will be used for property exploration and for general working capital; the Company's exploration plans with respect to its Quesnelle Gold Quartz Mine property; and the anticipated participation of the insider in the Offering.

Such forward-looking statements are based on a number of assumptions of management, including, without limitation, that the Company will receive all necessary exemptions and approvals to complete the Offering; that the Company will complete the Offering on the terms disclosed, or at all; that the proceeds will be used for property exploration and for general working capital; that the Company will have the resources required to proceed with its exploration plans; that the Company will not run into regulatory or other barriers in carrying out its business plans; that the insider will participate in the Offering, on the terms and conditions and in the amount currently expected by management; and that the Company will be able to rely on the exemption from the formal valuation and minority shareholder approval requirements on the basis anticipated.

Additionally, forward-looking information involve a variety of known and unknown risks, uncertainties and other factors which may cause the actual plans, intentions, activities, results, performance or achievements of the Company to be materially different from any future plans, intentions, activities, results, performance or achievements expressed or implied by such forward-looking statements. Such risks include, without limitation: that the Company will not receive the necessary exemptions and approvals to complete the Offering; that the Company will not complete the Offering on the terms disclosed, or at all; that the Company will be unable to use the proceeds for property exploration and for general working capital; that the Company may incur unanticipated costs; that the Company may not have the resources required to pursue its exploration plans; that the Company's operations could be adversely affected by possible future government legislation policies and controls or by changes in applicable laws and regulations; that the insider may not participate in the Offering on the terms and conditions and in the amount currently expected by management, or at all; and that the Company may not be able to rely on the exemption from the formal valuation and minority shareholder approval requirements on the basis currently expected. Such forward-looking information represents management's best judgment based on information currently available. No forward-looking statement can be guaranteed and actual future results may vary materially. Accordingly, readers are advised not to place undue reliance on forward-looking statements or information. Neither the Company nor any of its representatives make any representation or warranty, express or implied, as to the accuracy, sufficiency or completeness of the information in this news release. Neither the Company nor any of its representatives shall have any liability whatsoever, under contract, tort, trust or otherwise, to you or any person resulting from the use of the information in this news release by you or any of your representatives or for omissions from the information in this news release.

The forward-looking statements herein speak only as of the date they were originally made. The Company has no intention and undertakes no obligation to update or revise any forward-looking statements, whether as a result of new information, future events or otherwise, except as required by law.
