

# Rocky Shore Initiates Summer Program at Gold Anchor Project, Newfoundland

24.06.2025 | [GlobeNewswire](#)

TORONTO, June 24, 2025 - [Rocky Shore Gold Ltd.](#) (the "Company") (CSE: RSG) is pleased to announce that a fully permitted summer exploration program has begun at its 100% owned Gold Anchor Project in central Newfoundland, Canada. The program will focus on its recently discovered 6,000-metre-long Lane Pond Gold Target, which is strategically located along the prolific, gold-bearing Appleton Fault. The Appleton Fault is a major gold-bearing fault zone trending for greater than 150 kilometres in central Newfoundland and hosts significant untested gold targets, diamond drill discoveries and a gold resource on the adjoining property located northeast of Gold Anchor (see Map 1 below).

Map 1: Major Regional Gold Bearing Faults within the Emerging Central Gold District

Ken Lapierre, President and Chief Executive Officer, commented, "We are delighted to kick-start the summer field season at Gold Anchor. The program will include detailed till sampling, prospecting, geological and geophysical work at its Lane Pond Gold Target and other high-priority gold targets in the vicinity. At Lane Pond, significant gold values have been found in recent and historical sampling in an area 6,000 metres long and located proximal to the Appleton Fault. The Appleton Fault is the most prolific gold-bearing fault in the emerging Central Gold District and trends for a minimum of 20 kilometres at Gold Anchor. The fault hosts gold resources and high-grade drill intersections on trend to the northeast of our property. Our plan is to be drill-ready this fall to test the Lane Pond Gold Target with an inaugural drill program."

## Qualified Person

Ken Lapierre, P.Geo., President and CEO of the Company, is a Qualified Person, in accordance with the Canadian regulatory requirements as set out in National Instrument 43-101, has reviewed and approved the scientific and technical information that forms the basis for the disclosure contained in this news release.

## About Rocky Shore Gold Ltd.

Rocky Shore Gold is a Canadian-based mineral exploration company focused on gold discoveries in central Newfoundland on its 100%-owned Gold Anchor Project. The district-scale grassroots project is the second-largest (greater than 1,200 square kilometres) property within the emerging Central Gold District. It is strategically located on trend to major gold discoveries and recent gold deposits. Numerous gold-bearing faults are within the project limits, including the highly prospective Appleton and JBP Faults.

Rocky Shore would like to acknowledge the financial support of the 2025 Junior Exploration Assistance Program from the Department of Natural Resources, Government of Newfoundland and Labrador.

## Forward-Looking Statements

---

*This news release contains "forward-looking information" within the meaning of applicable Canadian and United States securities laws. Generally, forward-looking information can be identified by the use of forward-looking terminology such as "plans", "expects", or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates", or "does not anticipate", or "believes" or variations of such words and phrases or state that certain actions, events or results "may", "could", "would", "might", or "will be taken", "occur", or "be achieved". Certain information set forth in this news release may contain forward-looking information that involves substantial known and unknown risks and uncertainties, including, but not limited to the advancement of the Company's properties. The forward-looking information is based on reasonable assumptions and estimates of the management of the Company at the time such statements were made and is subject to known and unknown risks, uncertainties and other factors that may cause the actual results, level of activity, performance or achievements of Rocky Shore to be materially different from those expressed or implied by such forward-looking information, including risks associated with the exploration; future commodity prices; changes in regulations; political or economic developments; environmental risks; permitting timelines; capital expenditures; technical difficulties in connection with exploration activities; employee relations; the speculative nature of mineral including the risks of diminishing quantities of grades of resources, contests over title to properties, the Company's limited operating history, future capital needs and uncertainty of additional financing, and the competitive nature of the mining industry; the need for the Company to manage its future strategic plans; global economic and financial market conditions; uninsurable risks; and changes in project parameters as plans continue to be evaluated. Although Rocky Shore has attempted to identify important factors that could cause actual results to differ materially from those contained in the forward-looking information, there may be other factors that cause results not to be as anticipated, estimated or intended. Although the forward-looking information contained in this news release are based upon what management of the Company believes, or believed at the time, to be reasonable assumptions, Rocky Shore cannot assure shareholders that actual results will be consistent with such forward-looking information, as there may be other factors that cause results not to be as anticipated, estimated or intended. Accordingly, readers should not place undue reliance on forward-looking information. There can be no assurance that forward-looking information, or the material factors or assumptions used to develop such forward-looking information, will prove to be accurate. Rocky Shore does not undertake any obligations to release publicly any revisions for updating any voluntary forward-looking information, except as required by applicable securities law.*

*Neither the Canadian Securities Exchange nor its Market Regulator (as that term is defined in the policies of the Canadian Securities Exchange) accepts responsibility for the adequacy or accuracy of this release.*
