

Homeland Announces Participation at Rick Rule Symposium 2025 - Natural Resource and Commodities Investing

26.06.2025 | [Newsfile](#)

Vancouver, June 26, 2025 - [Homeland Uranium Corp.](#) (TSXV: HLU) (OTCQB: HLUCF) (FSE: D3U) ("Homeland" or the "Company") is pleased to announce it will be attending the Rule Symposium 2025 - Natural Resource and Commodities Investing taking place in Boca Raton, Florida from July 7-11, 2025. More conference details are included below.

Homeland CEO Roger Lemaitre will be joining other featured speakers and exhibitors for four days of panel sessions, keynote speeches and presentations. See below for more information about Roger's presentations and how to attend.

Roger Lemaitre, President & CEO, stated, "Homeland is honored to have been selected as one of only four uranium companies to attend and participate in the Rick Rule Symposium. I am excited to update investors and shareholders about our progress on the Phase I exploration program at the Coyote uranium project in Colorado and outline our Phase II plan to convert Western Mining's shallow historical resources to modern-day standards."

Cautionary Note Regarding Forward-Looking Statements

This news release contains "forward-looking statements" and "forward-looking information" (collectively, "forward-looking statements") within the meaning of applicable securities legislation. All statements, other than statements of historical fact, are forward-looking statements. Forward-looking statements in this news release relate to, among other things: the Company's expectations and strategic plans in relation to the exploration of the Company's uranium mineral properties, including the Phase I and Phase II exploration program at the Coyote uranium project in Colorado.

These forward-looking statements reflect the Company's current views with respect to future events and are necessarily based upon a number of assumptions that, while considered reasonable by the Company, are inherently subject to significant operational, business, economic and regulatory uncertainties and contingencies. These assumptions include, among other things: conditions in general economic and financial markets; accuracy of assay results; geological interpretations from drilling results, timing and amount of capital expenditures; performance of available laboratory and other related services; future operating costs; future demand for energy; the historical basis for current estimates of potential quantities and grades of target zones; the availability of skilled labour and no labour related disruptions at any of the Company's operations; no unplanned delays or interruptions in scheduled activities; all necessary permits, licenses and regulatory approvals for operations are received in a timely manner; the ability to secure and maintain title and ownership to properties and the surface rights necessary for operations; and the Company's ability to comply with environmental, health and safety laws. The foregoing list of assumptions is not exhaustive.

The Company cautions the reader that forward-looking statements involve known and unknown risks, uncertainties and other factors that may cause actual results and developments to differ materially from those expressed or implied by such forward-looking statements contained in this news release and the Company has made assumptions and estimates based on or related to many of these factors. Such factors include, without limitation: the timing and content of work programs; results of exploration activities and development of mineral properties; the interpretation and uncertainties of drilling results and other geological data; receipt, maintenance and security of permits and mineral property titles; environmental and other regulatory risks; project costs overruns or unanticipated costs and expenses; availability of funds; failure to delineate potential quantities and grades of the target zones based on historical data; general market and industry conditions; and those factors identified under the captions "Risks Factors" and "Risks and Uncertainties" in the Company's disclosure materials filed on SEDAR+ at www.sedarplus.ca.

Forward-looking statements are based on the expectations and opinions of the Company's management on the date the statements are made. The assumptions used in the preparation of such statements, although considered reasonable at the time of preparation, may prove to be imprecise and, as such, readers are cautioned not to place undue reliance on these forward-looking statements, which speak only as of the date the statements were made. The Company undertakes no obligation to update or revise any forward-looking statements included in this news release if these beliefs, estimates and opinions or other circumstances should change, except as otherwise required by applicable law.

Neither the TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this news release. No stock exchange, securities commission or other regulatory authority has approved or disapproved the information contained herein.
