

# Camber Energy Announces Positive Test Results for Waste Treatment System

02.07.2025 | [ACCESS Newswire](#)

Results Demonstrate VKIN-300 Unit Meets NFX 30-503 Standard

HOUSTON, July 2, 2025 - [Camber Energy Inc.](#) (OTCQB:CEIN) ("Camber" or the "Company") a leader in power solutions and innovative technologies, proudly announces that tests recently performed by an independent, accredited laboratory demonstrate the Company's VKIN 300 waste pre-treatment unit meets the specifications of NFX 30503-1, regarded as one of the world's strictest standards for waste decontamination equipment.

The tests were performed in May and June 2025, and on July 1, 2025 the Company's indirect majority-owned subsidiary received a report from Laboratoire Hygiène Hospitalière CHU Clermont-Fd ("LHH") concluding as follows: "The tests carried out in accordance with standard NFX 30503-1 by the laboratory demonstrate that the VKIN 300 waste pre-treatment unit meets the specifications of this standard."

James Doris, the Company's President & Chief Executive Officer, commented "Needless to say, this is a significant milestone for this division in our organization. Although we expected the test results to be positive, it is great to receive official confirmation. We are advised our system is the first large capacity Ozone disinfection system in the world to have attained this standard."

Additional details regarding the report received from LHH are included in, and the description above is qualified in its entirety by, Camber's Current Report on Form 8-K filed with the Securities and Exchange Commission ("SEC"), which is available under "investors" - "SEC filings" at [www.camber.energy](http://www.camber.energy).

## About Viking Ozone Technology

Viking Ozone Technology, LLC ("Viking Ozone"), a majority-owned subsidiary of [Camber Energy, Inc.](#), offers a cleaner, safer and more sustainable alternative for waste treatment, and its system is a more environmentally friendly and cost-effective alternative to incineration, chemical treatment, autoclave and heat treatments for regulated medical waste and bio-hazardous waste. Viking Ozone's system reduces the amount of energy required to process waste, which conserves resources, lowers operating costs and reduces greenhouse gas emissions, resulting in a cleaner, safer environment. The modular design and low profile allow for multiple configurations and savings for civil work at the site.

## Forward-Looking Statements

This press release may contain forward-looking information within the meaning of Section 21E of the Securities Exchange Act of 1934, as amended, and Section 27A of the Securities Act of 1933, as amended. Any statements that are not historical facts contained in this press release are "forward-looking statements", which statements may be identified by words such as "expects," "plans," "projects," "will," "may," "anticipates," "believes," "should," "intends," "estimates," and other words of similar meaning. Such forward-looking statements are based on current expectations, involve known and unknown risks, a reliance on third parties for information, transactions that may be cancelled, and other factors that may cause our actual results, performance or achievements, or developments in our industry, to differ materially from the anticipated results, performance or achievements expressed or implied by such forward-looking statements. Factors that could cause actual results to differ materially from anticipated results include risks and uncertainties related to the fluctuation of global economic conditions or economic conditions with respect to the oil and gas industry, the COVID-19 pandemic, the performance of management, actions of government regulators, vendors, and suppliers, our cash flows and ability to obtain financing, competition, general economic conditions and other factors that are detailed in Camber's filings with the Securities and Exchange Commission. We intend that all forward-looking statements be subject to the Safe Harbor Provisions of the Private Securities Litigation Reform Act of 1995.

Camber cautions that the foregoing list of important factors is not complete, any forward-looking statement speaks only as of the date on which such statement is made, and Camber does not undertake to update any forward-looking statements that it may make, whether as a result of new information, future events or otherwise, except as required by applicable law. All subsequent written and oral forward-looking statements attributable to Camber or any person acting its behalf are expressly qualified in their entirety by the cautionary statements referenced above.
