

# Aventis Energy Announces Partnership with KorrAI Technologies

10.07.2025 | [GlobeNewswire](#)

## Highlights:

- The Company will leverage KorrAI's revolutionary systems across the Project with aim to be more efficient in the potential discovery of mineralized outcrops.
- The cost-efficient technology integrates artificial intelligence, machine learning, and advanced satellite imagery to identify targets for prospecting follow-up over highly prospective trends and areas of interest.
- KorrAI will provide technology solutions to the Company using geospatial imagery, modelling and survey & sensor data relevant to the natural resources sector.

VANCOUVER, British Columbia, July 10, 2025 -- [Aventis Energy](#). ("Aventis" or the "Company") (CSE: AVE | FRA: C000 | OTC: VBAMF), is pleased to announce it has entered into a partnership agreement dated July 9, 2025 (the "KorrAI Agreement") with KorrAI Technologies Inc. ("KorrAI") to deploy its AI-powered TRAIL platform (the "Program") on the Company's Corvo Uranium Project (the "Project").

TRAIL is KorrAI's AI-driven platform for operational risk monitoring, geotechnical analysis of infrastructure, and exploration-focused targeting and logistics support. Under the KorrAI Agreement, a custom exploration module of TRAIL will be implemented to integrate hyperspectral imagery, satellite datasets, and terrain models - enabling the extraction of actionable insights and the identification of high-priority target zones across the Project area.

This marks one of the first exploration-focused deployments of TRAIL, which is already being used by major mining and infrastructure operators across North America and Europe. For the Company, the platform will support the 2025 field season by helping prioritize follow-up areas through an evidence-based, data-integrated workflow.

Mandeep Parmar, Interim Chief Executive Officer of the Company, commented, *"We are very excited to partner with a leading technology company in the exploration industry. KorrAI is pioneering modern exploration techniques, and we are eager to deepen our understanding of the Project by leveraging their proprietary methods and technology. Looking ahead, we anticipate further findings across our portfolio and believe this partnership will enable us to efficiently achieve our long-term goals of advancing strategic projects in stable jurisdictions."*

*"TRAIL is designed to extract decision-ready insights from diverse sources - from remote sensing and topography to historical geologic surveys,"* said Rahul Anand, CEO of KorrAI. *"We're excited to support Aventis in applying the platform to an early-stage exploration context, where it can help accelerate discovery across large and complex land packages."*

Pursuant to the KorrAI Agreement, KorrAI will provide services to the Company under individual statements of work. Either party may terminate the agreement following completion of services under an existing statement. The Program is expected to cost \$49,032 plus applicable taxes.

About [Aventis Energy Inc.](#)

[Aventis Energy Inc.](#) (CSE: AVE | FRA: C000 | OTC: VBAMF) is a mineral exploration company dedicated to the development of strategic projects comprised of battery, base and precious metals in stable jurisdictions. The Company is working to advance its Corvo Uranium & Sting Copper Project.

The Corvo Uranium property has historical drill holes intersected multiple intervals of uranium mineralization,

notably along a strike length of 800 metres between historical drill holes TL-79-3 (0.116% U<sub>3</sub>O<sub>8</sub> over 1.05 m) and TL-79-5 (0.065% U<sub>3</sub>O<sub>8</sub> over 0.15 m)<sup>2</sup>. High-grade\* Uranium at Surface with the Manhattan showing (1.19 to 5.98% U<sub>3</sub>O<sub>8</sub>) and SMDI showing 2052 (0.137% U<sub>3</sub>O<sub>8</sub> and 2,300 ppm Th).

The Sting Copper Project covers approximately 12,700 hectares and recently had results of 54.8m at 0.32% Cu starting at a depth of 27.0m, with higher-grade intervals including six samples (?0.5m length) ranging from 0.96% to 5.43% Cu. High grade samples of 0.5m at 2.85% Cu and 0.5m at 1.92% Cu with an additional broader interval of 31.1m at 0.27% Cu.

## Disclaimer for Forward-Looking Information

*This news release includes certain "Forward-Looking Statements" within the meaning of the United States Private Securities Litigation Reform Act of 1995 and "forward-looking information" under applicable Canadian securities laws. When used in this news release, the words "anticipate", "believe", "estimate", "expect", "target", "plan", "forecast", "may", "would", "could", "schedule" and similar words or expressions, identify forward-looking statements or information.*

*Forward-looking statements and forward-looking information relating to any future mineral production, liquidity, enhanced value and capital markets profile of Aventis, future growth potential for Aventis and its business, and future exploration plans are based on management's reasonable assumptions, estimates, expectations, analyses and opinions, which are based on management's experience and perception of trends, current conditions and expected developments, and other factors that management believes are relevant and reasonable in the circumstances, but which may prove to be incorrect. Assumptions have been made regarding, among other things, the price of uranium, copper, gold and other metals; costs of exploration and development; the estimated costs of development of exploration projects; Aventis' ability to operate in a safe and effective manner and its ability to obtain financing on reasonable terms.*

*This news release contains "forward-looking information" within the meaning of the Canadian securities laws. Statements, other than statements of historical fact, may constitute forward looking information and include, without limitation, statements with respect to the Project and its mineralization potential; the Company's objectives, goals, or future plans with respect to the Project; statements with respect to the Program by Korral; expected benefits of using the Program and the Company's partnership with Korral; and the Company's anticipated exploration program at the Project. With respect to the forward-looking information contained in this news release, the Company has made numerous assumptions regarding, among other things, the geological, metallurgical, engineering, financial and economic advice that the Company has received is reliable and are based upon practices and methodologies which are consistent with industry standards. While the Company considers these assumptions to be reasonable, these assumptions are inherently subject to significant uncertainties and contingencies. Additionally, there are known and unknown risk factors which could cause the Company's actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking information contained herein. Known risk factors include, among others: fluctuations in commodity prices and currency exchange rates; uncertainties relating to interpretation of well results and the geology, continuity and grade of uranium, copper, gold and other metal deposits; uncertainty of estimates of capital and operating costs, recovery rates, production estimates and estimated economic return; the need for*

*cooperation of government agencies in the exploration and development of properties and the issuance of required permits; the need to obtain additional financing to develop properties and uncertainty as to the availability and terms of future financing; the possibility of delay in exploration or development programs or in construction projects and uncertainty of meeting anticipated program milestones; uncertainty as to timely availability of permits and other governmental approvals; increased costs and restrictions on operations due to compliance with environmental and other requirements; increased costs affecting the metals industry and increased competition in the metals industry for properties, qualified personnel, and management. All forward-looking information herein is qualified in its entirety by this cautionary statement, and the Company disclaims any obligation to revise or update any such forward-looking information or to publicly announce the result of any revisions to any of the forward-looking information contained herein to reflect future results, events or developments, except as required by law.*

*The Canadian Securities Exchange (CSE) does not accept responsibility for the adequacy or accuracy of this release.*
