

American Lithium Announces Non-Brokered Private Placement

14.07.2025 | [GlobeNewswire](#)

VANCOUVER, July 14, 2025 - [American Lithium Corp.](#) ("American Lithium" or the "Company") (TSX-V:LI | OTCQX:AMLIF | Frankfurt:5LA1) is pleased to announce a non-brokered private placement of up to 30,000,000 units (the "Units") of the Company at a price of \$0.27 per Unit for aggregate gross proceeds of up to \$8,100,000 (the "Private Placement").

Each Unit issued pursuant to the Private Placement will consist of one common share (a "Common Share") in the capital of the Company and one Common Share purchase warrant (a "Warrant"). Each Warrant entitles the holder thereof to purchase one Common Share at an exercise price of \$0.50 for 36 months from the closing date of the Private Placement.

The Company intends to use the net proceeds from the Private Placement for working capital and general corporate purposes.

The Private Placement is subject to certain closing conditions, including, but not limited to, the receipt of all necessary regulatory approvals and the approval of the TSX Venture Exchange (the "TSXV").

The Private Placement will be made to qualified investors in such provinces of Canada as the Company may designate, and otherwise in those jurisdictions where the Private Placement can lawfully be made. All securities issued pursuant to the Private Placement will be subject to a four-month and one day hold period in accordance with applicable Canadian securities laws.

The Private Placement may include one or more subscriptions by directors or other insiders of the Company. Subscriptions completed by insiders in the Private Placement may constitute a "related party transaction" as defined in Multilateral Instrument 61-101 - *Protection of Minority Security Holders in Special Transactions* ("MI 61-101") and Policy 5.9 of the TSXV. The Company intends to rely on exemptions from the formal valuation and minority shareholder approval requirements under MI 61-101 on the basis that neither the fair market value of the Units issued to interested parties (as defined in MI 61-101), nor the consideration received for those Units, will exceed 25% of the Company's market capitalization.

This news release shall not constitute an offer to sell or the solicitation of an offer to sell nor shall there be any sale of the securities in any jurisdiction in which such offer, solicitation or sale would be unlawful.

About American Lithium

American Lithium is developing two of the world's largest, advanced-stage lithium projects, along with the largest undeveloped uranium project in Latin America. They include the TLC claystone lithium project in Nevada, the Falchani hard rock lithium project and the Macusani uranium deposit, both in southern Peru. All three projects have been through robust preliminary economic assessments, exhibit significant expansion potential and enjoy strong community support.

Cautionary Statement Regarding Forward Looking Information

This news release contains certain forward-looking information and forward-looking statements (collectively "forward-looking statements") within the meaning of applicable securities legislation. All statements, other than statements of historical fact, are forward-looking statements. Forward-looking statements in this news release include, but are not limited to, statements with respect to the terms of the Units and Warrants, statements regarding the Private Placement and the issuance of securities thereunder, the aggregate amount of proceeds to be raised and the use of proceeds. Forward-looking statements are frequently identified by such words as "may", "will", "plan", "expect", "anticipate", "estimate", "intend", "indicate", "scheduled", "target", "goal", "potential", "subject", "efforts", "option" and similar words, or the negative connotations thereof, referring to future events and results. Forward-looking statements are based on the current opinions and expectations of management and are not, and cannot be, a guarantee of future results or events. Although American Lithium believes that the current opinions and expectations reflected in such forward-looking statements are reasonable based on information available at the time, undue reliance should

not be placed on forward-looking statements since American Lithium can provide no assurance that such opinions and expectations will prove to be correct. All forward-looking statements are inherently uncertain and subject to a variety of assumptions, risks and uncertainties, including risks, uncertainties and assumptions related to: American Lithium's ability to achieve its stated goals, which could have a material adverse impact on many aspects of American Lithium's businesses including but not limited to: the ability to access mineral properties for indeterminate amounts of time, the health of the employees or consultants resulting in delays or diminished capacity, social or political instability in Peru which in turn could impact American Lithium's ability to maintain the continuity of its business operating requirements, may result in the reduced availability or failures of various local administration and critical infrastructure, reduced demand for the American Lithium's potential products, availability of materials, global travel restrictions, and the availability of insurance and the associated costs; the ongoing ability to work cooperatively with stakeholders, including but not limited to local communities and all levels of government; the potential for delays in exploration or development activities; the interpretation of drill results, the geology, grade and continuity of mineral deposits; the possibility that any future exploration, development or mining results will not be consistent with our expectations; risks that permits will not be obtained as planned or delays in obtaining permits; mining and development risks, including risks related to accidents, equipment breakdowns, labour disputes (including work stoppages, strikes and loss of personnel) or other unanticipated difficulties with or interruptions in exploration and development; risks related to commodity price and foreign exchange rate fluctuations; risks related to foreign operations; the cyclical nature of the industry in which American Lithium operates; risks related to failure to obtain adequate financing on a timely basis and on acceptable terms or delays in obtaining governmental approvals; risks related to environmental regulation and liability; political and regulatory risks associated with mining and exploration; risks related to the uncertain global economic environment and the effects upon the global market generally, any of which could continue to negatively affect global financial markets, including the trading price of American Lithium's shares and could negatively affect American Lithium's ability to raise capital and may also result in additional and unknown risks or liabilities to American Lithium. Other risks and uncertainties related to prospects, properties and business strategy of American Lithium are identified in the "Risk Factors" section of American Lithium's Management's Discussion and Analysis filed on June 27, 2025, and in recent securities filings available at www.sedarplus.ca. Actual events or results may differ materially from those projected in the forward-looking statements. American Lithium undertakes no obligation to update forward-looking statements except as required by applicable securities laws. Investors should not place undue reliance on forward-looking statements.
