

# Magma Silver Adds to Peru Operations Team

16.07.2025 | [Newsfile](#)

Vancouver, July 16, 2025 - [Magma Silver Corp.](#) (TSXV: MGMA) (OTCQB: MAGMF) (FSE: BC21) (WKN: A411DV) (the "Company" or "Magma") is pleased to announce additions to the Peru operations team and incorporation of a Peruvian subsidiary.

The establishment of these additions to Magma's technical and operations team aims to bring considerable expertise, continuing to build and enhance community relations, as well as success with our upcoming drill program, targeted for Q3 2025 at Jorimina and Randypata (see June 18, 2025, news release).

Stephen Barley, CEO & Chairman, stated: "Magma has established an experienced operating team in Peru. We have successfully created the team in record time, thanks to the guidance of Jeffrey Reeder, our Senior Technical Advisor, and his extensive experience in mining operations in Peru, spanning over 30 years."

## Environmental Studies and Community Relations Manager

Ecosoul Environmental Impact Consultants, based in Ayacucho, south-central Peru, will be utilized by the Company to undertake a full suite of environmental baseline monitoring studies, which include preparation of the necessary submittals required by the General Directorate of Mining Environmental Affairs with the Ministry of Energy and Mines, Peru, in support of the permitting application. Ecosoul's scope also includes professional archeological investigations and community workshops, along with the necessary liaison activities currently underway, by utilizing dedicated personnel with a successful record working in this local region. Ecosoul will monitor and report on milestones achieved through citizen participation in the mining subsector, in collaboration with local ministries and stakeholders, to ensure a successful path toward a resource-defining exploration campaign. Ecosoul guided Rio Silver in successfully entering into a community access agreement with Comunidad Campesina De Tunsulla, allowing exploration activities to proceed on the Jorimina and Randypata properties. Ecosoul is also involved with the current drilling permit application for Jorimina.

## Senior Field Geologist

The soon-to-be-announced summer exploration program on the Jorimina and Randypata properties will be directed and managed by Edgar Leon Choque, a very experienced Peruvian geologist. Edgar Leon Choque is a Senior Geological Engineer with studies at the National University of San Marcos - Peru. Mr. Choque has over 30 years of experience in the mining industry as a geological engineer, having managed several projects for Canadian companies. He has worked on key projects, including the Rio Blanco Cu-Mo in Northern Peru, the Aguila Cu-Mo project in Northern Peru, the Zafranal Cu project in Southern Peru, and the Lavaras do Sul Project in Southern Brazil.

## Magma Peruvian Subsidiary

The Company has established a subsidiary in Peru to facilitate all corporate activities in Peru. The subsidiary is known as "Minas Sami Plata S.A.C.," and the subsidiary setup was guided by our General Manager, Carlos Agreda, and the Dentons law firm, Lima office. The subsidiary name translates as "Lucky Silver Mines" in the Quechua language. Quechua is the primary language in the Ayacucho region, where Magma's project is located.

## Reader Advisory

This news release may contain forward-looking information within the meaning of applicable securities laws. All information and statements other than statements of current or historical facts contained in this news release are forward-looking information. Forward-looking statements are subject to various risks and uncertainties concerning the specific factors disclosed here and elsewhere in Magma Silver Corp.'s periodic filings with Canadian securities regulators. When used in this news release, words such as "will", "could", "plan", "estimate", "expect", "intend", "may", "potential", "should," and similar expressions, are forward-looking statements. The information provided in this document is necessarily summarized and may not contain all available material information. Forward-looking statements include those in relation to (i) the experience of the Peruvian team and the performance thereof, (ii) the expected benefits to the Company from the agreement with and the scope of services to be provided Ecosoul Environmental Impact Consultants. Although the Company believes the expectations reflected in such forward-looking statements are based on reasonable assumptions, it can't make any assurances that its expectations will be achieved. Such assumptions may prove incorrect. Although the Company has attempted to identify important factors that could cause actual results, performance, or achievements to differ materially from those contained in the forward-looking statements, there can be other factors that cause results, performance, or achievements not to be as anticipated, estimated, or intended. There can be no assurance that such information will prove to be accurate or that management's expectations or estimates of future developments, circumstances, or results will materialize. As a result of these risks and uncertainties, no assurance can be given that any events anticipated by the forward-looking information in this news release will transpire or occur, or, if any of them do so, what benefits that the Company will derive therefrom. Accordingly, readers should not place undue reliance on forward-looking statements. The forward-looking statements in this news release are made as of the date of this news release, and the Company disclaims any intention or obligation to update or revise such information, except as required by applicable law.

Neither TSX Venture Exchange nor its Regulation Services Provider (as that term is defined in the policies of the TSX Venture Exchange) accepts responsibility for the adequacy or accuracy of this release.
