

# Deep Yellow Limited: June 2025 Quarterly Activities Report

24.07.2025 | [ABN Newswire](#)

Perth, Australia - [Deep Yellow Ltd.](#) (ASX:DYL) (FRA:JMI) (OTCMKTS:DYLLF) is pleased to provide a summary of key activities completed in the June 2025 quarter.

## Tumas Project

- Subsequent to quarter end, Deep Yellow announced a detailed development update for Tumas, which demonstrated positive progress
- Detailed engineering, procurement and operational planning continues to advance
  - o Procurement of key packages representing 92% of direct capital well-advanced
  - o Vendor data for long lead items and critical associated packages have been ordered
- Contracts for power and water utility services and associated infrastructure are at an advanced stage
- Early works preparing site for commencement of major onsite works is largely completed
- Operational readiness plan underway to prepare for pre-production mining, process plant commissioning and operational ramp-up to full production
- Project financing continues to be advanced

## Mulga Rock Project

- 3-month resin mini-pilot study successfully completed, with very encouraging results
- Effective separation of the uranium and critical minerals as marketable streams confirmed
- Results allow the Company to now pursue establishing the viability of a more expansive Mulga Rock Project, with the DFS revision now underway

## Corporate

- Strong financial position with a group cash balance of A\$217.4M

## About Deep Yellow Limited:

Deep Yellow Limited (ASX:DYL) (OTCMKTS:DYLLF) is successfully progressing a dual-pillar growth strategy to establish a globally diversified, Tier-1 uranium company to produce 10+Mlb p.a.

The Company's portfolio contains the largest uranium resource base of any ASX-listed company and its projects provide geographic and development diversity. Deep Yellow is the only ASX company with two advanced projects - flagship Tumas, Namibia (Final Investment Decision expected in 1H/CY24) and MRP, Western Australia (advancing through revised DFS), both located in Tier-1 uranium jurisdictions.

Deep Yellow is well-positioned for further growth through development of its highly prospective exploration portfolio - ARP, Northern Territory and Omahola, Namibia with ongoing M&A focused on high-quality assets should opportunities arise that best fit the Company's strategy.

Led by a best-in-class team, who are proven uranium mine builders and operators, the Company is

advancing its growth strategy at a time when the need for nuclear energy is becoming the only viable option in the mid-to-long term to provide baseload power supply and achieve zero emission targets.

Importantly, Deep Yellow is on track to becoming a reliable and long-term uranium producer, able to provide production optionality, security of supply and geographic diversity.
