

Integral Metals Commences Mobilization for Diamond Drilling Program at the KAP Project

28.07.2025 | [GlobeNewswire](#)

CALGARY, July 28, 2025 - [Integral Metals Corp.](#) (CSE: INTG | OTC: ITGLF | FSE: ZK9) (the "Company" or "Integral") is pleased to announce that mobilization has commenced for the 2025 summer diamond drilling campaign at the Company's wholly owned KAP Project ("KAP"), located in the Northwest Territories ("NWT").

The Phase 4 drilling program will consist of approximately 1,000 metres of diamond drilling over a 25-day period and will target the expansion and delineation of prospective gallium and zinc mineralization at the Main Showing. This marks the first modern drill campaign at KAP, following encouraging historical results and recent technical reinterpretations.

GeoCraft Geological Services Corp. ("GeoCraft") has been retained as the primary geological contractor for the program, while Critical Discoveries Corp. ("Critical") has been engaged for camp, drilling, and mobilization services. The transportation of personnel, equipment, and camp infrastructure to site has commenced, and field operations are anticipated to begin by the end of July and will be supported by a full technical team, medical personnel, and NWT-based logistics.

Integral Metals CEO, Paul Sparkes, commented: "This drilling campaign represents a significant milestone for the KAP Project. Our objective is to verify and expand upon historical intervals, and to position the project for future potential mineral resource estimation. Mobilizing a technically strong team with a well-designed program is our next step forward."

Further updates will be provided as drilling begins.

Qualified Person

The scientific and technical content of this news release has been reviewed, verified, and approved by Jared Suchan, Ph.D., P.Geol., VP of Exploration at the Company, and a "Qualified Person" as defined by National Instrument 43-101.

ABOUT INTEGRAL METALS CORP.

Integral is an exploration stage company, engaged in the business of mineral exploration for critical minerals, including gallium, germanium, and rare earth elements, with the goal of contributing to the development of a domestic supply chain for these minerals. Integral holds properties in mining-friendly jurisdictions in Canada and the United States of America, including the Northwest Territories, Manitoba and Montana, where it has received regulatory support for its exploration efforts.

Forward-Looking Information

Certain statements contained in this press release constitute forward-looking information. These statements relate to future events or future performance. The use of any of the words "could", "intend", "expect", "believe", "will", "projected", "estimated" and similar expressions and statements relating to matters that are not historical facts are intended to identify forward-looking information and are based on the Company's current beliefs or assumptions as to the outcome and timing of such future events. In particular, this press release contains forward-looking information relating to, among other things, the Company's future plans and prospects, including with respect to the planned drilling program.

Various assumptions or factors are typically applied in drawing conclusions or making the forecasts or projections set out in forward-looking information, including, in respect of the forward-looking information included in this press release, assumptions regarding the future plans and strategies of the Company, including its ability to complete the planned drilling program as intended.

Although forward-looking information is based on the reasonable assumptions of the Company's management, there can be no assurance that any forward-looking information will prove to be accurate. Forward-looking information involves known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking information. Such factors include, among other things, the risk that the Company may be unable to complete the drilling program as planned, and that the Company's business prospects and priorities may change, whether as a result of unexpected events, general market and economic conditions or as a result of the Company's future exploration efforts, and that any such change may result in a re-deployment of the Company's resources and efforts in a manner divergent from the Company's current business plan or strategy. The forward-looking information contained in this release is made as of the date hereof, and the Company is not obligated to update or revise any forward-looking information, whether as a result of new information, future events or otherwise, except as required by applicable securities laws. Because of the risks, uncertainties and assumptions contained herein, investors should not place undue reliance on forward-looking information. The foregoing statements expressly qualify any forward-looking information contained herein.
