About Teuton

Teuton owns interests in more than twenty properties in the prolific "Golden Triangle" area of northwest British Columbia and was one of the first companies to adopt what has since become known as the "prospect generator" model.

Teuton was the original staker of the Treaty Creek property assembling the core land position in 1985. It presently holds a 20% carried interest in Treaty Creek (carried until such time as a production decision is made) as well as a 0.98% NSR in the claims covering the Goldstorm gold-silver-copper deposit. A 0.49% NSR is owned in the peripheral claims. Neither of the NSRs is subject to a buy-back. Teuton also owns many other royalties in claim packages south of Seabridge Gold's KSM property and Newmont Mining's Brucejack property. Respectfully:

"Dino Cremonese, P.Eng."
