After the Flying Squirrels' 2026 season, Dominion Energy plans to install more than 1,700 solar panels on CarMax Park's two-tiered roof, in addition to five solar-covered carports in an adjacent parking lot. The installation is expected to be among the largest in all of professional baseball, including both the major and minor leagues. It will require local and state approval.

The solar installation will generate about 1 megawatt (MW) of carbon-free electricity, enough to power 250 Richmond homes at peak output. The stadium project will also count toward the company's goal of using previously developed land for some power generation projects.

"We're thrilled that such an iconic Richmond landmark will help deliver reliable, affordable and increasingly clean power for our customers," said Ed Baine, Dominion Energy's Executive Vice President of Utility Operations and President of Dominion Energy Virginia.

If approved by regulators, the project will add to Dominion Energy's growing solar fleet in Virginia, which is the third largest in the country among utilities and produces enough power for more than 750,000 homes at peak output

"We're proud to partner with Dominion Energy Virginia to bring a new solar array to CarMax Park, further cementing Richmond's leadership in clean energy," Flying Squirrels Managing Partner Lou DiBella said. "This project isn't just about what happens inside the ballpark; it's about stepping up as a community partner and using our platform to help bring clean energy to the city."

"This solar project represents the kind of integrated, collaborative approach that's essential to achieving Richmond's clean energy goals," said Laura Thomas, Director of the City of Richmond's Office of Sustainability. "It's a great example of how public, private, and community partners can come together around a shared vision for a more resilient, sustainable future."

CarMax Park is expected to be completed by the start of the team's 2026 season and will serve as an anchor in the city's newly named Diamond District, currently under redevelopment. The Flying Squirrels are the Double-A affiliate of the San Francisco Giants.

About Dominion Energy

Dominion Energy (NYSE: D), headquartered in Richmond, Va., provides regulated electricity service to 3.6

million homes and businesses in Virginia, North Carolina, and South Carolina, and regulated natural gas service to 500,000 customers in South Carolina.
