

Bayridge Resources Corp. Announces Proposed Share Consolidation

13.08.2025 | [Newsfile](#)

[Bayridge Resources Corp.](#) (CSE: BYRG) (OTCQB: BYRRF) (FSE: OOK) (the "Company" or "Bayridge") announces that its board of directors ("Board") has approved a share consolidation on a ten (10) for one (1) basis (the "Consolidation"). The Company currently has 73,422,979 common shares (the "Shares") issued and outstanding; following completion of the Consolidation, and subject to rounding, the Company will have approximately 7,342,297 Shares issued and outstanding. The Board believes the Consolidation will provide the Company with increased flexibility to seek financing opportunities, increase interest and improve trading liquidity.

The Company does not intend to undergo a name change in conjunction with the proposed Consolidation and will provide additional details regarding the Consolidation in a subsequent news release.

About Bayridge Resources Corp.

Bayridge Resources Corp. is a green energy company advancing its portfolio of Canadian uranium projects. The 1,337 ha Waterbury East project is located 25 km northeast of the Cigar Lake Mine in the northeastern Athabasca Basin region. Geophysical surveys have identified a 7km long conductivity corridor where mid-2000's drilling highlighted faulted and altered basement rock with local uranium enrichment. Large sections of this corridor remain untested. The 11,142 ha Constellation project is located 60 km south of the present-day Athabasca Basin edge in an area of significant exploration activity for basement hosted uranium. Historic airborne radiometric, electromagnetic, and magnetic surveys identified electromagnetic conductors associated with magnetic lows.
