

Puma Exploration Inc. Announces Resumption of Field Activities

26.08.2025 | [Newsfile](#)

[Puma Exploration Inc.](#) (TSXV: PUMA) (OTCQB: PUMXF) (the "Company" or "Puma") is pleased to announce that exploration operations have restarted at its properties in Northern New Brunswick. The province's ban on all mineral activities on Crown land was lifted this morning at 12:01 am.

Marcel Robillard, President and CEO, stated: "Although the extreme wildfire hazard still exists, we are grateful that the provincial government has decided to reopen Crown land to mineral exploration. Following the good news, we immediately dispatched staff back to the field. We want to extend a special thanks to all the frontline workers who kept New Brunswickers safe in the last weeks and who continue to effectively fight the province's blazes."

The Company will provide details of its upcoming work programs and an update on its summer activities in the coming days.

2025 Annual and Special Meeting of Shareholders

The Company's annual general meeting of shareholders was held earlier today via live webcast. A total of 60,924,037 common shares were voted at the AGM, representing 33.9% of the outstanding common shares of the Company.

Shareholders voted in favour of all items of business before the AGM, including the election of all director nominees, the appointment of the auditor, and the new stock option plan. The summary of the results of the vote is as follows:

Item Voted Upon	Votes For	
	Number	%
Election of Marcel Robillard	59,251,855	99.4
Election of Richard Thibault	59,580,630	99.9
Election of Michel Fontaine	59,572,280	99.9
Election of Réjean Gosselin	59,251,855	99.4
Election of Mia Boiridy	59,251,855	99.4
Election of Jacques Dion	59,580,630	99.9
Appointment of Auditor	60,523,882	100.0
Approval of Stock Option Plan	55,775,273	93.6

About Puma's Assets in New Brunswick

Puma has accumulated an impressive portfolio of prospective gold landholdings strategically located close to roads and infrastructure in Northern New Brunswick, including the Williams Brook Project and the new McKenzie Gold Project. Both are located near the Rocky Brook Millstream Fault ("RBMF"), a major regional structure formed during the Appalachian Orogeny and a significant control for gold deposition in the region. Puma's work to date has focused on the Williams Brook property, but prospecting and surface exploration work on its other properties have confirmed their potential for significant gold mineralization.

About Puma Exploration

Puma Exploration is a Canadian mineral exploration company focused on identifying and developing a pipeline of precious metals projects in New Brunswick, near Canada's Renowned Bathurst Mining Camp. Puma has a long history in Northern New Brunswick, having worked on regional projects for over 15 years.

Puma's successful exploration methodology, which combines traditional prospecting methods with detailed trenching and cutting-edge technologies such as Artificial Intelligence, has been instrumental in facilitating an understanding of the region's geology and associated mineralized systems. Armed with geophysical surveys, geochemical data, and consultants' expertise, Puma has developed a cost-effective exploration tool to discover gold at shallow depths and maximize drilling results.
