Strategic Partnership with Brazilian Iron Ore Processor Accelerates Path to Cash Flow

Belo Horizonte, September 2, 2025 - [Atlas Critical Minerals Corp.](#) (OTCQB: JUPGF) ("Atlas Critical Minerals" or the "Company") is pleased to report that its Iron Quadrangle Project ("Project") expects to generate initial revenues in the fourth quarter of 2025. For expediency of revenue generation, mining via open-pit and processing of the extracted iron ore will be performed by an independent Brazilian iron ore company that owns a processing plant which will transform Atlas Critical Minerals' raw iron ore into high-quality sinter feed. The Company will receive revenues for its run-of-mine material and a percentage from the final sinter feed product. A photo of such iron ore processing plant is included in this release as Figure 1.

Marc Fogassa, Chairman and CEO of Atlas Critical Minerals, commented, "We are extremely pleased with the developments in our iron ore business. Our model to receive rapid revenues from iron ore at a minimal cost is expected to generate immediate profitability for this segment. Soon we may be able to reinvest such cash flows into the accelerated development of our critical minerals portfolio."

The Project is located in the renowned "Iron Quadrangle" region in the State of Minas Gerais, one of the key iron ore districts in Brazil. In 2020, the Company acquired the mineral right where the Project is located. In 2021 and 2022, it carried out detailed geological exploration, including a drilling campaign covering approximately 10% of such mineral right, leading to the publication of an initial technical report summary in 2022 prepared in accordance with the U.S. guidelines present in Item 1300 of Regulation S-K. In May 2024, the Company received a 10-year operational license from the State of Minas Gerais, and in May 2025, it received the mining concession status from the Ministry of Mines and Energy. Currently, Atlas Critical Minerals' iron ore portfolio encompasses approximately 55,057 acres across 18 mineral rights in Brazil.

About Atlas Critical Minerals Corporation

Atlas Critical Minerals Corporation (OTCQB: JUPGF) controls a large portfolio of critical mineral rights in Brazil, encompassing over 218,000 hectares, and including projects in rare earths, titanium, and graphite - minerals essential for defense applications and electrification. The Company's Iron Quadrangle Project is expected to generate initial revenues in the fourth quarter of 2025. More information is available on the Company's website at www.atlascriticalminerals.com and in its filings with the U.S. Securities and Exchange Commission.
