16.09.2025 | [GlobeNewswire](#)

PERTH, Sept. 15, 2025 - [Paladin Energy Ltd.](#) (ASX:PDN, TSX:PDN, OTCQX:PALAF) (Paladin or the Company) announces it has launched a fully underwritten equity raising, comprising (i) an A\$231 million ASX institutional placement of new Paladin fully paid ordinary shares (Shares) (ASX Placement), (ii) a Canadian "bought deal" private placement to raise C\$30 million (~A\$33 million) pursuant to the Listed Issuer Financing Exemption (as defined herein) (TSX Bought Deal), and (iii) a fully underwritten sale of ~A\$36 million of existing Shares issued and subsequently acquired as a result of the acquisition of [Fission Uranium Corp.](#) (Fission) (Treasury Share Sale), to raise a total amount of A\$300 million (together, the Offer).<sup>1</sup>

Additionally, Paladin intends to invite Eligible Shareholders (as defined herein) to participate in a non-underwritten Share Purchase Plan to acquire Shares at the same price as the ASX Placement and Treasury Share Sale to raise up to a further A\$20 million (before costs) (SPP).

Proceeds from the equity raising will primarily be used to advance the development of the Patterson Lake South project (PLS Project) towards a Final Investment Decision (FID).

## Highlights

- A fully underwritten equity raising to raise A\$300 million (before costs), comprising:
  - A fully underwritten ASX Placement to raise A\$231 million (before costs)
  - A fully underwritten TSX Bought Deal to raise ~A\$33 million (C\$30 million) (before costs)
  - A fully underwritten Treasury Share Sale at the Offer Price (as defined herein) to raise a further ~A\$36 million (before costs)
- Opportunity for Eligible Shareholders with registered addresses in Australia and New Zealand to participate via a non-underwritten SPP to raise up to a further A\$20 million (before costs)
- All Shares under the ASX Placement and SPP will be issued at a fixed price of A\$7.25 per new Share (Offer Price) and the Shares the subject of the Treasury Share Sale will be sold at the Offer Price
- Shares issued under the TSX Bought Deal will be issued at a fixed price of C\$6.66 per new Share, being the approximate C\$ equivalent of the Offer Price based on current exchange rates.<sup>1</sup>
- The Offer Price of A\$7.25 per Share represents an 8.0% discount to the last close of A\$7.88 on the ASX on 15 September 2025 and an 8.1% discount to the 5-day volume weighted average price (VWAP) of A\$7.89 on the ASX as at 15 September 2025
- Equity raising proceeds will be used to advance the following near-term priorities:
  - Completion of the PLS Project Front-End Engineering and Design (FEED) work during 2026
  - Important detailed design work ahead of PLS Project FID and construction. Detailed design drawings and materials are required for the Canadian Nuclear Safety Commission (CNSC) approvals
  - Early site works and ordering of long-lead items required pre-construction
  - General and administration costs to support permitting approvals, Indigenous Nations and community engagement and expansion of the Paladin Canada team
  - Infill and exploration drilling planned during FY2026 at the PLS Project and the Langer Heinrich Mine (LHM)
  - Provide balance sheet flexibility to conduct further exploration at the PLS Project
  - General working capital while ramping up the LHM into full mining and processing plant operations by FY2027
- The equity raising positions Paladin with the balance sheet flexibility to progress the PLS Project alongside the ongoing ramp up of the LHM, which is on track to be completed by the end of FY2026 with full mining and processing plant operations planned for FY2027

Paul Hemburrow, Paladin Managing Director and Chief Executive Officer, commented:

*"Today's equity raising will allow Paladin to swiftly progress our strategy for delivering long-term value from our asset portfolio to shareholders. The funds secured give us balance sheet flexibility to advance the PLS Project through to FID while simultaneously completing the ramp-up of operations at the LHM."*

*"With the PLS Project recently reconfirmed as a world-class uranium development asset that is underpinned by robust technical fundamentals and compelling economics, I believe we are well-positioned to capitalise on the strong outlook for the uranium market in the next decade and beyond."*

*"The equity raising allows our team to steadily progress work in a range of critical areas, including engineering, permitting, early site works and long lead item procurement, in order to keep on track for our targeted first uranium production at the PLS Project by 2031."*

Paladin acquired 100% of Fission pursuant to a court-approved plan of arrangement under the Canada Business Corporations Act in late 2024 (Fission Acquisition). The Treasury Shares were originally issued to Fission pursuant to orders made by the Supreme Court of British Columbia to facilitate the vesting and exercise of outstanding Fission options in connection with the Fission Acquisition. In accordance with section 259D of the Corporations Act 2001 (Cth) (Corporations Act), Paladin is required to sell the Treasury Shares

within 12 months of completing the Fission Acquisition. Treasury Shares sold pursuant to the Treasury Share Sale rank pari passu with existing fully paid ordinary Shares in Paladin.

The SPP will be conducted at the Offer Price of A\$7.25. The SPP is targeted to raise up to A\$20 million (before costs) and is not underwritten.

Paladin reserves the right (in its absolute discretion) to scale back applications under the SPP if demand exceeds A\$20 million, raise a higher amount or close the SPP at an earlier date. New Shares issued under the SPP will rank equally with existing fully paid ordinary Shares in Paladin from the date of issue. The SPP offer booklet, containing further details on the SPP, is expected to be released on the ASX and made available to Eligible Shareholders on or around 25 September 2025.
