"Staying the course with our strategic plan, we generated strong year-over-year growth in earnings for the year, driven by improved profitability of our operations in both Canada and South America," said Daniel Maheu, President and CEO of Orbit Garant. "Our positive results are attributable to our focus on senior and well-financed intermediate customers in Canada and South America, our disciplined approach in our business strategy, and continued execution of our operational improvement program supported by strong customer demand. Our strong growth in cash flow from operations provided us with the flexibility to significantly reduce our Credit Facility debt during the year and buy back shares through our normal course issuer bid. Our capital allocation activities will help drive further value creation for shareholders."

"The price of gold is currently at historically high levels, and the price of copper also remains strong, which provides a strong incentive for our customers to continue to invest in mine exploration and development activities. Looking ahead, we intend to stay disciplined in our business strategy, keep delivering on our operational improvement program, continuing to pay down debt to strengthen our balance sheet and remain focused on our core regions, Canada and South America. We still have significant operational capacity to service new drilling contracts in Canada and a potential to expand our regional presence with mine mobilization costs."

Fourth Quarter Results

Revenue for Q4 2025 totalled \$47.2 million, an increase of 3.9% compared to \$45.3 million for the three-month period ended June 30, 2024 ("Q4 2024"). Canada revenue totalled \$33.8 million in Q4 2025, an increase of 2.7% compared to \$32.8 million in Q4 2024, reflecting higher revenue per metre drilled. International revenue totalled \$13.4 million in Q4 2025, an increase of 7.0% compared to \$12.5 million in Q4 2024, reflecting increased drilling activity in South America.

Gross profit for Q4 2025 was \$7.6 million, or 16.0% of revenue, compared to \$7.5 million, or 16.6% of revenue, in Q4 2024. Adjusted gross margin¹, excluding depreciation expenses and a gain on disposal of property, plant and equipment, was 17.8% in Q4 2025, compared to 17.8% in Q4 2024. The increases in gross profit and adjusted gross margin¹ were primarily attributable to higher revenue per metre drilled in Canada, increased drilling activity in South America and the cessation of drilling activity in West Africa during Q2 2024, which were unprofitable.

General and Administrative expenses were \$4.2 million, or 9.0% of revenue, in Q4 2025, compared to \$4.3 million, or 9.5% of revenue, in Q4 2024.

Adjusted EBITDA¹ totalled \$5.5 million in Q4 2025 compared to \$6.7 million in Q4 2024. The decrease was primarily attributable to an unfavourable foreign exchange variance and start-up costs for a new project in South America, partially offset by increased operating earnings in Canada.

Net earnings for Q4 2025 were \$2.2 million, or \$0.06 per share (diluted), compared to a net loss of \$2.3 million, or \$0.07 per share (diluted), in Q4 2024. The Company's net earnings in Q4 2025 were primarily attributable to the effect of the substantial modification of a receivable and expected credit loss and the foreign currency translation loss on disposal of subsidiaries in Q4 2024 related to the Company's exit from West Africa, partially offset by a slight reduction in consolidated operating earnings, reduced income tax recovery and an unfavourable foreign exchange movement in Q4 2025 compared to Q4 2024.

Fiscal 2025 Results

Revenue in Fiscal 2025 totalled \$189.1 million, an increase of 4.3% compared to \$181.2 million for the year ended June 30, 2024 ("Fiscal 2024"). Canada revenue totalled \$136.1 million for Fiscal 2025, an increase of 2.6% from \$132.6 million in Fiscal 2024, reflecting higher revenue per metre drilled. International revenue for Fiscal 2025 increased by 9.0% to \$53.0 million compared to \$48.6 million in Fiscal 2024, reflecting increased drilling activity in South America.

Gross profit for Fiscal 2025 was \$28.3 million, or 15.0% of revenue, compared to \$21.2 million, or 11.7% of revenue, in Fiscal 2024. Adjusted gross margin¹, excluding depreciation expenses and a gain on disposal of property, plant and equipment, was 19.5% in Fiscal 2025, compared to adjusted gross margin¹, excluding depreciation expenses and a gain on disposal of property, plant and equipment, of 15.9% in Fiscal 2024. The increases in gross profit and adjusted gross margin¹ were primarily attributable to higher revenue per metre drilled in Canada, increased drilling activity in South America and the cessation of drilling activity in West Africa during Q2 2024, which were unprofitable.

General and Administrative expenses were \$16.7 million, or 8.8% of revenue, in Fiscal 2025, compared to \$16.4 million, or 9.1% of revenue, in Fiscal 2024. The increase in Fiscal 2025 reflects annual inflationary wage adjustments and increased marketing and promotional activities.

Adjusted EBITDA¹ totalled \$21.7 million in Fiscal 2025 compared to \$14.7 million in Fiscal 2024. The increase reflects increased operating earnings in both Canada and South America, and a favourable foreign exchange gain.

Net earnings for Fiscal 2025 were \$7.5 million, or \$0.20 per share (diluted), compared to a net loss of \$2.4 million, or \$0.06 per share (diluted), in Fiscal 2024. The Company's net earnings in Fiscal 2025 were primarily attributable to increased operating earnings in both Canada and South America, the effect of a substantial modification of a receivable and expected credit loss, the foreign currency translation loss on disposal of subsidiaries in Q4 2024, interest revenue, and a favourable foreign exchange gain, partially offset by increased income tax expense.

Liquidity and Capital Resources

The Company repaid a net amount of \$7.5 million on its Credit Facility in Fiscal 2025, compared to a repayment of \$0.7 million in Fiscal 2024. The Company's long-term debt under the Credit Facility, including an undrawn US\$5.0 million revolving credit facility, was \$10.0 million at December 31, 2025, compared to \$10.0 million at December 31, 2024.

and the current portion, was \$14.0 million as at June 30, 2025, compared to \$21.5 million as at June 30, 2024.

On October 28, 2024, the Company announced that the Toronto Stock Exchange ("TSX") accepted its notice of intention to make a normal course issuer bid (the "NCIB Program") to purchase outstanding common shares of Orbit Garant on the open market in accordance with the rules of the TSX. Pursuant to the NCIB Program, Orbit Garant may purchase, from time to time, in up to 1,868,637 common shares over a 12-month period commencing on October 31, 2024, and terminating on October 31, 2025. During Fiscal 2025, the Company repurchased and cancelled 68,916 of its common shares at a weighted average price of \$0.26 per share pursuant to its NCIB Program. As at June 30, 2025, Orbit Garant had 37,579,840 common shares issued and outstanding.

As at June 30, 2025, the Company's working capital totalled \$50.4 million, compared to \$48.6 million as at June 30, 2024. Orbit Garant's working capital requirements are primarily related to the funding of inventory and the financing of accounts receivable.

RECONCILIATION OF NON - IFRS FINANCIAL MEASURES

Financial data has been prepared in conformity with International Financial Reporting Standards ("IFRS"). However, certain non-IFRS financial measures used in this discussion and analysis do not have any standardized meaning under IFRS and could be calculated differently by other companies. The Company believes that certain non-IFRS financial measures, when presented in conjunction with comparable IFRS financial measures, are useful to investors and other readers because the information is an appropriate measure to evaluate the Company's operating performance. Internally, the Company uses this non-IFRS financial information as an indicator of business performance. These measures are provided for information purposes, in addition to, and not as a substitute for, measures of financial performance prepared in accordance with IFRS.

E BITDA, adjusted EBITDA and adjusted EBITDA margin: EBITDA is defined as net earnings (loss) before interest, taxes, depreciation and amortization. Adjusted EBITDA is defined as EBITDA excluding the impact of (i) the effect of foreign exchange on the sale of receivable and expected credit loss, (ii) reclassification of currency exchange gains and losses, (iii) interest revenue from the collection of the long-term receivable and (iv) the impact of the percentage of adjusted EBITDA to contract revenue.

Adjusted gross profit and adjusted gross margin: Adjusted gross profit is defined as gross profit excluding depreciation and amortization. Adjusted gross margin is defined as the percentage of adjusted gross profit to contract revenue.

EBITDA, Adjusted EBITDA and Adjusted EBITDA Margin

Management believes that EBITDA, Adjusted EBITDA and Adjusted EBITDA Margin are important measures when analyzing operating profitability, as they remove the impact of financing costs, certain non-cash items, income taxes and restructuring costs. As a result, Management considers these measures as useful and comparable benchmarks for evaluating the Company's performance, as companies rarely have the same capital and financing structure.

Adjusted Gross Profit and Adjusted Gross Margin

Although adjusted gross profit and adjusted gross margin are not recognized financial measures defined by IFRS, Management considers them to be important measures as they represent the Company's core profitability, without the impact of depreciation expense. As a result, Management believes they provide a useful and comparable benchmark for evaluating the Company's performance.
