

# Global Uranium Corp. Announces Plans for Fieldwork in Wyoming, USA

01.10.2025 | [GlobeNewswire](#)

CALGARY, Oct. 01, 2025 - [Global Uranium Corp.](#) (CSE: GURN | OTC: GURFF | FRA: Q3J) (the "Company") is pleased to announce its intention to initiate fieldwork on the Airline Project, located in the Copper Mountain District of Wyoming. The program will be designed to advance the Company's understanding of surface radiometric signatures and provide the foundation for follow-up exploration.

The Airline Project was acquired for its strategic position adjacent to past-producing roll-front uranium deposits. Upcoming fieldwork will focus on evaluating radiometric trends across priority claims and establishing a framework for identifying potential extensions of known mineralization. This initial phase will allow the Company to refine survey design and prepare for subsequent programs that build toward drill targeting.

Ungad Chadda, CEO of Global Uranium, commented: "We are excited to return to the Airline Project for our second round of fieldwork. The first program gave us confidence in the project's potential, and this next step aims to build on that foundation as we continue to advance exploration in Wyoming's uranium districts."

## QUALIFIED PERSON

Jared Suchan, Ph.D., P.Geo., Global Uranium's Vice President of Exploration, and a "Qualified Person" under National Instrument 43-101, has reviewed and approved the contents of this news release.

For a discussion of the Company's QA/QC and data verification procedures and processes, please see its technical report entitled, "NI 43-101 on the Northwest Athabasca Project Northern Saskatchewan Centered at: Latitude 59°24'00" N, Longitude 109°54'00" W", a copy of which may be obtained under the Company's profile at [www.sedarplus.ca](http://www.sedarplus.ca).

About Global Uranium Corp.

Global Uranium Corp. focuses on exploring and developing uranium assets primarily in North America. The Company currently holds key uranium projects: the Wing Lake Property in the Mudjatik Domain of Northern Saskatchewan, Canada; the Northwest Athabasca Joint Venture with [Forum Energy Metals Corp.](#) and [NexGen Energy Ltd.](#) in the Northwest Athabasca region of Saskatchewan, Canada; and the Great Divide Basin District Projects, the Gas Hills District Projects, and the Copper Mountain District Projects in Wyoming, USA.

Forward-Looking Statements

*Certain statements contained in this press release constitute forward-looking information. These statements relate to future events or future performance. The use of any of the words "could", "intend", "expect", "believe", "will", "projected", "estimated" and similar expressions and statements relating to matters that are not historical facts are intended to identify forward-looking information and are based on the Company's current belief or assumptions as to the outcome and timing of such future events. In particular, this press*

*release contains forward-looking information relating to, among other things, the intention to continue exploration efforts on the Project; and the expectation that natural attenuation will allow the site to recover without further action.*

*Although forward-looking information is based on the reasonable assumptions of the Company's management, there can be no assurance that any forward-looking information will prove to be accurate. Forward-looking information involves known and unknown risks, uncertainties and other factors which may cause the actual results, performance or achievements to be materially different from any future results, performance or achievements expressed or implied by the forward-looking information. Such factors include the risk that exploration of the Project may not continue, whether as a result of a lack of financial resources, a failure to receive the requisite permits or approvals; the risk that exploration of the Project will not progress as currently contemplated and, that, even if exploration does proceed as anticipated, such exploration activities may not achieve their anticipated outcomes; risks inherent in the exploration and development of mineral projects, including risks relating to receiving requisite permits and approvals, changes in project parameters or delays as plans continue to be redefined, that mineral exploration is inherently uncertain and that the results of mineral exploration may not be indicative of the actual geology or mineralization of a project; the risk that mineral exploration may be unsuccessful or fail to achieve the results anticipated by the Company; risks related to joint ventures and the other risks and factors identified by the Company in its continuous disclosure filings, filed on the Company's SEDAR+ profile at [www.sedarplus.ca](http://www.sedarplus.ca).*

*The forward-looking information contained in this release is made as of the date hereof, and the Company is not obligated to update or revise any forward-looking information, whether as a result of new information, future events or otherwise, except as required by applicable securities laws. Because of the risks, uncertainties and assumptions contained herein, investors should not place undue reliance on forward-looking information. The foregoing statements expressly qualify any forward-looking information contained herein.*

*The Canadian Securities Exchange has not reviewed, approved, or disapproved the contents of this press release.*
