

Northcliff Resources Ltd. To Attend Critical Minerals Forum & Exploration Mining & Petroleum Conference

06.10.2025 | [CNW](#)

[Northcliff Resources Ltd.](#) ("Northcliff" or the "Company") (TSX: NCF) advises that its Chairman, President & CEO Andrew Ing will be attending two events in October.

Mr. Ing has accepted an invitation to join the Critical Minerals Forum ("CMF"), a US Defense Advanced Research Projects Agency (DARPA) funded, not-for-profit trade association dedicated to building resilient and diversified critical mineral supply chains, and will attend the CMF's Summit in Washington, DC from October 7-8, 2025. The CMF Summit will convene discussions among government officials and industry executives on supply chain challenges, followed by a session on attracting the necessary investments from public and private investors, and through offtake agreements to build the mineral supply chains, targeting tungsten and other critical minerals.

Chairman, President and CEO Andrew Ing said, "Northcliff is pleased to be among the producers, processors, end users, and public sector officials at the CMF Summit, and gain additional insights on the critical mineral supply chain, and supply and demand projections for these minerals."

On October 26-28, 2025, Mr. Ing will attend the New Brunswick Department of Natural Resources 50th annual Exploration, Mining and Petroleum ("EMP") Conference taking place in Fredericton, New Brunswick. EMP is Atlantic Canada's leading event for the exploration and mining sectors, offering opportunities for collaboration, and new ideas and investment. Northcliff will have a booth at the EMP conference and Mr. Ing will also be speaking on the recent developments at Northcliff's Sisson Project in New Brunswick.

The Sisson Project hosts a significant tungsten-molybdenum deposit. Tungsten and molybdenum are listed as critical metals in Canada, and one or both are also on the lists of other countries around the world, with tungsten listed as a critical mineral in the US.

"Northcliff's aim is to contribute to the efforts to build the North American supply chain by becoming a reliable, easily accessible producer of tungsten and molybdenum," said Mr. Ing. "My presentation will focus on the potential role that Sisson, a project at the pre-construction stage could take in the global supply chain for tungsten and molybdenum as well as discussing the growing uses for these critical minerals in digital technology, clean energy and national defense."

About Northcliff Resources Ltd.

Northcliff is a mineral resource company focused on advancing the feasibility-stage Sisson Tungsten-Molybdenum Project located in New Brunswick, Canada, to production. Additional information on Northcliff is available on the website at www.northcliffresources.com. Investor services can be reached at (604) 684-6365 or within North America at 1-800-667-2114.

On behalf of the Board of Directors
Andrew Ing
Chairman, President & Chief Executive Officer

Forward-Looking Information

This news release contains forward-looking information based on current expectations. Forward-looking

information is provided for the purpose of presenting information about management's current expectations and plans relating to the future and readers are cautioned that such statements may not be appropriate for other purposes. Forward looking information may include, without limitation, the opinions or beliefs of management, prospects, opportunities, priorities, targets, goals, ongoing objectives, milestones, strategies, and outlook of Northcliff, and includes statements about, among other things, future developments, the future operations, strengths and strategy of Northcliff. Generally, forward looking information can be identified by the use of forward looking terminology such as "plans", "expects" or "does not expect", "is expected", "budget", "scheduled", "estimates", "forecasts", "intends", "anticipates" or "does not anticipate", or "believes", or variations of such words and phrases or state that certain actions, events or results "may", "could", "would", "might" or "will be taken", "occur" or "be achieved". These statements should not be read as guarantees of future performance or results. These statements are based upon certain material factors, assumptions and analyses that were applied in drawing a conclusion or making a forecast or projection, including Northcliff's experience and perceptions of historical trends, the ability of Northcliff to maximize shareholder value, current conditions and expected future developments, as well as other factors that are believed to be reasonable in the circumstances.

Although such statements are based on management's reasonable assumptions at the date such statements are made, there can be no assurance that such forward-looking information will prove to be accurate, as actual results and future events could differ materially from those anticipated in such forward-looking information. Accordingly, readers should not place undue reliance on forward-looking information. Northcliff assumes no responsibility to update or revise forward-looking information to reflect new events or circumstances unless required by applicable law. For additional information regarding forward-looking statements and their related risks, please refer to the "Risk Factors" section in the Annual Information Form of the Company for the year ended on October 31, 2024, which is available on the Company's SEDAR+ profile at www.sedarplus.ca.
