

Surge Battery Metals Announces Clarification on Previously Announced Non-Brokered LIFE Offering

08.10.2025 | [Newsfile](#)

West Vancouver, October 7, 2025 - [Surge Battery Metals Inc.](#) (TSXV: NILI) (OTCQX: NILIF) (FSE: DJ5) (the "Company" or "Surge") wishes to make a clarification with respect to its previously announced non-brokered private placement offering (the "LIFE Offering") of up to 20,000,000 units (the "Offered Units") at a price of \$0.25 per Offered Unit for aggregate gross proceeds of \$5,000,000, pursuant to the listed issuer financing exemption available under Part 5A of National Instrument 45-106 - Prospectus Exemptions. Each Offered Unit will consist of one common share of the Company (a "Common Share") and one Common Share purchase warrant (a "Warrant"). Each Warrant will entitle the holder thereof to acquire one Common Share at an exercise price of \$0.40 for a period of three years from the date of issuance. In connection with the offering 3L Capital Inc. is acting as financial advisor to the transaction.

The Company previously announced that the proceeds of the LIFE Offering will, among other matters, position Surge to meet near-term funding commitments under the contemplated joint venture (the "JV") with [Evolution Mining Ltd.](#) on the Nevada North Lithium Project. The Company wishes to clarify that the LIFE Offering is not conditional on the formation of the JV and in the event the JV is not formed, the Company will use certain proceeds currently contemplated for the JV for other purposes as further set out in the Amended Offering Document (as defined below). There is no certainty that the JV will be formed and the TSX Venture Exchange has not approved the proposed JV.

There is an amended and restated offering document relating to the LIFE Offering (the "Amended Offering Document") that can be accessed under the Company's profile at www.sedarplus.ca and at <https://surgebatterymetals.com/>. Prospective investors in the LIFE Offering should read the Amended Offering Document before making an investment decision.

The securities issued pursuant to the LIFE Offering have not, nor will they be registered under the United States Securities Act of 1933, as amended, and may not be offered or sold within the United States or to, or for the account or benefit of, U.S. persons in the absence of U.S. registration or an applicable exemption from the U.S. registration requirements. This news release shall not constitute an offer to sell or the solicitation of an offer to buy nor shall there be any sale of the securities in the United States or in any other jurisdiction in which such offer, solicitation or sale would be unlawful.

About Surge Battery Metals Inc.

Surge Battery Metals, a Canadian-based mineral exploration company, is at the forefront of securing the supply of domestic lithium through its active engagement in the Nevada North Lithium Project. The project focuses on exploring for clean, high-grade lithium energy metals in Nevada, USA, a crucial element for powering electric vehicles. With a primary listing on the TSX Venture Exchange in Canada and the OTCQX Market in the US, Surge Battery Metals Inc. is strategically positioned as a key player in advancing lithium exploration.
