About the Coneto Silver-Gold Project:

The Project is located approximately 100 kilometers north of Durango City, within the historic Coneto Mining District, one of Mexico's oldest and most prolific silver-gold camps. The district hosts some of the country's most significant deposits, including Fresnillo, Guanajuato, and Zacatecas, as well as nearby development projects such as La Preciosa ([Avino Silver & Gold Mines Ltd.](#)) and La Pitarrilla (Endeavour Silver Corp.).

The Project covers 4,995 hectares of mineral concessions previously held 55% by Fresnillo and 45% by Orex under an association agreement, with Fresnillo as the project operator. More than 40 known epithermal quartz veins have been mapped across several kilometers of strike, with some exceeding 20 meters in width and extending for over a kilometer.
