

Gold & Silver Surge in 2025 - Newport Gold Group Simplifies Precious Metals Investing

30.10.2025 | [PR Newswire](#)

With gold prices surpassing \$4,400 per ounce in 2025, [Newport Gold Group](#), a new leader in the precious metals industry, proudly announces its nationwide launch from Calabasas, California. Founded by Cody T. Weselis, an experienced professional who served as Senior Account Executive and Sr. Director at leading precious metals firms, Newport Gold Group is dedicated to helping customers acquire physical gold and silver with clarity, trust, and competitive pricing.

Gold has long been recognized for its potential to enhance portfolio diversification, thanks to its minimal correlation with traditional investments like equities and fixed-income securities. As a reliable "store of value," it can play a key role in reducing exposure to risks amid fluctuating markets, global tensions, and economic downturns-factors that likely contributed to its notable price increase earlier this year. Furthermore, gold often functions as an effective safeguard against rising prices, with historical data showing a tendency for its value to climb when the U.S. dollar depreciates. In this thriving precious metals market, Newport Gold Group stands out by prioritizing education over high-pressure sales. "I saw a need to make gold and silver investing accessible and transparent," says Cody, Founder and CEO. "We empower everyone-from first-time buyers to seasoned investors-to diversify their portfolios with confidence."
