

Metalla Royalty & Streaming Ltd. Increases Its Côté & Gosselin Royalty To 1.5% And Provides Portfolio Updates

03.11.2025 | [CNW](#)

[Metalla Royalty & Streaming Ltd.](#) ("Metalla" or the "Company") (NYSE American: MTA) (TSXV: MTA) is pleased to announce it has completed the acquisition of the remaining 0.15% interest in a net smelter return ("NSR") royalty on a portion of the Côté Gold Mine ("Côté") and all of the Gosselin project ("Gosselin"), owned by [IAMGOLD Corporation](#) ("IAMGOLD") (NYSE: IAG) (TSX: IMG) and Sumitomo Metal Mining Co., Ltd. (the "Côté / Gosselin Royalty"), and now holds a consolidated 1.5% of the Côté / Gosselin Royalty.

"The additional 0.15% of the Côté / Gosselin Royalty further strengthens our position on one of the most significant gold assets in Canada," commented Brett Heath, Chief Executive Officer of Metalla. "By increasing our royalty, we have enhanced our leverage to one of the premier gold assets globally. IAMGOLD continues to demonstrate the scale and quality of the Côté-Gosselin system. We expect this acquisition to further bolster Metalla's portfolio as IAMGOLD expects to integrate Gosselin into the mine plan and resources continue to expand."

Côté / Gosselin (1.5% NSR royalty)

On October 31, 2025 Metalla completed the acquisition of the remaining 0.15% interest in the Côté / Gosselin Royalty for total consideration of C\$3.4 million in cash from an arm's length seller. The acquisition increases Metalla's total royalty percentage to 1.5%.

The Côté mine reached commercial production in August 2024 after pouring its first gold in March 2024 and has achieved nameplate processing capacity of 36,000 tonnes per day. With plans to integrate the Gosselin deposit into an updated mine plan and boost overall throughput, Côté / Gosselin is positioned to become one of Canada's largest gold-producing complexes.

IAMGOLD disclosed on August 7, 2025 that it plans to drill a total of 45,000 meters at Gosselin in 2025 and expects results from the 2024 and 2025 Gosselin exploration programs to be incorporated into an updated Mineral Reserve and Resource estimate in 2026, as well as an updated technical report, considering a larger-scale operation with a conceptual plan targeting both the Côté and Gosselin zones. IAMGOLD expects the updated technical report to be completed by year-end 2026.

- Wharf - 2025 production guidance at Wharf increased to 93-103 Koz gold.

La Guitarra (2.0% NSR royalty)

Metalla holds a 2.0% NSR royalty on [Sierra Madre Gold and Silver Ltd.](#)'s ("Sierra Madre") La Guitarra silver-gold mine complex ("La Guitarra") in the Temascaltepec mining district, Mexico.

On September 8, 2025, Sierra Madre outlined a two-stage expansion plan at La Guitarra. The planned expansions would increase the site's nameplate processing capacity from 500 tonnes per day ("tpd") to approximately 750-800 tpd by Q2 2026. Sierra Madre then intends to further increase capacity to roughly 1,200-1,500 tpd by Q3 2027 through the construction of a new dry-stack tailings facility and the installation of a second crushing circuit.

On October 23, 2025, Sierra Madre announced a \$3.5 million exploration program focused on the East district of the La Guitarra mine complex. The program will begin with drill-target definition through mapping and surveying, including work around the historic El Rincon mine, followed by a 20,000-25,000-meter drill campaign.

For more information, please view the Sierra Madre's September 8, 2025 Press Release and Sierra Madre's October 23, 2025 Press Release.

La Parrilla (2.0% NSR royalty)

Metalla holds a 2.0% NSR royalty interest on [Silver Storm Mining Ltd.](#)'s ("Silver Storm") La Parrilla Mine Complex ("La Parrilla") in Durango, Mexico.

On October 21, 2025, Silver Storm reported that rehabilitation activities had commenced at La Parrilla, with engineers engaged and mobilized, long-lead items ordered for the sulphide circuit expansion to 1,250 tpd, and SRK Consulting retained to review the restart plan.

The President and CEO of Silver Storm stated: "With the existing infrastructure in place and recent financings completed, we are taking decisive steps in respect of the Silver Storm's objective of bringing the historic La Parrilla back into production and creating value for our shareholders and the communities of Durango. Rehabilitation and preparation activities will take seven to nine months, and subject to further technical evaluations, we could target the potential restart of operations as early as the second quarter of 2026".

For more information, please view the Silver Storm's October 10, 2025 Press Release and Silver Storm's October 21, 2025 Press Release.

Endeavor (4.0% NSR royalty)

Metalla holds a 4.0% NSR royalty interest on Polymetals Resources Ltd.'s ("Polymetals") Endeavor Mine

("Endeavor") in Cobar, Australia.

On October 31, 2025, Polymetals provided an update in relation to a fatal incident that occurred at Endeavor on October 28, 2025 that resulted in all mining and surface operations being suspended pending completion of an investigation into its cause. Polymetals has announced plans to take a staged approach to recommencing operations at Endeavor with exploration drilling and concentrate transport expected to commence next week. Personnel are expected to return to work on November 5, 2025, with the progressive resumption of mining and processing activities.

Metalla wishes to extend our deepest condolences to the families and all those impacted by the recent tragic events in Cobar, Australia.

On October 23, 2025, Polymetals reported the discovery of a new zone of massive sulphides south of the Endeavor Mine in the Carpark prospect. Polymetals stated that visual evidence from the drill holes completed support the likely presence of a significant mineralized structure in the area.

San Luis (1.0% NSR royalty)

Metalla holds a 1.0% NSR royalty on Highlander Silver's ("Highlander") San Luis gold-silver project ("San Luis") in Central Peru.

On September 16, 2025, Highlander reported results of step out drilling to the southeast of prior drilling at the Bonita Open Pit target with high grade intercepts of 7.43 g/t gold and 16.45 g/t silver over 24.8 meters and 3.42 g/t gold and 16.93 g/t silver over 40.4 meters.

On October 6, 2025 Highlander reported drill results from the expanding Bonita drill program with the discovery of a new zone called Kusy. The highlight intercept from Kusy returned 15.56 g/t gold and 74.49 g/t silver over 23.6 meters.

For more information, please view the Highlander Sept 16, 2025 Press Release and Highlander October 6, 2025 Press Release.

Wharf (1.0% royalty)

Metalla holds a 1.0% GVR royalty on [Coeur Mining Inc.](#)'s ("Coeur") Wharf mine.

On October 29, 2025, Coeur increased its full year production guidance for 2025 at Wharf to 93 - 103 Koz gold, reflecting strong year-to-date performance and higher expected grades in the fourth quarter.

Exploration expenditures at Wharf for the third quarter were \$3 million with expansion and infill drilling programs at Juno completed during the quarter.
