

Ex-Tullow Oil Executive, Robin Sutherland, Joins Record Resources as Director

03.11.2025 | [Newsfile](#)

Calgary, November 3, 2025 - [Record Resources Inc.](#) (TSXV: REC) has appointed ex-Tullow Oil executive, Robin Sutherland, as director.

Sutherland was Exploration Manager for Tullow Oil during the discovery and appraisal of Ghana's Jubilee Oil Field in 2007. The field was co-developed by Kosmos Energy, Anadarko, and Tullow. Jubilee was considered one of the largest oil discoveries of its kind in West Africa. During its peak it was producing over 110,000 barrels of oil per day.

Sutherland was also instrumental in the discovery and appraisal of the TEN oil fields in Ghana and exploration and appraisal campaigns across the east African rift, including the South Lokichar basin in Kenya, before becoming Tullow's General Manager Exploration Africa in 2015.

Sutherland is presently a director of Invictus Energy Limited. He is joined there by well-known oil and gas executive, John Bentley, the leader of the management team that launched Cape Town-Energy Africa Ltd in 1995. Sutherland joined Energy Africa in 1997 as a specialist geophysicist and was instrumental in making several important hydrocarbon resource discoveries prior to the acquisition of Energy Africa by Tullow in 2004.

In 2020, Robin launched a successful consultancy business, assisting companies with exploration, appraisal and development of Africa's extensive natural resources. During this period he co-founded the Mozambique-Southern Africa Power Project designed to utilize Mozambique's gas resources to generate power locally and across southern Africa.

Record Resources President and COO, Alain Mizelle, said "Robin has been in the oil and gas E&P business for 40 years. He is not only an outstanding career specialist geophysicist, but his track record of achievements as an oil and gas finder for Energy Africa, Tullow Oil and recently Invictus speaks loudly. He will reinforce greatly our board and the success of the company."

The appointment of Robin Sutherland to the Board of Directors of the Company is subject to approval of the TSX Venture Exchange.

Cautionary Note Regarding Forward-Looking Statements:

This news release contains forward-looking statements and/or forward-looking information (collectively, "forward-looking statements") that are based on Record Resources' current expectations, estimates, forecasts and projections. The words "estimates", "projects", "expects", "intends", "believes", "plans", or their negatives or other comparable words and phrases are intended to identify forward-looking statements and include statements regarding management's expectation anticipated production timeline, the 28 mapped prospects; management's exploration and development plans; and all other expectations, intentions, and plans that are not historical fact.

Forward-looking statements are based on a number of material factors, expectations, or assumptions of Record Resources which have been used to develop such statements and information but which may prove to be incorrect. Although Record Resources believes that the expectations reflected in such forward-looking statements are reasonable, undue reliance should not be placed on forward-looking statements because Record Resources can give no assurance that such expectations will prove to be correct. In addition to other factors and assumptions which may be identified herein, assumptions have been made regarding, among other things: that Record Resources will continue to conduct its operations in a manner consistent with past operations; the quality of the reservoirs in which Record Resources operates; the timely development of infrastructure in areas of new production; certain cost assumptions; continued availability of equity financing to fund Record Resources' current and future plans and expenditures; the impact of increasing competition; the general stability of the economic and political environment in which Record Resources operates; the general continuance of current industry conditions; the timely receipt of any required regulatory approvals; the ability of Record Resources to obtain qualified staff, equipment and services in a timely and cost efficient manner; drilling results; the ability of Record Resources to obtain financing on acceptable terms; the ability to replace and expand oil and natural gas reserves through acquisition, development and exploration; the timing and cost of facility construction and expansion and the ability of Record Resources to secure adequate product transportation; future commodity prices; currency, exchange and interest rates; regulatory framework regarding royalties, taxes and environmental matters in the jurisdictions in which Record Resources operates; and the ability of Record Resources to successfully market its oil and natural gas products.

Certain information in this document may constitute "analogous information" as defined in National Instrument 51-101 - Standards of Disclosure for Oil and Gas Activities ("NI-51-101"), including but not limited to, information relating to the reservoirs in geographical proximity to lands that are held (or to be held) by Record Resources. Such information has been obtained from government sources, regulatory agencies or other industry participants. Record Resources believes the information is relevant as it helps to define the reservoir characteristics in which Record Resources may hold (or acquire) an interest. Record Resources is unable to confirm that the analogous information was prepared by a qualified reserves evaluator or auditor. Such information is not an estimate of the reserves or resources (or production levels) attributable to lands held or potentially to be held by Record Resources and there is no certainty that the reservoir data and economics information for the lands held or potentially to be held by Record Resources will be similar to the information presented herein. The reader is cautioned that the data relied upon by Record Resources may be in error and/or may not be analogous to such lands to be held by Record Resources.
